Concert Song As Seen Kinesthetic Aspects Of Musical Interpretation:

Concert Song as Seen Sara K. Schneider, 1994 The substantive value of a performer's presence in co-creating a musical art work is examined in Schneider's insightful new book. Recital singing is placed within the history of solo performance since the baroque period especially with reference to rhetorical style and eighteenth century acting technique. A first hand look at modern conservatory training highlights the pedagogical styles and their effects on learning of Antonia Lavane Mannes College of Music Cynthia Hoffman Manhattan School of Music and Paul Sperry Juilliard School. The solutions that singers have found or in the case of performers deconstructing the song tradition have created to address the problem of a musically determined gesture will surely benefit the professional singer the teacher and the student of voice. **Art of Darkness** Sara K. Schneider, 2008 Just like Scheherazade undercover agents talk to save their lives. If they put in a poor performance they don't see the curtain rise again. ART OF DARKNESS pries open the virtuoso identity techniques practiced by undercover operatives fugitives disguise artists pranksters con artists and federally protected witnesses. It draws on original interviews with undercover operators in order to show how identity artists on both sides of the law obtain fake ID develop a disguise build a cover story maintain believability in street performances and deal with threats to their identities all without formal acting training. ART OF DARKNESS inhabits the grey areas of morality as it exposes identity roleplays at the borders of lawfulness. In it you'll find stories of law enforcement workers who adopt the techniques of criminals in order to catch them but somehow get caught up in their own trick identities self-defined artists whose work also has a criminal dimension criminal informants who masterfully play sides and roles against each other and hoaxsters and impersonators who may perform trick identities primarily for gain but do so with tremendous inventiveness and a directorial consciousness. This book may explode any remaining notion you harbor that you are not at some level a member of the intelligence community discerning who is for real and who is presenting a self for personal gain. **With a Song in My Psyche** Pearl Shinn Wormhoudt, 2001 This studies the psychology of singing and teaching singing.
