Framework Marek Neuman,2018-07-20 This book presents a topical holistic assessment of the European Union s democracy promotion in South East Europe Eastern Europe and Central Asia analyzed through the prism of the Normative Power Europe NPE framework of transnational policy formation To do so it brings together three scholarly domains that traditionally stand apart and are discussed separately The first addresses the notion of the European Union conducting a normatively driven foreign policy both near and far abroad The second is concerned with the legitimacy operationality and effectiveness of promoting democracy in third world countries The third addresses the quality of the relationship the European Union has been able to establish with some vital yet often troubled countries in South East Europe Eastern Europe

and Central Asia Finally based on the empirical findings presented in each chapter this volume concludes by rethinking the concept and relevance of NPE to the field s understanding of the EU s foreign policy making This edited volume offers the reader both a theoretically and empirically rich analysis of the European Union s efforts to promote democracy abroad As such is scholars and students of EU studies particularly EU foreign policy as well as policy makers at EU and national level and civil society representatives responsible for designing implementing democracy promoting projects on the ground
