Conducting Beethoven Vol 2 Overtures Concertos Missa Solemnis:

Nineteenth-Century Choral Music Donna M. Di Grazia, 2013-03-05 Nineteenth Century Choral Music is an in depth examination of the rich repertoire of choral music and the cultural phenomenon of choral music making throughout the period The book is divided into three main sections The first details the attraction to choral singing and the ways it was linked to different parts of society and to the role of choral voices in the two principal large scale genres of the period the symphony and opera A second section highlights ten choral orchestral masterworks that are a central part of the repertoire The final section presents overview and focus chapters covering composers repertoire both small and larger works and performance life in an historical context from over a dozen regions of the world Britain and Ireland the Czech Republic France Germany Hungary Italy Latin America the Philippines Poland Russia Scandinavia and Finland Spain and the United States This diverse collection of essays brings together the work of 25 authors many of whom have devoted much of their scholarly lives to the composers and music discussed giving the reader a lively and unique perspective on this significant part of nineteenth century musical life

Conducting Berlioz Norman Del Mar, 1997 Berlioz the enfant terrible of music if ever there was one was always a favorite of the late Norman Del Mar In this volume seen through the press by his son Jonathan Norman Del Mar brings all his wide experience to the explanations and elucidation of the more difficult points of conducting these works The most imaginative orchestrator ever is treated with wisdom and perception and many doubtful technical points are clarified in this invaluable handbook Anyone wanting to know more about Berlioz s works be they student or music loving listener will find their enjoyment enhanced after reading this indispensable study The three extraordinary symphonies are considered in detail followed by six overtures and other important works The volume culminates in chapters on the Grande Messe des morts and Te Deum which give true insight into these major choral pieces Del Mar s writing style is easily approachable and carries the reader along in eager anticipation as understanding is assimilated from his own infectious enthusiasm

Conducting Favourite Concert Pieces Norman Del Mar, 1998 This collection of essays on the interpretation of twenty two unusual concert pieces was assembled partly with a view to more imaginative program planning There are many composers who may have written only one or two masterpieces yet failed to leave a worthy oeuvre these sadly are often forgotten or overlooked when conductors assemble programs This compilation spans a little over a hundred years from the 19th and 20th centuries and all the works are colorful and attractive Once again Norman Del Mar brings his expertise in handling the orchestra to a wide variety of styles His infectious enthusiasm and broad knowledge make him an invaluable guide to the aspiring conductor the expert and the music loving listener The essays range from Russia to Spain from Schoenberg to Kodaly from Wolf to Poulenc with such established favorites as the overture to La Forza del Destino with its unexpected tricky moments and the Four Sea Interludes and Passacaglia from Peter Grimes for which Del Mar offers suggestions from Britten himself with whom he worked for many years

Conducting Elgar Norman Del Mar, 1998 This is

the final book in the series on orchestral conducting that Norman Del Mar had been writing until his death in February 1994. As with the previous books each chapter is devoted to a specific work and once again all the major orchestral works of this important composer are covered. The book culminates in an important study of *The Dream of Gerontius* completed by his son Jonathan himself. A conductor, Norman Del Mar was renowned in his generation as an interpreter of English music and in particular for his understanding of Elgar's music. His explanations of the subtleties of guiding an orchestra through these magnificent scores are an invaluable help to all those who seek to clarify this elusive music. Elgar's own recordings are frequently consulted but not always accepted.

Beethoven: Violin Concerto Robin Stowell, 1998-02-12. Beethoven's Violin Concerto was the only significant work of this genre to appear between Mozart's five concertos of 1775 and Mendelssohn's E minor Concerto of 1844. This handbook explores the background to Beethoven's work, its genesis, its place in the composer's oeuvre and the influences which combined in its creation. It describes contemporary reactions to the work both in the musical press and in the concert hall during its first crucial years and explains how it was eventually accepted into the repertoire, spawning numerous recordings and editions. The principal sources and many of the work's textual problems are considered, including discussion of the composer's version for piano and orchestra, Op. 61a. A detailed account of the work itself is followed by a review of the wide variety of cadenzas that have been written to complement the concerto through its performance history.

Brio, 1992

Choral-Orchestral Repertoire Jonathan D. Green, David W. Oertel, 2019-12-05. *Choral-Orchestral Repertoire: A Conductor's Guide* Omnibus Edition offers an expansive compilation of choral orchestral works from 1600 to the present. Synthesizing Jonathan D. Green's earlier six volumes on this repertoire, this edition updates and adds to the over 750 oratorios, cantatas, choral symphonies, masses, secular works for large and small ensembles, and numerous settings of liturgical and biblical texts for a wide variety of vocal and instrumental combinations. Each entry includes a brief biographical sketch of the composer, approximate duration, text sources, performing forces, available editions, and locations of manuscript materials, as well as descriptive commentary, a discography, and a bibliography. Unique to this edition are practitioner's evaluations of the performance issues presented in each score. These include the range, tessitura, and nature of each solo role and a determination of the difficulty of the choral and orchestral portions of each composition. There is also a description of the specific challenges, staffing, and rehearsal expectations related to the performance of each work. *Choral-Orchestral Repertoire* is an essential resource for conductors and students of conducting as they search for repertoire appropriate to their needs and the abilities of their ensembles.

A Dictionary for the Modern Conductor Emily Freeman Brown, 2015-08-20. *Titles in Dictionaries for the Modern Musician* A Scarecrow Press Music Series offer both the novice and the advanced artist key information designed to convey the field of study and performance for a
