Remembering North Carolina's

Confederates Michael C. Hardy, 2006 The American Civil War was scarcely over when a group of ladies met in Raleigh and
 began to plan commemoration for the honored Confederate dead of North Carolina In 1867 they held their first memorial
 service Two years later in Fayetteville the first monument to the state s fallen Confederate soldiers was erected Over the next
 14 decades countless monuments were commissioned in cemeteries and courthouse squares across the state Following
 Reconstruction the veterans themselves began to gather in their local communities and state and national reunions were held
 For many of the Confederate veterans honor for their previous service continued long after their deaths accounts of their
 sacrifice were often chiseled on their grave markers The images within this book photographs of veterans and reunions
 monuments and tombstones are but a sampling of the many ways that the old Confederate soldiers are commemorated

across the Old North State **Yale's Confederates** Nathaniel Cheairs Hughes,2008 Biographical dictionary detailing the pre and post war activities of over 500 Yale College students during the Civil War era **Pleasure Grounds of Death** Joy M. Giguere,2024 Rural cemeteries named for their expansive picturesque landscape design rather than location were established during the middle decades of the nineteenth century in the United States An instant cultural phenomenon Mount Auburn Cemetery in Cambridge Massachusetts was the nation s first such burial ground to combine the functions of the public park and the cemetery becoming a popular place to picnic and go for strolls even for people who didn t have graves to visit It sparked a nationwide movement in which communities sought to establish their own cities of the dead Pleasure Grounds of Death considers the history of the rural cemetery in the United States throughout the duration of the nineteenth century as not only a critical cultural institution embedded in the formation of community and national identities but also as major sites of contest over matters of burial reform taste and respectability and public behavior issues concerning race class and gender conflicts over the burial of the Civil War dead and formation of postwar memory and what constituted the most appropriate ways to structure the landscape of the dead in a modern and progressive society As cultural landscapes that served the needs of the living as well as the dead rural cemeteries offer a mirror for the transformations and conflicts taking place throughout the nineteenth century in American society *The Routledge Handbook of Museums, Heritage, and Death* Trish Biers,Katie Stringer Clary,2023-07-26 This book provides a comprehensive examination of death dying and human remains in museums and heritage sites around the world Presenting a diverse range of contributions from scholars practitioners and artists the book reminds us that death and the dead body are omnipresent in museum and heritage spaces Chapters appraise collection practices and their historical context present global perspectives and potential resolutions and suggest how death and dying should be presented to the public Acknowledging that professionals in the galleries libraries archives and museums GLAM fields are engaging in vital discussions about repatriation and anti colonialist narratives the book includes reflections on a variety of deathscapes that are at the forefront of the debate Taking a multivocal approach the handbook provides a foundation for debate as well as a reference for how the dead are treated within the public arena Most important perhaps the book highlights best practices and calls for more ethical frameworks and strategies for collaboration particularly with descendant communities The Routledge Handbook of Museums Heritage and Death will be useful to all individuals working with studying and interested in curation and exhibition at museums and heritage sites around the world It will be of particular interest to those working in the fields of heritage museum studies death studies archaeology anthropology sociology and history **A Lost Heroine of the Confederacy** William Galbraith,1990 *Civil War Charlotte* Michael C. Hardy,2012-06-05 Though always an important North Carolina city Charlotte truly helped to make history during the Civil War The city s factories produced gunpowder percussion caps and medicine for the Confederate cause Perhaps most importantly Charlotte housed the Confederate Naval Ordnance Depot and Naval Works manufacturing iron for ironclad

Stuart Towns,2012-01-09 Explores the crucial role of rhetoric and oratory in creating and propagating a Lost Cause public memory of the American South *Enduring Legacy* explores the vital place of ceremonial oratory in the oral tradition in the South and analyses how rituals such as Confederate Memorial Day Confederate veteran reunions and dedication of Confederate monuments have contributed to creating and sustaining a Lost Cause paradigm for Southern identity Towns studies in detail secessionist and Civil War speeches and how they laid the groundwork for future generations including Southern responses to the civil rights movement and beyond The Lost Cause orators that came after the Civil War Towns argues helped to shape a lasting mythology of the brave Confederate martyr and the Southern positions for why the Confederacy lost and who was to blame Innumerable words were spent in commemorative speeches newspaper editorials and statehouse oratory condemning the evils of Reconstruction redemption reconciliation and the new and future South Towns concludes with an analysis of how Lost Cause myths still influence Southern and national perceptions of the region today as evidenced in debates over the continued deployment of the Confederate flag and the
