Moral Aspects of Economic Growth, and Other Essays Barrington Moore, Jr., 2018-03-15 No detailed description available for Moral Aspects of Economic Growth and Other Essays

[The Oxford Encyclopedia of Economic History](#) Joel Mokyr, 2003 What were the economic roots of modern industrialism Were labor unions ever effective in raising workers living standards Did high levels of taxation in the past normally lead to economic decline These and similar questions profoundly inform a wide range of intertwined social issues whose complexity scope and depth become fully evident in the Encyclopedia Due to the interdisciplinary nature of the field the Encyclopedia is divided not only by chronological and geographic boundaries but also by related subfields such as agricultural history demographic history business history and the histories of technology migration and transportation The articles all written and signed by international contributors include scholars from Europe Latin America Africa and Asia Covering economic history in all areas of the world and segments of economies from prehistoric times to the present The Oxford Encyclopedia of Economic History is the ideal resource for students economists and general readers offering a unique glimpse into this integral part of world history

The Politics of Social Conflict Andy Wood, 1999-09-16 This book provides an alternative approach to the history of social conflict popular politics and plebeian culture in the early modern period Based on a close study of the Peak Country of Derbyshire c 1520 1770 it has implications for understandings of class identity popular culture riot custom and social relations A detailed reconstruction of economic and social change within the region is followed by an in depth examination of the changing cultural meanings of custom gender locality skill literacy orality and magic The local history of social conflict sheds light upon the nature of political engagement and the origins of early capitalism Important insights are offered into early modern social and gender identities civil war allegiances the appeal of radical ideas and the making of the English working class Above all the book challenges the claim that early modern England was a hierarchical pre class society

Factory Girls Paul Chrystal, 2022-12-01 Ever since there have been factories women and children have more often than not worked in those factories What is perhaps less well known is that women also worked underground in coal mines and overground scaling the inside of chimneys Young children were also put to work in factories and coalmines they were

deployed inside chimneys often half starved so that they could shin up ever narrower flues This book charts the unhappy but aspirational story of women and children at work through the Industrial Revolution to the beginning of the 20th century Without women there would have been no pre industrial cottage industries without women the Industrial Revolution would not have been nearly as industrial and nowhere near as revolutionary Many women and children were obliged to take up work in the mills and factories long hours dangerous often toxic conditions monotony bullying abuse and miserly pay were the usual hallmarks of a day s work before they headed homeward to their other job keeping home and family together This long overdue and much needed book also covers the social reformers the role of feminism and activism and the various Factory Acts and trade unionism We examine how women and children suffered chronic occupational diseases and disabling industrial injuries life changing and life shortening and often a one way ticket to the workhouse The book concludes with a survey of the art literature and the music which formed the soundtrack for the factory girl and the climbing boys

Profit
Mark Stoll,2022-11-08 Profit getting more out of something than you put into it is the original genius of homo sapiens who learned how to unleash the energy stored in wood exploit the land and refashion ecosystems As civilization developed we found more and more ways of extracting surplus value from the earth often deploying brutally effective methods to discipline people to do the work needed Historian Mark Stoll explains how capitalism supercharged this process and traces its many environmental consequences The financial innovations of medieval Italy created trade networks that with the European discovery of the Americas made possible vast profits and sweeping cultural changes to the detriment of millions of slaves and indigenous Americans the industrial age united the world in trade and led to an energy revolution that changed lives everywhere But when efficient production left society awash in goods a new sort of capitalism predicated on endless individual consumption took its place This story of incredible ingenuity and villainy begins in the Doge s palace in medieval Venice and ends with Jeff Bezos aboard his own spacecraft Mark Stoll s revolutionary account places environmental factors at the heart of capitalism s progress and reveals the long shadow of its terrible consequences

Management History
Morgen Witzel,2010-01-21 Management History is not simply a book about the history of business or even the history of management The goal of this book is to demonstrate that despite the relative newness of management science as an academic subject management has been around since ancient times Through understanding the history of management both in practice and theory one is able to approach the complex and challenging problems of modern management from a new perspective The book not only traces the development of management from history to the present day but also examines the way this evolution impacts how management is practiced today and how it may develop in the future It incorporates case studies from around the world cutting across a range of time periods from the Egyptian royal tomb builders of Deir el Medina to H J Heinz Cadbury Brothers and Tata Steel Management History is ideal for instructors wishing to incorporate historical content and analysis into management education courses modules and training programs particularly at the MBA level and

higher **Creating Paradise** Richard Wilson, Alan Mackley, 2000-01-01 Looking at the building of country houses as a whole this book investigates why owners embarked on extensive building programmes often following a grand tour It explores the cost of building and the cost of furnishing and decoration *World Textile Industry* John Singleton, 2013-05-13 This book analyzes the competitive forces which dominate this major sector and traces how the nature of competition has evolved during the last two hundred years Through an analysis of key factors including demand related and supporting industries firm strategy structure and national rivalry chance and government policy the author explains how and why the locus of competitive advantage in textiles and apparel has moved from country to country particularly in the period since 1945 **Fossil Capital** Andreas Malm, 2016-01-12 The more we know about the catastrophic implications of climate change the more fossil fuels we burn How did we end up in this mess In this masterful new history Andreas Malm claims it all began in Britain with the rise of steam power But why did manufacturers turn from traditional sources of power notably water mills to an engine fired by coal Contrary to established views steam offered neither cheaper nor more abundant energy but rather superior control of subordinate labour Animated by fossil fuels capital could concentrate production at the most profitable sites and during the most convenient hours as it continues to do today Sweeping from nineteenth century Manchester to the emissions explosion in China from the original triumph of coal to the stalled shift to renewables this study hones in on the burning heart of capital and demonstrates in unprecedented depth that turning down the heat will mean a radical overthrow of the current economic order **The Oxford Handbook of Industrial Archaeology** Eleanor Casella, Michael Nevell, Hanna Steyne, 2022 Through international and multi period chapters this volume explores the origins and development of industrialization from its emergence in 18th century Europe to its contemporary ubiquity It interrogates the widespread exploitation of natural resources that forged industrialization and its environmental and social legacy in our globalized world **Erasmus Darwin's Gardens** Paul A. Elliott, 2021 This first full study of Erasmus Darwin's gardening horticulture and agriculture shows he was as keen a nature enthusiast as his grandson Charles and demonstrates the ways in which his landscape experiences transformed his understanding of nature Famous as the author of the Botanic Garden 1791 and grandfather of Charles Darwin 1809 1882 Erasmus Darwin 1731 1802 was a larger than life enlightenment natural philosopher scientist and writer who practised as a doctor across the English Midlands for nearly half a century A practical gardener and horticulturist Darwin created a botanic garden near Lichfield which galvanised his poetry and kept other gardens an orchard and small farm in Derby Informed by his medical practice and botanical studies Darwin saw many parallels between animals plants and humans which aroused hostility during the years of revolution warfare and reaction but helped him to write *Zoonomia* 1794 96 and *Phytologia* 1800 his major studies of medicine agriculture and gardening Captivated by the changing landscapes and environments of town and country and supported by social networks such as those in Lichfield and Derby Darwin avidly exchanged ideas about plants animals and their diseases with family patients

friends such as the poet Anna Seward 1742 1809 farmers fellow doctors huntsmen and even the local mole catcher The is the first full study of Erasmus Darwin s gardening horticulture and agriculture It shows him as keen a nature enthusiast as his contemporary Rev Gilbert White of Selbourne 1720 1793 or his grandson Charles fascinated with everything from swarming insects and warring bees to domestic birds and dogs pigs and livestock on his farm to fungi growing from horse dung in Derby tan yards Ranging over his observations of plant physiology and anatomy to the use of plant bandages in his orchard and electrical machines to hasten seed germination to explosive studies of vegetable brains nerves and sensations the book demonstrates the ways in which Erasmus Darwin s landscape and garden experiences transformed his understanding of nature They provided him with insights into medicine and the environmental causes of diseases the classification of plants and animals chemistry evolution potential new medicines and foodstuffs and the ecological interdependency of the natural economy Like the amorous vegetables of the Loves of the Plants 1789 which fascinated scandalised and titillated late Georgian society the many living creatures of Darwin s gardens and farm encountered in this book were for him real dynamic interacting and evolving beings who helped inspire and re affirm his progressive social and political outlook

Public Life and the Propertied Englishman, 1689-1798 Paul Langford, 1991 This book offers a major reassessment of the place of the propertied class in eighteenth century England The common view of politics in this period is one of aristocratic dominance coexisting with plebeian vitality Langford explores the terrain which lay between the high ground of elite rule and the low ground of popular politics and shows that the Georgians were more active in this arena than is generally appreciated
