Transatlantic Fascism Federico Finchelstein, 2010-01-11 In *Transatlantic Fascism* Federico Finchelstein traces the intellectual and cultural connections between Argentine and Italian fascisms showing how fascism circulates transnationally. From the early 1920s well into the Second World War Mussolini tried to export Italian fascism to Argentina the most Italian country outside of Italy. Nearly half the country's population was of Italian descent. Drawing on extensive archival research on both sides of the Atlantic Finchelstein examines Italy's efforts to promote fascism in Argentina by distributing bribes sending emissaries and disseminating propaganda through film radio and print. He investigates how Argentina's political culture was in turn transformed as Italian fascism was appropriated reinterpreted and resisted by the state and the mainstream press as well as by the Left the Right and the radical Right. As Finchelstein explains *nacionalismo* the right wing ideology that developed in Argentina was not the wholesale imitation of Italian fascism that Mussolini wished it to be. Argentine *nacionalistas* conflated Catholicism and fascism making the bold claim that their movement had a central place in God's designs for their country. Finchelstein explores the fraught efforts of *nacionalistas* to develop a sacred ideological doctrine and political program and he scrutinizes their debates about Nazism the Spanish Civil War imperialism anti-Semitism and anticommunism. *Transatlantic Fascism* shows how right wing groups constructed a distinctive Argentine fascism by appropriating some elements of the Italian model and rejecting others. It reveals the specifically local ways that a global ideology such as fascism crossed national borders.

Frege's Detour John Perry, 2019 John Perry offers a rethinking of Frege's seminal contributions to philosophy of language which had a dominant influence on the subject in the twentieth century. He argues that Frege's famous doctrine of indirect reference led philosophers on a detour and he advocates a move to a new framework for understanding reference.
