Armies of the Muslim Conquest David Nicolle, 2024-10-10 The dramatic eruption of the Arab peoples from Arabia after their adoption of the Muslim faith in the 7th century remains one of the most extraordinary events in world history By the end of that century they ruled a state that stretched from the Atlantic to India from southern Arabia to Central Asia covering an area far greater than that of the Roman Empire Therefore warfare at least among the nomadic bedouin was a normal aspect of life Complemented by numerous illustrations including eight full page colour plates by Angus McBride this detailed text by David Nicolle tells the real story of the armies of the Muslim conquest

The Jewish Trinity Yoel Natan,2003 Conventional wisdom states that the Hebrew Scriptures only hint that there are persons of Yahveh This book shows that Moses and other Bible writers wrote strikingly and often both about the Trinity and the deity of the Messiah The Old Testament is as explicit about the Trinity and the deity of the Messiah as is the New Testament The reader of this book will come to know the Trinitarianism in the Hebrew Scriptures that Yahvists knew The reader of this book will come to read the Bible the same way the inspired writers intended it to be read as Trinitarian

Medieval Indian Armies (2) David Nicolle,2023-11-23 This illustrated study investigates the Indo Islamic fighting men of South Asia from the 7th century AD to the Mughal conquest of the 16th century From 1206 much of what is now India as well as parts of Pakistan Bangladesh and Nepal were ruled by a succession of Islamic dynasties that had their origins in the Ghurid forces that conquered parts of northern India in the 12th century Although it was never complete the Islamic domination of this huge region also had a profound impact upon Islamic civilization as a whole not least in military terms being felt as far west as Africa Within South Asia the war torn medieval centuries laid the foundations for the subsequent even more brilliant Mughal Empire Featuring eight plates of superb artwork alongside carefully chosen photographs and illustrations this study complements the same author's *Medieval Indian Armies 1* Hindu Buddhist and Jain It describes and illustrates the Indo Islamic forces operating in South Asia from the Umayyad Caliphate's frontier in north western India and Afghanistan in the late 7th century through to the Delhi Sultanate the Sultanate of Bengal and the Bahmani Sultanate in the 15th and 16th centuries David Nicolle explains how with respect to arms armour fortification and transport both on land and at sea the widely successful Muslim armies learned a great deal from their more numerous Hindu Jain and Buddhist opponents This was especially evident in developments such as the use of war elephants and the adoption of lighter often textile based forms of protection such as soft armour made of cotton On the other side there would be widespread adoption of more potent weapons such as the composite bow and considerably more sophisticated systems of cavalry warfare among the non Islamic forces of the Indian sub continent Fully illustrated this absorbing account casts light on many centuries of warfare in South Asia

Medieval Indian Armies (1) David Nicolle,2022-05-26 This fully illustrated study explores the armies of the Hindu Buddhist and Jain states within what are now India Pakistan Bangladesh Sri Lanka and Nepal during the period AD 500 1500 as well as Afghanistan until the early 13th century AD Following the emergence of a distinct medieval Indian civilization in the Late Classical and Early Medieval periods there was a prolonged struggle between this civilization and that of the eastern Islamic world concluding with the rise of the Mughal Empire at the start of the 16th century In this

fully illustrated study David Nicolle investigates the traditions and enduring conservatism of non Islamic medieval Indian warfare notably evident in recruitment patterns and the significance of archery and cavalry The role and impact of war elephants both positive and negative are also considered as well as the influence of climate and weather notably the seasonal monsoon on warfare in this region As well as assessing arms and armour contrasting the advanced technology and high status of Indian weapons especially swords with the remarkable lack of metallic armour in the region during this period the author also explores siege warfare and riverine and naval warfare in South Asia This book assesses the contributing factors identified by those who have sought to explain why the huge wealth and substantial populations of the traditional non Islamic Indian states did not prevent their persistent failure in the face of Islamic invasion and conquest **Moon-o-theism,**

Volume I of II Yoel Natan,2006 This is volume one of a two volume study of a war and moon god religion that was based on the Mideast moon god religion of Sin Weapons & Warfare: Ancient and medieval weapons and warfare to c. 1500 ,2010
