Art And Language:

The Language of Displayed Art Michael O'Toole, 1994 Drawing on his background as a linguist O Toole analyses in detail a number of major works of art to show how the semiotic approach relates a work's immediate impact to other aspects of our response to it to the scene portrayed to the social intellectual and economic world within which the artist and his or her patrons worked and to our own world It further provides ways of talking about and interrelating aspects of composition technique and the material qualities of the work

Conceptual Art Alexander Alberro, Blake Stimson, 2000-08-25 This landmark anthology collects for the first time the key historical documents that helped give definition and purpose to the conceptual art movement Compared to other avant garde movements that emerged in the 1960s conceptual art has received relatively little serious attention by art historians and critics of the past twenty five years in part because of the difficult intellectual nature of the art This lack of attention is particularly striking given the tremendous influence of conceptual art on the art of the last fifteen years on critical discussion surrounding postmodernism and on the use of theory by artists curators critics and historians This landmark anthology collects for the first time the key historical documents that helped give definition and purpose to the movement It also contains more recent memoirs by participants as well as critical histories of the period by some of today's leading artists and art historians Many of the essays and artists statements have been translated into English specifically for this volume A good portion of the exchange between artists critics and theorists took place in difficult to find limited edition catalogs small journals and private correspondence These influential documents are gathered here for the first time along with a number of previously unpublished essays and interviews Contributors Alexander Alberro Art Language Terry Atkinson Michael Baldwin Robert Barry Gregory Battcock Mel Bochner Sigmund Bode Georges Boudaille Marcel Broodthaers Benjamin Buchloh Daniel Buren Victor Burgin Ian Burn Jack Burnham Luis Camnitzer John Chandler Sarah Charlesworth Michel Claura Jean Clay Michael Corris Eduardo Costa Thomas Crow Hanne Darboven Ra l Escari Piero Gilardi Dan Graham Maria Teresa Gramuglio Hans Haacke Charles Harrison Roberto Jacoby Mary Kelly Joseph Kosuth Max Kozloff Christine Kozlov Sol LeWitt Lucy Lippard Lee Lozano Kynaston McShine Cildo Meireles Catherine Millet Olivier Mosset John Murphy H lio Oiticica Michel Parmentier Adrian Piper Yvonne Rainer Mari Carmen Ramirez Nicolas Rosa Harold Rosenberg Martha Rosler Allan Sekula Jeanne Siegel Seth Siegelaub Terry Smith Robert Smithson Athena Tacha Spear Blake Stimson Niele Toroni Mierle Ukeles Jeff Wall Rolf Wedewer Ian Wilson

Art-language ,1974 **Language as Art; Art as Language** ,1978 **Art & Language International** Robert Bailey, 2016-05-19 In *Art Language International* Robert Bailey reconstructs the history of the conceptual art collective Art Language situating it in a geographical context to rethink its implications for the broader histories of contemporary art Focusing on its international collaborations with dozens of artists and critics in and outside the collective between 1969 and 1977 Bailey positions Art Language at the center of a historical shift from Euro American modernism to a global contemporary art He documents the collective's growth and reach

from transatlantic discussions on the nature of conceptual art and the establishment of distinct working groups in New York and England to the collective's later work in Australia New Zealand and Yugoslavia Bailey also details its publications associations with political organizations and the internal power struggles that precipitated its breakdown Analyzing a wide range of artworks texts music and films he reveals how Art Language navigated between art worlds to shape the international profile of conceptual art Above all Bailey underscores how the group's rigorous and interdisciplinary work provides a gateway to understanding how conceptual art operates as a mode of thinking that exceeds the visual to shape the philosophical historical and political

Language as Calculus vs. Language as Universal Medium Maren Kusch, 1989-06-30 I first became interested in Husserl and Heidegger as long ago as 1980 when as an undergraduate at the Freie Universität Berlin I studied the books by Professor Ernst Tugendhat Tugendhat's attempt to bring together analytical and continental philosophy has never ceased to fascinate me and even though in more recent years other influences have perhaps been stronger I should like to look upon the present study as still being indebted to Tugendhat's initial incentive It was my good fortune that for personal reasons I had to continue my academic training from 1981 onwards in Finland Even though Finland is a stronghold of analytical philosophy it also has a tradition of combining continental and Anglosaxon philosophical thought Since I had already admired this line of work in Tugendhat it is hardly surprising that once in Finland I soon became impressed by Professor Jaakko Hintikka's studies on Husserl and intentionality and by Professor Georg Henrik von Wright's analytical hermeneutics While the latter influence has at least in part led to a book on the history of hermeneutics the former influence has led to the present work My indebtedness to Professor Hintikka is enormous Not only is the research reported here based on his suggestions but Hintikka has also commented extensively on different versions of the manuscript helped me to make important contacts found a publisher for me and last but not least was a never failing source of encouragement

The Life & the Work Charles G. Salas, 2007 It is often assumed that reading about the lives of artists enhances our understanding of their work and that their work reveals something about them but the relationship between biography and art is rarely straightforward In *The Life and the Work* art historians Thomas Crow Charles Harrison Rosalind Krauss Debora Silverman Paul Smith and Robert Williams address this fundamental if convoluted relationship Looking to such figures as Andy Warhol Bob Dylan Vincent van Gogh Paul C zanne Leonardo da Vinci and the artists associated with the name Art Language the volume s authors have written a set of provocative essays that explore how an artist s life and art are intertwined
