Art Archaeology In China:

Art and Archaeology in China Edmund Capon, 1977 *Ancient China* Jessica Rawson, 1980 The Art and Archaeology in China Edmund Capon, 1977-01 Art and Archaeology in China documents one of the most acclaimed and well attended exhibitions in recent years. Over three million visitors saw the flying horse of the Han dynasty and the jade shroud that are now widely and popularly recognized and pictured here along with many other archaeological treasures. Illustrations depict objects that range in time from 600 000 BC to the end of the Yuan dynasty in the fourteenth century. Many are shown in their archaeological settings. The text by Edmund Capon places them in historical perspective and cultural context and explains modern China's unusual approach to archaeological preservation and interpretation. While there is much to fascinate archaeologists, historians, and sinologists, the book will appeal to readers and viewers without specialized knowledge but who have an eye for incomparable beauty.

The Arts of China Michael Sullivan, 1984-01-01 this book presents a fascinating and balanced picture of Chinese art from the Stone Age to the present day. The author concerns himself not only with art but also with Chinese philosophy, religion, and the realm of ideas.

Recarving China's Past Cary Yee-Wei Liu, Michael Nylan, Anthony Jerome Barbieri-Low, Naomi Noble Richard, Michael Loewe, Susan L. Beningson, 2005 The Wu Family shrines, one of the most important cultural monuments of early China, comprise approximately 50 stone slabs from the so-called Wu cemetery in Shandong province. This illustrated book examines the stone slabs and their rubbings as artifacts with a complex cultural history from the second century to the present.

China Archaeology and Art Digest, 2001 A comprehensive quarterly digest and index of all quality Chinese publications in the archaeological and art history fields includes also translated longer synopses of articles on topics covered and a report of archaeological news.

The Ancient Highlands of Southwest China Alice Yao, 2016 The Ancient Highlands of Southwest China offers a vivid account of the history of warrior polities occupying the southwestern frontiers of early China. Placing the archaeology of the Dian and its Bronze Age neighbors in dialogue with anthropological theory, Alice Yao shows how local histories of kingship come to challenge and resist imperial governance as well as the production of historiography.

Art, Archaeology & Science Meili Yang, 2016 Science has played a crucial role in the initial stages of westerners collecting and studying ancient Chinese artworks and archaeological materials. history has long been an indispensable guide to all those interested in the civilization and history of China. In this latest edition, now in a bigger format, its scope has been dramatically enlarged by the addition of one million words of new text. Twelve years in the making, the new manual introduces students to different types of transmitted, excavated, and artifactual sources from prehistory to the twentieth century. It also examines the context in which the sources were produced, preserved, and received, the problems of research and interpretation associated with them, and the best most up-to-date secondary works. Because the writing of history has always played a central role in Chinese politics and culture, special attention is devoted to the strengths and weaknesses of Chinese historiography.

China Archaeology and Art Digest, 1997 *ART MYTH AND RITUAL* P. Kwang-chih CHANG, Kwang-chih Chang, 2009-06-30. A leading scholar in the United States on Chinese archaeology challenges long-standing conceptions of the rise of political authority in ancient China. Questioning Marx's concept of an Asiatic mode of production, Wittfogel's hydraulic hypothesis, and cultural materialist theories on the importance of technology, K. C. Chang builds an impressive counterargument, one which ranges widely from recent archaeological discoveries to studies of mythology, ancient Chinese poetry, and the iconography of Shang food vessels. *Memory and Agency in Ancient China* Francis Allard, Yan Sun, Kathryn M. Linduff, 2018-12-20. Applies the life history of objects approach to China's prehistoric, early dynastic, and more recent material culture.

Studies in Chinese Art Dekun Zheng, 1983. This volume comprises eight articles that fall into three groups: surveys of Chinese art and archaeology and their interrelationships; the exhibition of Chinese archaeological finds; and an account of Dunhuang studies in China up to 1947, animal styles, floral patterns, and yinyang wuxing in Chinese art, and Chinese epigraphy.

Cultural Communications Between China and The Outside World Throughout History Fuwei Shen, 2024-09-10. This book starts from the very beginning of the cultural exchanges between China and the western regions to the exchanges in modern times, featuring a large time span and interdisciplinarity. In addition to elaborate illustrations, including precious pictures and sketch maps, a large amount of archaeological data, as well as both Chinese and foreign literature, are employed in the book to provide the readers with a comprehensive, in-depth, and systematic introduction of the cultural exchanges between China and the west regions from the Neolithic Age to present China after Reform and Opening Up. The intended readership includes professionals, college students, graduates specializing in Chinese history, philosophy, and culture, as well as those interested in oriental civilizations.
