## Concept Of God:

### **The Concept of God, the Origin of the World, and the Image of the Human in the World Religions P.**

Koslowski,2012-09-13 All religions make statements about God or the Absolute and about the beginning about the beginning of the world and the beginning and nature of the human person Propositions about God the human person and the world statements about God s eternity or process of becoming about the status and nature of the human person as the image of God and about the beginning of the world are woven into religious speculations about the beginning The theology anthropology and cosmology of the world religions determine the image of the human person and the image of the world in the world cultures shaped by the different religions They stand in a tense relationship with the anthropologies and cosmologies of modern science which in turn challenge the religions to deepen their image of the human person With this volume leading thinkers of Hinduism Buddhism Judaism Christianity and Islam provide the reader with a first hand source for understanding the five world religions and their teaching about God the human person and the origin of the world *Concept Of The Knowledge Of God* Brian Haymes,2016-01-03 The Concept of God Thomas V. Morris,1987 This anthology contains a representative sample of some of the best contemporary philosophical work concerning the traditional Judeo Christian concept of God Constructing Moral Concepts of God in a Global Age Myriam Renaud,2022-07-29 Constructing Moral Concepts of God in a Global Age focuses on what people say and think about God rather than on arguments about God s existence It advances a theological method or step by step approach to explore and reframe personal convictions about God and the worldviews shaped by those convictions Since a moral God is more likely to foster a moral life this method integrates an ethical check to ensure that understandings of God and their associated worldviews are validly moral The proposed method builds on the work of twentieth century theologian Gordon Kaufman during the Kantian phase of his work It anticipates a person like God who hears prayers loves without end and comforts in times of hardship To accommodate today s pluralistic and globalized world the ethical check integrated in the method is a widely collaborative and vetted global ethic the Parliament of the World s Religions Declaration Towards a Global Ethic This volume of constructive philosophical theology is written for seminary students educators clergy study groups and anyone interested in delving more deeply and systematically into understandings of God whether their own or those of others *Charles Hartshorne's Concept of God* S. Sia,2013-03-14 Charles Hartshorne s considerable writings have been influential in contem 1 porary religious and philosophical thought Not only is he regarded as the leading living representative of process thought as well as a much respected interpreter of Whitehead but he has also established himself as an original 2 and creative thinker in his own right The literature on his philosophy has been rapidly increasing His thought and influence have also been the subject 3 of a number of conferences and gatherings of scholars One of Hartshorne s most notable contributions to contemporary philoso 4 phy and theology is his concept of God In his writings he has set out to formulate the idea of deity so as to preserve perhaps

increase its religious value while yet avoiding the contradictions which seem inseparable from the 5 idea as customarily defined The result of his efforts has been the development of the concept of a dipolar God insofar as contrasting metaphysical predicates e g relative absolute contingent necessary finite infinite and so on are affirmed as applicable to God although always in an eminent way Inasmuch as he has elaborated this concept in close dialogue with classical theism he also refers to it as neo classical Because of the emphasis he places on the reality of change and becoming in his metaphysics which regards God as the chief exemplification of metaphysical principles the term 6 process has likewise been used to describe his notion of God *Evil and the Concept of God* Edward H. Madden, Peter H. Hare, 1968 The Concept of 'God'

Vinoth, 2018-02-02 God the supernatural being the perfect the omnipotent and the omniscient originator and ruler of the universe is the object of worship in almost all religions across the world Usually people understand God through the religions they re born in This way they get to learn how and why their Gods created reality and put them in it But is this the only possible way to understand the entity What if one takes an alternate route to understand God What if one first understands the reality God created the reality that everything and everyone s a part of and then identifies the entity itself Reality includes everything around and inside it and inevitably includes us Understanding the reality requires a metaphysical analysis of life and the universe and metaphysics reaches an incredibly new level if the knowledge of the Western sciences is merged with the everlasting ideas of the Eastern spiritual philosophies With multiple perspectives making the reader constantly inquisitive The Concept of God merges the knowledge of science and spirituality to understand the nature of life and reality and then finds out who the all powerful God is A History of the Concept of God Daniel A.

Dombrowski, 2016-02-01 Daniel A Dombrowski explores the history of the concept of God from the perspective of neoclassical or process theism His neoclassical approach assuages the current crisis in philosophical theism caught between a defense of classical theism and assertions of religious skepticism Instead the work offers Charles Hartshorne s notion of a God who always evolves quite unlike the allegedly perfect figure of more traditional and increasingly unsatisfactory accounts Dombrowski surveys the classical theists and their roots in ancient Greek philosophy before turning to contributions from the sixteenth through twentieth centuries ultimately discussing twenty three thinkers The key figures in this history are Plato who ironically provided the philosophical basis both for classical and neoclassical concepts and three great figures in process theism Henri Bergson Alfred North Whitehead and Hartshorne The concept of God has a rich past this book argues that it can have a rich future as well Understanding God's Love Ronald Greib, 1997 Ronald Grieb has undertaken a study of how God is misunderstood and misrepresented showing how false ideas of God neutralize His power and authority and lead people into the worship of false deities of their own manufacture The Evolution of the Idea of God Grant Allen, 2007-04-01 Originally published in 1897 The Evolution of the Idea of God is a study of humans belief in God from primitive tribal religions to what Allen considered the more advanced Christian view The main question explored here is How did we arrive

at our knowledge of God Rather than trying to prove or disprove any claims about the divine Allen s method simply traces the psychological processes that led humans to religious belief and further from a belief in polytheism to monotheism Students of religion mythology and human psychology will find this an intriguing work Canadian writer GRANT ALLEN 1848 1899 attended university in the United Kingdom and taught at Queen s College in Jamaica His many published books include mainly scientific books and popular novels and in 1895 he published one of the first Canadian science fiction books *The British Barbarians*

**Concept of God in Major Religions** Zakir Naik,2009-01-01 There has always been a question in the minds of people about the existence of God All major religions have believed in one god or another Thus believing in a supreme being that is omnipotent and omniscience is essential to the existence of mankind This book tackles the issue of existence of God from a different perspective including starting off with how different people view God It first categorizes the belief of the major religions into 5 types of religions Then it describes the concept of God for world s several major religions including Hinduism Sikhism Judaism and others The book ends with a detailed analysis of concept of God in Islam and how it perfects the concept of God

*Martin Luther's Understanding of God's Two Kingdoms* William J. Wright,2010 A leading Reformation scholar historically reassesses the original breadth of Luther s theology of the two kingdoms and the cultural contexts from which it emerged

**The Idea of God in Early Religions** F. B. Jevons,2019-12-20 In *The Idea of God in Early Religions* F B Jevons undertakes a systematic exploration of the evolution of divinity across various ancient cultures The book is characterized by its analytical rigor featuring a comparative method that draws upon textual and archaeological evidence to illustrate the shifting perceptions of godly figures throughout human history Speaking to an era fascinated by the intersection of mythology and rational thought Jevons situates his inquiries within the broader context of early anthropological studies offering insights into how early religions shaped societal norms and ethical frameworks F B Jevons an influential figure in the study of comparative religion and mythology was imbued with a deep interest in the complexities of spiritual beliefs stemming from his academic background in philosophy and anthropology His scholarly pursuits led him to examine how primitive understandings of the divine influenced later religious developments a trajectory informed by the changing intellectual landscapes of the late 19th century Jevons s broad knowledge base renders his examinations both comprehensive and perceptive illuminating the nuances of belief systems in antiquity This book is an essential read for anyone interested in the foundations of religious thought and the historical frameworks that have shaped human spirituality Jevons s meticulous research serves not only scholars in the fields of theology and anthropology but also general readers

eager to understand the origins and transformations of the concept of God across diverse cultures      *God in Process Thought* S. Sia, 2012-12-06 One of the controversial issues which have recently come into prominence among philosophers and theologians is how one should understand the term God. It seems that despite the fact that a certain idea of God is assumed by not most people there is a degree of disagreement over the meaning. Many if of the term God is generally taken to refer to a supreme Being the Creator who is perfect and self-existent, holy, personal and loving. This understanding of God corresponds to what many have either been brought up to believe in or have come to accept as the meaning of this word. Nevertheless, theists appear to be defending a particular idea of God and to be accusing atheists of attacking another one which does not tie in with the theistic interpretation. Cardinal Maximos IV for instance is quoted as saying 'The God the atheists don't believe in is a God I don't believe in either.' 2 On the other hand, atheists have been challenging believers to explain clearly what they mean by God because these critics cannot see how that idea can have any acceptable meaning. Furthermore, theists themselves seem to be divided over the issue. H. P. Owen in his book *Concepts of Deity* shows quite convincingly that there is a bewildering variety of concepts of God among theists. One has only to ask around for confirmation of this observation.

Understanding God's Message for Mankind David Charles Cole, 2011-12-16 Why do Christians believe as they do? How do we know Jesus was the Messiah? What does God expect of us? What happens after death? Is there really a heaven and a hell? Why does God allow evil in the world, permitting bad things to happen to good people? This collection of essential verses from Scripture and the accompanying commentaries will help answer these and other fundamental questions. The sixty-six books of the Bible are an integrated message system from God, a message to mankind from the creator of all things. It is the best-selling book of all time yet most copies sit unread. This is due in part to the fact that wading through so many pages of spiritually inspired and purposefully encrypted material can be intimidating. This new guide to the Bible offers a solution for those eager to understand God's message and develop a closer relationship with Him. It holds a collection of inspirational verses selected from all sixty-six books of Scripture cataloged under more than 100 specific subject headings.

Presupposing God Robert A. Hand, 2022-07-29 It is widely recognized that Immanuel Kant was one of Karl Barth's most important intellectual influences, but how and to what extent this is the case remains an open question. In *Presupposing God* Robert Hand demonstrates a deep consistency between Kant's and Barth's theological epistemologies with this issue in mind. After arguing for a number of positive emphases in Kant's critical philosophy and religious epistemology in conversation with modern Kant scholarship, *Presupposing God* demonstrates how these emphases were obscured in Kant's reception in the decades between Kant and Barth and then explores the intellectual conditions under which Barth first encountered Kant. The argument proceeds to show how Barth wrestled with these varying interpretations and continued to utilize Kant with increased sophistication as his thought developed across the *Romans* commentaries, *Anselm* and the *Church Dogmatics*. *Presupposing God* suggests that Kant can be an asset to theology rather than the liability

he is often taken to be and that Barth is one of the better available examples of this in practice      **Ontology of Divinity**
