Biodynamic Wine

Demystified Nicolas Joly, 2001-05-01 Wine is made in the vineyard is the mantra of many a winemaker But what does it mean really Esteemed winemaker and biodynamic pioneer Nicholas Joly believes a wine that is well made in the vineyard must express its unique terroir the character imbued by a vine's particular plot of well tended earth In Biodynamic Wine Demystified Joly shares the core philosophy behind biodynamic viticulture and why such practices result in wines of regional distinction This process treats the vineyard as a self perpetuating ecological whole influenced not only by terrestrial forces but those of the sun moon and cosmos He explains why the use of foreign substances such as pesticides and fertilizers in the vineyard and aromatic yeasts and enzymes in the cellar as well as mechanisms such as electric motors and pumps disrupt this synergy and are ultimately counterproductive to a wine's best consistent expression
