Concern For Others A New Psychology Of Conscience And Morality:

Concern for Others T. M. Kitwood, 1990-01-01 Concern for Others T. M. Kitwood, 1990 Kitwood reappraises each of the main topics in the psychology of conscience personhood will judgment character individual development collective pressures the good society and shows that depth psychology with its ideas about pre conscious awareness unconscious motivation and unconscious conflict is far more relevant to the field than has been previously recognized He argues that the practices of counselling and therapy which have emerged from depth psychology epitomize a form of moral action of which contemporary western society is very much in need From publisher description **Concerns for Others** ,1990 Tom Kitwood On Dementia: A Reader And Critical Commentary Baldwin, Clive, Capstick, Andrea, 2007-10-01 The book will be valuable for undergraduate and postgraduate students researchers and lecturers involved in the field of dementia care and the health care sciences Furthermore it provides a useful resource for clinicians who wish to explore their understanding of personhood person centred care and the nature of Kitwood s critical appraisal of how care should be constructed and delivered Ageing and Society Baldwin and Capstick have produced an honest appraisal that is undeniably a reader and critical commentary and have not shirked from any responsibilities This paperback would serve two distinct strands of readership equally well those coming afresh to dementia care or practitioners steeped in the concepts who are looking to reanalyse and consider future developments As such it is difficult to underestimate its value Nursing in Practice How does Kitwood s work contribute to our understanding of the dementing process and the essentials of quality care How was Kitwood s thinking about dementia influenced by the wider context of his work in theology psychology and biochemistry What is the relevance today of key themes and issues in Kitwood s work Tom Kitwood was one of the most influential writers on dementia of the last 20 years Key concepts and approaches from his work on person centred care and well being in dementia have gained international recognition and shaped much current thinking about practice development The complexities of Kitwood s work and the development of his thinking over time have however received less attention This Reader brings together twenty original publications by Kitwood which span the entire period of his writing on dementia and the different audiences for whom he wrote Almost ten years after Kitwood s death it is now timely to review his contribution to the field of dementia studies in the light of more recent developments and from a critical and interdisciplinary perspective The introduction to this Reader summarises and problematises some of the key characteristics of Kitwood s writing Each of the four themed sections begins with a commentary offering a balanced consideration of the strengths of Kitwood s work but also of its limitations and oversights The Reader also includes a biography and annotated bibliography Tom Kitwood on Dementia A Reader and Critical Commentary is key reading for students of social work or mental health nursing with an interest in dementia care Professionals working with people with dementia will also find it invaluable Additional Contributors Habib Chaudhury Deborah O Connor Alison Phinney Barbara Purves Ruth Bartlett **The Psychology of Values** Clive

Seligman, James M. Olson, Mark P. Zanna, 2013-05-13 The eighth Ontario Symposium brought together an international group of scholars who work in the area of the psychology of values Among the categories these experts address are the conceptualizations of values value systems and value attitude behavior relations methodological issues the role of values in specific domains such as prejudice commitment and deservingness and the transmission of values through family media and culture Each chapter in the volume illustrates both the diversity and vitality of research on the psychology of values *The Capacity to Care* Wendy Hollway, 2007-01-24 Provides a unique theorization of the nature of selfhood drawing on developmental and object relations psychoanalysis philosophical and feminist literatures *The Moral Mind* Henry Haslam, 2016-11-16 The reality and validity of the moral sense which ordinary people take for granted took a battering in the last century Materialist trends in philosophy decline in religious faith and a loosening of traditional moral constraints contributed to a shift in public attitudes with many decent honest folk both aware of a questioning of moral claims and uneasy with a world that has no place for the moral dimension Haslam shows how important the moral sense is to the human personality and exposes the weakness in much current thinking that suggests otherwise His goal is to help the reader to a mature and confident understanding of the moral mind which constitutes an essential part of what it is to be human

Approaches to the Development of Moral Reasoning Peter E. Langford, 2018-10-24 The first part of the book offers a survey of current approaches to the development of moral reasoning those of Freud ego psychology Piaget and Kohlberg The approach of Kohlberg has been popular because he was able to give an impressive account of findings from the key method of interviews the other crucial method being naturalistic observation of moral discourse The accounts of interview evidence given by ego psychology and Piaget were less comprehensive and less impressive Naturalistic studies have either been impressionistic or less detailed in their methods of analysis The second part of the book argues that the impressive nature of Kohlberg's later evidence for his view that moral reasoning passes through a sequence of stages is in part illusory because his theory predicts that specific types of reply will show specific developmental patterns However as data are always reported in terms of stages which amalgamate very disparate types of reply it is impossible to know whether the specific types of reply follow their predicted developmental courses or not Reasons given for assigning given types of reply to a stage are also often doubtful This leads to discussion of studies that have reported findings in terms of specific types of reply weakly interpretive methods as opposed to Kohlberg's stage based and strongly interpretive methods Findings from these disconfirm Kohlberg's theory at several crucial points The second and third parts of the book also examine findings from non Kohlbergian interviews and other methods again advocating that weakly interpretive and largely descriptive presentation of findings is preferable to strongly interpretive techniques It is argued that a wide variety of mechanisms suggested by the theories outlined in the first part of the book as well as others drawn from general theories of personality development are able to explain existing descriptive developmental findings The task for the future is to assess the relative importance of

these mechanisms The Palgrave Handbook of Educational Leadership and Management Discourse Fenwick W. English,2022-10-13 This Handbook explores the discourse within the field of educational leadership and management It provides a clear analysis of the current field as well as older foundational ideas and newer concepts which are beginning to permeate the discussion The field of educational leadership and management has long acknowledged that educational contexts include a variety of leaders beyond school principals and other school officials such as informal and middle level leaders By looking at the knowledge dynamic rather than a static knowledge base this Handbook allows research to be presented in its multidimensional evolving reality Anthropological Perspectives on Aging Britteny M. Howell,Ryan P. Harrod,2023-02-21 Taking a holistic approach to the study of aging this volume uses biological archaeological medical and cultural perspectives to explore how older adults have functioned in societies around the globe and throughout human history **Dementia Care - The Adaptive Response** Paul Smith,2017-07-05 A process of dementia makes the experience of day to day living an acute challenge It proposes a method of using environmental and social psychology to maximise function in the individual and to minimise the negative and destructive elements of the perceived and real environment

Improving Services for Older People Mary Fraser,1999 This text aims to develop the level of staff understanding in nursing and residential homes for the elderly and in community organizations in the area of dementia care It includes examples of appropriate education and training methods in care homes **National Library of Medicine Current Catalog** National Library of Medicine (U.S.),1992 **Moral Boundaries** Joan Tronto,2020-07-24 In *Moral Boundaries* Joan C Tronto provides one of the most original responses to the controversial questions surrounding women and caring Tronto demonstrates that feminist thinkers have failed to realise the political context which has shaped their debates about care It is her belief that care cannot be a useful moral and political concept until its traditional and ideological associations as a women s morality are challenged *Moral Boundaries* contests the association of care with women as empirically and historically inaccurate as well as politically unwise In our society members of unprivileged groups such as the working classes and people of color also do disproportionate amounts of caring Tronto presents care as one of the central activities of human life and illustrates the ways in which society degrades the importance of caring in order to maintain the power of those who are privileged Business Ethics in Theory and Practice Patricia Werhane,Alan E. Singer,1999-07-31 This book originated in a symposium on business ethics that took place in the Faculty of Commerce at the University of Canterbury in September of 1997 Professor Werhane who was a visiting Erskine Fellow provided the keynote address and many of the papers in this collection were originally presented at this symposium We are grateful to Kluwer Publishers for the opportunity to publish these essays in their series on International Business Ethics We want to thank the Olsson Center for Applied Ethics at the Darden School University of Virginia and the Erskine Trust and the Department of Management at the University of Canterbury for their support of Professor Werhane s fellowship research for this text and funding for its

production We especially want to thank Lisa Spiro who copy edited and prepared the manuscript for publication

INTRODUCTION AND OVERVIEW This book originated in a symposium on business ethics that took place in the faculty of commerce at the University of Canterbury in September 1997 Professor Werhane who was a visiting Erskine Fellow provided the keynote address Contributions to the proceedings were inter disciplinary spanning theory and practice Subsequent contributions were obtained from within New Zealand and from Asia The book starts off on rather a pessimistic note the new managerialism the kind of thing Scott Adams jokes about in the world famous Dilbert cartoons is economically suspect and psychologically damaging
