Concerning Religious Life:

On Religious Life: William James and I Cordell Strug, 2016-06-22 William James was a great hearted and generous philosophical spirit He was also beneath his human sympathy his experiments his scholarship and his captivating writings a religious seeker a pilgrim looking for a new Jerusalem he was ready to define for himself Cordell Strug as a young philosophy student was enthralled by James especially by his lectures on religion *The Varieties of Religious Experience* He was drawn by the alternative James offered to religious traditions by his passionate searching and by his rich humanity Yet he found he had to part company with James on the very nature of religious experience and the source of its power Out of the struggle with James s religious vision he found a way back to a more traditional religious life eventually becoming a Lutheran pastor In this book he looks back at how he came under James s spell how he embraced and wrestled with James s vision and how James remained with him as a living presence both a guiding and a critical companion *Exploring the Religious Life* Rodney Stark, 2004-04 Though religion is for most people one of the most important aspects of their lives social scientists and other observers of human society too often misunderstand and misrepresent the nature and role of religion in history and in daily life From the supposed decline of religious attitudes in Western Europe and the venal motivations attributed to the Christian Crusaders to the very definition of religion personal biases and an inadequate grasp of relevant data have led to the formulation and propagation of unsupportable views on the sacred In *Exploring the Religious Life* Rodney Stark boldly overturns much received wisdom within the social sciences about religion drawing on a wide range of sources to reassess a diverse selection of topics in the study of religion In his first essay Stark addresses the carelessness with which scholars use the term religion and the conviction that the belief in divinity evolved from the practice of magic in primitive cultures In subsequent chapters he challenges the widespread attitude among social scientists that religion is nothing more than a mask for material realities and examines the effectiveness of religious doctrines in attracting converts and influencing individuals uncovers the surprising prevalence of upper class asceticism in medieval Christianity and explores the relationship between gender piety and criminal activity Divine revelation is a central aspect of many religions and Stark next applies empirical research to the phenomenon to assess its meaning in Judaism Christianity Islam and Mormonism He then turns to the confusion between faith and practice in debates over the secularization of the developed world before investigating the validity of the classic proposition within the social sciences that religion functions to sustain the moral order He does so examining the correlation between criminal behavior and depth of religious belief Stark concludes with an essay on the ingenious methods he uses to unearth data about the popularity of new religions in California and northern Europe the decline of Christian Science in America the spread of Christianity in the Roman world and the execution patterns during the antiwitchcraft frenzy of Enlightenment Europe Together the essays that constitute *Exploring the Religious Life* offer an engaging introduction to Rodney Stark s provocative insights and a fearless challenge to academic perceptions about religion

Cotter,2008 This book examines the historical antecedents of the concept of general chapter the supreme authority in an institute of consecrated life This provides the basis for an examination of the contemporary understanding of the nature of its power and authority as portrayed in the 1983 Code of Canon Law The general chapter is analysed in terms of its juridic status collegial nature participative character and representative function as well as its dynamic aspects and faith dimension The author applies the findings to one institute of consecrated life Institute of the Blessed Virgin Mary Loreto Branch This application provides an example of the challenges inherent in working participatively and collaboratively within a hierarchical structure Because consecrated life has an inalienable ecclesial dimension understanding authority and power and their exercise in institutes of consecrated life has relevance for understanding authority and its exercise in other organs of authority at all levels in the church **Autobiography and the Psychological Study of Religious Lives** ,2008-01-01 This volume positions itself on the cutting edge of two fields in psychology that enjoy rapidly increasing attention both the study of human lives and some core domains of such lives as religion and spirituality are high on the agenda of current research and teaching Biographies and autobiographies are being approached in new ways and have become central to the study of human lives as an object of research and a preferred method for obtaining unique data about subjective human experiences Ever since the beginning of the psychology of religion autobiographies have also been pointed out as an important source of information about psychic processes involved in religiosity In this volume a number of leading theoreticians and researchers from Europe and the USA try to bring them back to this field by drawing on new insights and latest developments in psychological theory Teenagers' Perspectives on the Role of Religion in their Lives, Schools and Societies. A European Quantitative Study Pille Valk,Gerdien Bertram-Troost,Markus Friederici,Céline Béraud,2009 Religion is on the European agenda again The secularisation paradigm has lost its explanatory power and the newly coined term post secularism is used to describe the realisation that in the current social transformation religion cannot be ignored any longer

The quantitative study presented in this book is part of the research effort by the REDCo project REDCo is the abbreviation for Religion in Education A contribution to Dialogue or a Factor of Conflict in Transforming Societies of European Countries The project brought together nine research teams from eight European countries England Estonia France Germany The Netherlands Norway Russia and Spain The research involved interdisciplinary cooperation between specialists in the different academic fields of education religious education sociology political science anthropology psychology theology and religious studies The book offers valuable interpretations and inspirations on the question how the students in the 14 16 year age group in Europe see the ir relevance of religions for dialogue and conflict in their daily lives in the school environment and in society as a whole The young respondents of the quantitative study are clearly aware that the diversity of religious and non religious worldviews is the reality of the European contexts they have to manage within Most of them are convinced that religion must be addressed in schools as it is too important as factor in social life and for the coexistence of people from different cultural and religious backgrounds throughout Europe to be ignored

Two Sixteenth-Century Premonstratensian Treatises on Religious Life Jacob Panhausen, 2021-03-15 Jacob Panhausen stands as a major but little studied figure in the renewal of the Premonstratensian Order during the crucial decades of the sixteenth century when the very survival of religious life hung in the balance His career 1540 1582 as abbot of Steinfeld in Germany spanned the whole era of the Council of Trent and its aftermath and he died the same year that Saint Norbert was officially canonized This volume presents the first English translation of two Latin texts by Jacob Panhausen A Loving Exhortation to Prelates and Those in Their Charge and Treatise on Monastic Life and Religious Vows The introduction offers a biographical and analytical overview of this outstanding Norbertine reformer illuminating a crucial time in the renewal of the Premonstratensian Order during and after the Council of Trent Intended as they were for his confreres at Steinfeld and other abbeys they show his zeal for reform his dedication to the monastic tradition and his humanistic and exegetical concerns

Schleiermacher's Influences on American Thought and Religious Life, 1835-1920 Jeffrey A. Wilcox, Terrence N. Tice, Catherine L. Kelsey, 2014-10-23 Here freshly researched unprecedented stories regarding modern American thought and religious life show how the scholar Friedrich Schleiermacher 1768 1834 provides ongoing influence still They describe his influence on universal rights American religious life theology philosophy history psychology interpretation of texts community formation and interpersonal dialogue Schleiermacher is an Einstein like innovator in all these areas and more This work contrasts chiefly evangelical liberal figures with others between circa 1835 and the 1920s It also looks ahead to several careers extended well into the twentieth century and offers numerous characterizations of Schleiermacher s thought In six tightly organized parts fourteen expert historians chronologically discuss the following 1 Methodist leaders 1766 1924 2 Stuart Bushnell Nevin and Hodge 3 Restorationists Transcendentalists women leaders Schaff and Rauschenbusch 4 Clarke Mullins Carus and Bowne 5 Dewey Royce Ames Knudson Brown Fosdick Cross Jones and Thurman within contemporary contexts

Unexpectedly John Dewey lies at the epicenter of the narrative and Harry Emerson Fosdick and Howard Thurman bring it to its climax Recently evidence displays a broadening influence advancing rapidly The sixth part of the book surveys modern historiography Schleiermacher on history and comparative method and on psychology as a basic scientific and philosophical field That section also provides a critical survey of histories of modern theology and offers concluding questions and answers The three editors contribute twenty of the thirty one chapters

Religious Life Loan Le,2016-06-22 Following the Second Vatican Council when each Religious Institute was encouraged to research its charism some Institutes experienced a tension between their charism and their mission or even difficulty identifying what their charism was This book is a study of the theological understanding of charism and of mission in relation to Religious Life within the Catholic Church While this topic has featured in much Roman Catholic theological literature since Vatican II there appears to be a dearth of in depth studies This book addresses this apparent lacuna It draws particularly on the work of two major theologians Jean Marie Roger Tillard OP and Sandra Marie Schneiders IHM who have reflected at length on charism and mission in the period leading up to Vatican II and on the implementation of its documents with respect to Religious Life The very significant contributions of Tillard and Schneiders on the topic provide Religious as well as others who want to know and understand Religious Life with an interesting and motivating insight into charism and mission in Religious Life Within the Roman Catholic Church a Year of Consecrated Life has just drawn to a close and this book forms a background and a response to Pope Francis Apostolic Letter to all Consecrated People on the occasion of the Year of Consecrated Life November 2014 which invited Religious to reflect on these aspects that are essential to the life they have chosen to live

Understanding the Religious Priesthood Christian, OSB Raab,Brian E., SJ Daley,2020-10-14 Most contemporary theologies of Holy Orders consider priesthood mainly in its diocesan context and most contemporary theologies of religious life do not consider how ordained ministry functions when it is internal rather than external to religious life Understanding the Religious Priesthood provides a history and theology of religious priesthood that contributes to our understanding of this vocation s identity and mission It uncovers what religious priesthood shares with diocesan priesthood and non ordained religious life and what makes it different from both those other vocations Christian Raab begins by tracing the history of religious priesthood from its origins in the early Church to the eve of the Second Vatican Council He demonstrates that religious priests often faced questions about how to reconcile their two callings but that they also provided answers in their theologies and spiritualities of priesthood and religious life Meanwhile they made key contributions to the Church s life and mission Raab then investigates the teachings of the Second Vatican Council on priesthood and religious life Observing that the Council presented priesthood according to a diocesan typology and presented religious life without sacerdotal associations he argues that the lack of imagery of religious priesthood contributed to a post conciliar vocational identity crisis among religious priests He then seeks to remedy this lacuna by appealing to the biblical images for religious priesthood Hans Urs von Balthasar offered in his theology of vocations Raab

argues that Balthasar's imagery is a promising way forward for understanding the identity and mission of religious priesthood. In a final part Raab provides a substantial theological articulation of religious priesthood which illuminates its liturgical signification, ecclesial mediation and mission and ministerial identity. Here he draws not only from Balthasar but also from Pope John Paul II, Yves Congar, Jean Marie Tillard, Brian Daley and Guy Mansini to construct his profile.

Educating About Religious Diversity and Interfaith Engagement Kathleen M. Goodman, Mary Ellen Giess, Eboo Patel, 2023-07-03. This book arises out of a recognition that student affairs professionals have little preparation or guidance in dealing with matters of spirituality, religion, secularity and interfaith work at a time of greater diversity in students' beliefs and from a broad recognition that there is a need to engage with this aspect of student life. For those who don't know how to begin and may be nervous about tackling a topic that has the potential to lead to heated disagreements, this book provides the resources and practical guidance to undertake this work. With the aim of providing student affairs practitioners and faculty with the tools they need to increase their comfort level and enable their ability to engage in discussions about belief both in and out of the classroom, the contributors provide foundational knowledge, concrete teaching ideas, sample activities and case studies that can be used in a variety of settings. This book serves multiple audiences in student affairs by providing teaching ideas for practitioners who want to include a session or two about interfaith in their programs, as well as ideas for student affairs faculty who may be teaching one session on this topic or a whole course. The book is divided into four sections. The first offers context, provides the findings of research and asks readers to reflect on the framework they use to embark on this work, whether a social justice framework that aims to highlight issues of power and privilege or an interfaith cooperation framework that aims to create religious pluralism. Part Two provides concrete ideas for creating courses, activities, events and programs focused on spirituality, religion, secularity and interfaith engagement, as well as ideas for incorporating these topics into courses typically offered in student affairs preparation programs. Part Three presents case studies to engage students, practitioners and faculty in thinking about campus situations related to religious diversity. Part Four provides some basic information about a variety of religions and worldviews held by college students. **Library of Congress Subject**

The articles gathered here appeared originally in a series solicited by and published in *Theological Studies* September 2012 to March 2014. The purpose of the series was and remains threefold: To commemorate the 50th anniversary of the Second Vatican Council; To help readers more fully appreciate its significance not only for the Catholic Church itself but also for the entire world whom the Church encounters in proclamation and reception of ongoing revelation; In their present form to help readers worldwide engage both the conciliar documents themselves and scholarly reflections on them all with a view to appropriating the reform envisioned by Pope John XXIII.
