Meister Eckhart on Divine Knowledge C.F. Kelley, 2008-11-11 Meister Eckhart on Divine Knowledge is not only the most profound study of the core theological and philosophical themes of Christianity's greatest mystic ever written. It is also the greatest exegesis of Christian non-dualism ever published. Of all Christian mystical teachings, those of the Dominican theologian Meister Eckhart (c. 1260–c. 1328) are increasingly recognized as the most compatible with the non-dualistic traditions of Buddhism and Hinduism. Based on the author's three decades of formal study and spiritual practice, this book offers a clear path to understanding the breadth and depth of Eckhart's unique achievement. C.F. Kelley argues that the fundamental principle that elevates Eckhart above all other Western mystics and links him to Eastern spiritual approaches is his insistence that we think principally in divinis—that is, from within the mind or orientation of the Godhead or Divine Knowledge itself. What is here presented to the reader supersedes all former interpretations of Eckhart's teaching. It refuses to ignore what he precisely and repeatedly says cannot be ignored: that is, his exposition of the doctrine of Divine Knowledge in terms of the highest and most essential of all possible considerations. C.F. Kelley from the Preface

Book Jacket *Papers Presented at the Fifteenth International Conference on Patristic Studies Held in Oxford 2007* Jane Baun, 2010 *The Thought of Jonathan Edwards* Miklos Veto, 2021-01-25 Jonathan Edwards is the greatest theologian of colonial America as well as its first important philosopher. As a theologian, he represents without any concession Calvinistic Orthodoxy rethought and relived through the experience of the Great Awakening. The large majority of his writings are of a theological character, yet this theology is articulated and expressed through a systematic philosophical reflection. Edwardsian thought covers three major areas: First, being, grace, and glory; then, the doctrine of the will, extending to the study of the original sin and evil; finally, an entirely original theory of knowledge synthesizing spirituality, aesthetics, and epistemology. The present book, the first edition of which appeared in French almost thirty years ago, is a uniquely comprehensive study of the work of Jonathan Edwards. It discusses all the aspects of his thought over against the background of classical Protestant theology and of seventeenth and eighteenth-century Western philosophy. Our time witnesses a significant renewal of interest in Jonathan Edwards. Professor Veto's book should prove to be a major contribution to assist and to guide the readers of America's Theologian [Derrida: Profanations](#) Patrick O'Connor, 2010-07-08 **Catholic Identity Or Identities?** Gerald A. train and form members of our institutions in the Gospel values that are the ultimate foundation of Catholic identities Internationally recognized author educator and facilitator Gerald A Arbuckle argues that it is time to acknowledge that the programs and processes used in the past are inadequate to our postmodern age The systems previously used to educate the staffs of our hospitals universities schools and other institutions rarely succeed today Although didactic teaching and discursive learning have their place they cannot be the primary method for forming identities Catholic Identity or Identities will assist a wide range of people bishops theologians pastoral workers institutional leaders and staffs and more in their various ministries Arbuckle draws on several disciplines including Scripture theology and history but in particular cultural anthropology to explain the importance of refounding adult formation for Catholic ministries and the practical ways to achieve it

Early Scholastic Christology 1050-1250 Richard Cross,2024-09-16 This book traces developments in Christology and specifically the metaphysics of the union of divine and human natures in one person from 1050 the age of Anselm of Canterbury to 1250 the age of Albert the Great During the first part of the period the key issue is the conflict between Augustine s homo assumptus assumed man Christology defended by the Victorines and that of Boethius s Chalcedonian Christology defended by Gilbert of Poitiers sometimes known as the subsistence theory By 1180 the latter of these was almost universally accepted A third view apparently accepted by Peter Lombard among others according to which it is not true that Christ as man is something the non aliquid Christology was condemned in 1177 The second part of the book traces the way in which theologians attempted to develop the presentation of Conciliar Christology by working out inchoate solutions to some of the metaphysical questions that the issue raises what is the nature of the hypostatic union between the two natures or the human nature and the divine person is it something created or something uncreated And given that the human nature is a particular substance what prevents it from being a person Theologians used insights from both of the rejected theories the homo assumptus Christology and the non aliquid Christology in attempting to answer these issues The early thirteenth century saw both the founding of the universities of Paris and Oxford and the founding of the Franciscan and Dominican orders The book explores the impact of these religious identities on the formation of Christological teaching
