Concordance to Livy. 3. Volume III: K-P David W. Packard, Titus Livius, 1968 **Livy** Gary B. Miles, 2018-09-05 Some critics of the Roman historian Livy 59 B C A D 17 have dismissed his work as a compendium of stale narratives and conventional attitudes Gary B Miles reveals in Livy s history a creative interplay between traditional stories contemporary ideological assumptions and the historian s own perspective at the margins of Roman aristocracy Drawing on a range of critical approaches Miles considers Livy s stance as a historian the ways in which he reworked his sources and his interpretation of such historical phenomena as recurrence continuity and change Miles focuses on the foundation stories with which Livy begins his account detecting in Livy s rendition certain original conceptions of historical time including the suggestion that Roman identity and greatness might be preserved indefinitely through successive reenactments of a historical cycle Miles pays particular attention to two stories those of the abduction of the Sabine women and of Romulus and Remus showing how Livy s versions of these traditional narratives far from leading to a simplistic moral address unresolved political issues of his day According to Miles Livy shows an unusually tenacious willingness to confront dilemmas in historiography and Roman ideology which were commonly ignored or suppressed by both his predecessors and his contemporaries **Latin**

Historians Christina Shuttleworth Kraus, A. J. Woodman, 1997-07-03 The histories of Rome by Sallust Livy Tacitus and others shared the desire to demonstrate their practical applications and attempted to define the significance of the empire Politics and military activity were the central subjects of these histories Roman historians claims to telling the truth probably meant they were denying bias rather than conforming to the modern tendency to be objective **Livy's Written Rome** Mary Jaeger, 1997 The modern age is not the only one in which Romans and visitors to Rome have been fascinated with the city s

striking juxtapositions of past and present Rome's wealth of history also captured the imagination of the ancients Livy's *Written Rome* by Mary Jaeger shows how one writer explored the relationship between events in Roman history the landscape in which they occurred and the monuments that commemorated them While Augustus reconstructed the physical city to reflect the ideology of the Empire the historian Livy created a written Rome and taught his readers to look beyond the city's dramatically altered landscape In so doing they gained insight into the lessons of the lost Republic Drawing upon modern discourse on the connection between private mental spaces and public civic spaces this first in depth study of Livy's use of the urban landscape offers discerning views on his interpretation of ancient theories of historiography Livy's *Written Rome* discusses the Roman idea of the monument as a place where memory and space intersect and includes fresh readings of several historical episodes including the battle over the Sabine Women the sedition of Marcus Manlius and the trials of the Scipios Scholars have long criticized Livy as a historian because his work is not in accord with modern historiographical standards Yet even his critics agree that Livy is a masterful literary artist and recent work on Livy has argued for the complexity and originality of his thought Across the humanities recent scholarship has focused on the role of memory in civic consciousness and identity This book explores the ways in which Livy's texts question traditional assumptions about the preservation and use of the past In doing so it identifies a new and important facet of Livy's representation of urban Rome Livy's *Written Rome* will be of interest to classicists and historians students of ancient historiography and classical rhetoric as well as general readers interested in memory monuments and historical narrative Mary Jaeger is Professor of Classics University of Oregon
