Edited by A. S. Cook** Albert Stanburrough Cook,1908 **A CONCORDANCE TO THE ENGLISH POEMS OF THOMAS GRAY. ED. BY ALBERT S. COOK.** ,1975 *Eighteenth Century English Literature and Its Cultural Background* James Edward Tobin,1967 *The New Cambridge Bibliography of English Literature: Volume 2, 1660-1800* George Watson,Ian R. Willison,1971-07-02 More than fifty specialists have contributed to this new edition of volume 2 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries **Homosexuality in Renaissance and Enlightenment England** Claude J

Summers,2013-11-26 This new book significantly contributes to an increased understanding of the gay and lesbian experience as it illuminates important works of literature and clarifies the status of same sex desire in English literature from 1500 1760 Homosexual themes can be found throughout the literature of the English Renaissance and Enlightenment but only rarely are they direct and unambiguous The essays here are engaged in a vital and necessary process of re historicizing and re contextualizing literature Utilizing a variety of critical methods and proceeding from several different theoretical and ideological presuppositions these essays raise important questions about the methodology of gay studies about the conception of same sex desire about the depiction of homoerotics and about the relationship of sexuality and textuality even as they shed new light on the homosexual import of a number of significant works of literature Among the authors studied are Christopher Marlowe William Shakespeare John Donne Lady Mary Wroth Katherine Philips Aphra Behn John Cleland and Thomas Gray The collection attests both the current intellectual ferment in gay studies and the richness of English Renaissance and eighteenth century literary representations of homosexuality Homosexuality in Renaissance and Enlightenment England provides numerous insights into important works of literature and into significant theoretical issues implicit in the process of discerning and defining homosexuality in texts of earlier ages All the contributors locate their texts in carefully delineated cultural and historical milieux But they are not unduly constrained by either the tyranny of theory or the anxieties of anachronism Rather than proceeding from hidebound or fashionably current ideologies they sift the texts they study for the concrete evidence from which theories of sexuality might be constructed or modified Hence the collection will be valuable both for its practical criticism and for its theoretical contributions It vividly illustrates the variety of gay studies in literature especially as applied to works of earlier ages *The Cambridge Companion to Literature in a Digital Age* Adam Hammond,2024-11-14 Literature has experienced two great medium shifts each with profound implications for its forms genres and cultures that from orality to writing and that from writing to printing Today we are experiencing a third shift from printed to digital forms As with the previous shifts this transformation is reconfiguring literature and literary culture The Cambridge Companion to Literature in the Digital Age is organized around the question of what is at stake for literary studies in this latest transition Rather than dividing its chapters by methodology or approach this volume proceeds by exploring the major categories of literary investigation that are coming under pressure in the digital age concepts such as the canon periodization authorship and narrative With chapters written by leading experts in all facets of literary studies this book shows why all those who read study and teach literature today ought to attend to the digital *The Continuity of Poetic Language* Josephine Miles,1951 Studies in English Poetry from the 1540 s to the 1940 sDonated by Frank Mattson
