Concordat of Agreement--Supporting Essays Daniel F. Martensen,1995-03-01 **Cruciform Ecumenism** Elizabeth Smith Woodard,2019-09-06 The truth claims of Christianity appear compromised by the division of Christ's followers into different denominations What keeps Christians separated retreating to their corners labeled Catholic Orthodox and various types of Protestant Elizabeth Smith Woodard accounts for Christian disunity in terms of ecclesiology episcopacy and apostolicity in brief Who are we Who is in charge And are we who we say we are Woodard argues that the controversial issues dividing Christians today stem from these questions of authority and identity What would it look like Woodard asks if Christians did not insist on making others more like us but instead worked toward all of us becoming more and more like Christ She answers that growing in such cruciformity should serve as the basis for unity Using recent unity achieving Anglican Lutheran discussions as a case study she examines the crucial intersection of ecclesiology episcopacy and apostolicity to argue that Christians growth in Christ's mission necessarily entails growing in unity and cruciformity

Deaconesses, the Ordination of Women and Orthodox Theology Eleni Kasselouri-Hatzivassiliadi,Niki Papageorgiou,Petros Vassiliadis,2018-06-11 This collection of essays highlights the thorny and divisive issue of the admission of women into the sacramental diaconal priesthood of the Christian Church from the Orthodox theological perspective The contributions here stem from scientific papers presented at an international conference titled Deaconesses Ordination of Women and Orthodox Theology organized in Thessaloniki Greece in 2015 by the Center of Ecumenical Missiological and Environmental Studies CEMES They cover almost all the fields of biblical liturgical patristic systematic canonical and historical theology The volume's main focus is the ancient order of deaconesses in connection with the overall issue of the ordination of women Although most papers address the issues from an Orthodox perspective their sober analysis can provide theological argumentation for the wider Christian community both the Churches and Christian denominations that exclude women from the sacramental priesthood and those that have already adopted their ordination

Ecumenical Reception William G. Rusch,2007-07-16 In 1988 William Rusch wrote a book tracing the development of the idea of reception up to that time During the intervening years both reflection on reception and the experience of attempting to engage in it have progressed considerably Rusch begins with a bird's eye view of the term reception across several disciplines law philosophy literary criticism before homing in on its theological import He traces its use as a term and as a practice from the New Testament up to the twentieth century painting a picture of a dynamic process that fosters unity and diversity among churches and spiritual communities Finally he examines the new chapter in the history of reception due to the establishment of the ecumenical movement and considers what will be necessary for it to continue to move the church forward

Unity in the Triune God Timo Tavast,2012-12-21 The contemporary trinitarian paradigm in systematic theology has been internationally well known since the time of Karl Barth and Karl Rahner and particularly since the contribution of their famous successors Many of them Wolfhart Pannenberg and

Robert W Jenson among others have intentionally shown in their writings what the general ecumenical relevance of the findings of trinitarianism might be. However the academic research of ecumenism has not yet fully investigated how ecumenically oriented trinitarian theology has been factually applied in varying ecumenical relationships and agreements. Unity in the Triune God focuses on the ecumenism of the Evangelical Lutheran Church in America with its full communion partners the Presbyterian Church USA the Reformed Church in America and the United Church of Christ 1997 the Episcopal Church 1999 the Moravian Church in America 1999 and the United Methodist Church 2009. Together all these ecumenically active denominations have shown in their full communion agreements that the doctrine of the Trinity and the church's common trinitarian confession are not meaningless relics from ancient times but rather are dynamic and many-sided ecumenical resources that can be used for several functions in full communion agreements. The goal of this study is to reveal the differing ways in which to utilize this ecumenical potential of the trinitarian faith.

The Encyclopedia of Christianity Erwin Fahlbusch, Geoffrey William Bromiley, 1999. The Encyclopedia of Christianity is the first of a five-volume English translation of the third revised edition of *Evangelisches Kirchenlexikon*. Its German articles have been tailored to suit an English readership and articles of special interest to English readers have been added. The encyclopedia describes Christianity through its 2000-year history within a global context, taking into account other religions and philosophies. Social and cultural coverage is given to such issues as racism, genocide, and armaments, while historical content shows the development of biblical and apostolic traditions. This comprehensive work, while scholarly, is intended for a wide audience and will set the standard for reference works on Christianity. Outstanding reference sources. 2000. American Libraries. One Lord, One Faith, One Baptism Marsha L. Dutton, Patrick T. Gray, 2006-05-09. Foreword by Frank T. Griswold. One Lord, One Faith, One Baptism gathers twenty-one articles from distinguished church historians, literary historians, and ecumenists, all written in honor of the Reverend Canon J. Robert Wright, St. Mark's Professor of Ecclesiastical History at The General Theological Seminary of the Episcopal Church, who has been an inspiration to a generation of students and colleagues. The Most Reverend Frank T. Griswold, Presiding Bishop of the Episcopal Church, has written a foreword that complements the work of contributors such as S. W. Sykes, Richard A. Norris Jr., and George Tavard, among others. Though these articles differ in individual subject, they cohere in their relation to Dr. Wright's expertise as a theologian, a historian, a medievalist, an ecumenist, and above all, a man of the church. An Historical Essay on Modern Spain Richard Herr, 1974-11-20 More political than cultural in its emphasis this enormously detailed scholarly yet thoroughly readable book about modern Spain under Franco should fascinate any reader curious to know what changes have been wrought in that country in the past 30 years Professor Herr UCLA and Berkeley has researched painstakingly and drawn a clear authentic and meaningful portrait of Spain today as it is rapidly being transformed from an agrarian society to one now predominantly industrial Publishers Weekly Professor Herr is also seeking the origins of modern Spain his history is Aristotelian in that the end dominates the process He seeks these origins in the later eighteenth century when the traditional order was perceived to be a bar to progress A group of civil servants influenced by the European Enlightenment sought to bring Spain into Europe believing that industrial progress education and agrarian reform would do the trick but all their reforms were opposed by Catholic traditionalists Hence the division into the two Spains Yet it is not the old crude version of two Spains so often served up to explain everything from the failure of university reform to the Civil War that Professor Herr plumps for He sees the course of

Spanish history explained by the rise and modification of the Moderado oligarchy he does throw out a lifeline in a sea of complexities and gives us the best short account of Franco Spain Spectator This is a work of substantial interest and value which must be recommended as a well balanced readable and scholarly introduction to a subject which has never ceased to be controversial and is still in the process of reinterpretation commands a high place among the general histories of Spain Journal of Modern History Anglican Orders and Ordinations David Holeyton,1997 A History of Lutheranism Eric W.
