Concrete Flesh

Thomas SPRAT (Bishop of Rochester.)

Concrete Flesh:

Life as Spirit Keith Ka-fu Chan, 2018-08-21 Paul Tillich is exceptional in modern theologians that his distinctive and abundant understanding of the concept of life and spirit has the potential to engage with other disciplines such as biology psychology cosmology and social science and that his ontological understanding of life as spirit which is so crucial in the ecological consideration is so complex and subtle that enables powerful and critical inter religious dialogue in environmental ethics This book argues that despite the fact that Tillich did not engage in ecological and environmental theology directly his abundant personal experience of nature mysticism and intellectual understanding of the idea of nature rooted in his Lutheran and German idealist heritages and more importantly his ontological pneumatological holistic and multi dimensional conception of unifying and differentiated reality perfectly and organically coupled with the theonomous vision of theology of culture nature and morality is profoundly ecologically oriented

The Development of the Term ἐνυπόστατος from Origen to John of Damascus Benjamin Gleede, 2012-05-04 Examining the usage of the term both in the trinitarian debates before Chalcedon and especially the Christological ones afterwards this study illustrates the gradual yet profound change in its meaning initiated by Leontius of Byzantium In distinguishing between the hypostasis and the Leontius initiates a crucial shift in that an is no longer straightforwardly considered as a proper independent hypostasis of its own but as something realized in a hypostasis which is by no means necessarily endowed with a hypostasis of its own This technical discussion of the term is accompanied by an attempt at classifying the entirety of the different usages it keeps on displaying despite its Christian theological origin and its outstanding importance during the post chalcedonian Christological debates

The History of the Royal Society of

London for the Improving of Natural Knowledge. 2. Ed Thomas Sprat, 1702 **The History of the Royal Society of London for the improving of natural knowledge. With verses addressed to the Society, by A. Cowley** Thomas SPRAT (Bishop of Rochester.), 1702 *Mead and Merleau-Ponty* Sandra B. Rosenthal, Patrick L. Bourgeois, 1991-10-04 This book unites George Herbert Mead and Maurice Merleau Ponty in a shared rejection of substance philosophy as well as spectator theory of knowledge in favor of a focus on the ultimacy of temporal process and the constitutive function of social praxis Both Mead and Merleau Ponty return to the richness of lived experience within nature and both lead to radically new insightful visions of the nature of selfhood language freedom and time itself as well as of the nature of the relation between the so called tensions of appearance and reality sensation and object the individual and the community freedom and constraint and continuity and creativity **Symbols and Myth-Making in Modernity** Tatiana Tiaynen-Qadir, Ali Qadir, 2022-11-01 Why do people queue up and break the bank to watch fantasy movies Why do some fictional characters and mythical creatures strangely arrest our mind and senses Why do some images and tales affect us so deeply From mystical heroic journeys to uncanny images and invincible goddesses Symbols and Myth Making in Modernity investigates the metaphoric power of symbols in human imagination today and in the past The book traces how ever present symbols in cultures and rituals across the world as well as in masterpieces of Renaissance Sufi poetry and Finnish Kalevala myths erupt in popular culture today including in cinema books visual art music and politics The authors develop a phenomenological theory of deep culture that nourishes human perception of reality through multivalent symbols and myths in which art and rituals occur as liminal spaces of symbol making Drawing on examples from the Hobbit and Avengers street art politics and work of acclaimed modern artists the book describes how deep culture can be seen as a symbolic map of modern mythology Dismantling literalism and disturbing our view of the world at each step the book unpacks how symbols play out in the modern world and the work they do in transforming the self **Guthrie Clothing** Phil Hall, 2015-08-07 Increasingly known as the poet s poet Governor General s Award winner Phil Hall has long been a constructor of intricate sequences collecting and arranging lines and phrases artifacts and small revelations He writes on influences literary and local he writes of rural Ontario attempting to comprehend a deeply personal family violence he stitches together lines and tall tales and fables from his life and the stories that float around the ethos of his variety of Ontario wilds Hall s isn t a poetry carved into perfect diamond form but a poetry whittled from scores of found materials pulled apart and rearranged This volume is not so much a selected poems as it is a reshuffle a sampler from the span of Hall s published work Guthrie Clothing is a collage selection by Hall Lines stanzas and poem fragments are reworked and patterned into a new sequence a fresh structure The afterword consists of an important new essay poem by Hall as well It argues against irony from a rural perspective and amounts to Hall s ars poetica In an encompassing introduction rob mclennan explores Hall s four plus decades of bricolage **Unadjusted Man in the Age of Overadjustment** , The great critic Peter Viereck in a volume that both reproduces an earlier effort and presents an entirely

new work on the intersection of history and literature offers a biting critique of the American desire for normalcy that leads to a culture of the surrender of personality In contrast to this voluntary thought control process is the unadjusted person Cast in the mold of great individualists from Thomas More to Friedrich Nietzsche such a person responds to fundamental values of conscience rather than conformity built exclusively on ego gratification and icon worship Viereck's book is a stinging critique of the liberal presumption of a monopoly in critical thought He argues to the contrary that most varieties of liberal expression offer little else than the common platitude dressed up as critique In such a cultural environment conservatism is the skeleton in the liberal closet The virtue of conservatism is that in its very stress on liberty as dependent on tradition and law it permits the human being an opportunity to test all transient things by the touchstone of all lasting ideas Unadjusted Man cuts deep and in many directions against left totalitarian regimes of Europe and right wannabes like McCarthyism in America For Viereck the art of conserving is not an embrace of utopias to come or empires that were but retaining the sense of individuality over against the senselessness of the massman Civil liberties in this approach are a right to non conspiratorial dissent informed by fundamental values The new material is presented unabashedly without an attempt to rewrite personal history and with an admission that not every prediction made in the original edition has come to fruition That said the underlying themes of the original are not so much repeated as expanded upon For those seeking a work in the classic mold of conservatism rather than the strident reactionary views that have come to dominate much of the conservative dialogue this will be a special book a special entrance to the mind of a great figure in American culture wars of present as well as past

Studies in Social and Political Theory (RLE Social Theory) Anthony Giddens, 2014-08-21 The studies which comprise this book are essentially organized around a critical encounter with European social theory in its classical period i.e. from the middle years of the nineteenth century until the First World War and have the aim of working out some of the implications of that encounter for the position and prospects of the social sciences today The issues involved relate to the following series of problems method and epistemology social development and transformation the origins of sociology in nineteenth century social theory and the status of social science as critique In each of these areas Giddens develops views that challenge existing orthodoxies and connects these ideas to a reconstruction of social theory in the contemporary era

Recognition and Social Ontology Heikki Ikaheimo, Arto Laitinen, 2011-03-24 This unique collection focuses on the unexamined connections between two contemporary intensively debated lines of inquiry Hegel inspired theories of recognition *Anerkennung* and analytical social ontology These lines address the roots of human sociality from different conceptual perspectives and have complementary strengths variously stressing the social constitution of persons in interpersonal relations and the emergence of social and institutional reality through collective intentionality In this book leading theorists and younger scholars offer original analyses of the connections and suggest new ways in which theories of recognition and current approaches in analytical social ontology can enrich one another
