Condition Human Being:

Sociality as the Human Condition Rebekka A. Klein, 2011-06-09 In addition to being contemplated in the classical disciplines of anthropology human sociality has been subjected to scientific examination in the natural and social sciences This book offers a substantial discussion of empirical research programs within current economics experimental and neuroeconomics with special regard to the themes of reciprocity and altruism These themes are discussed from a philosophical perspective informed by phenomenology and hermeneutics and linked to theories of conflict recognition and alterity in social philosophy which are used to show the limitations of the purely science based naturalistic approaches in economics Finally the book introduces the concept of the neighbor in Christian theology and shows how this figure brings a new perspective to the examination of human sociality

The True Human Being Maria Louise Odgaard Møller, 2019-06-17 The aim of Odgaard Møller's book is threefold The first main section seeks to clarify how and why Jesus is presented in the pre 1968 writings of the Danish theologian and philosopher K E Løgstrup 1905 1981 Throughout his work Løgstrup's main focus has been a rehabilitation of the insight that life is something definite because it is created Here Jesus primarily plays a methodological strategic role as the one confirming and giving witness to Løgstrup's interpretation of created life in a given time of his authorship When faith in creation is formulated polemically against another interpretation of life Jesus serves as Løgstrup's ally in this discussion In the second main section this examination is extrapolated to include a discussion with Bultmann and two of his students in order to clarify the character of his Christology not least whether or in what way this can be characterised as implicit Christology Finally in the light of Ricoeur's hermeneutic philosophy of religion the third main section considers the systematic theological validity of this picture of Jesus The overall conclusion can be summed up in this way The main line in Løgstrup's work goes from created life to the human being Jesus of Nazareth Jesus incarnates created life therefore he is the true human being This close connection between created Life and true Human Being is the kernel in Løgstrup's thought This makes his perception of Jesus and his Christology distinctive original and specifically Løgstrupian

Human Rights and the Body Annabelle Mooney, 2016-05-13 Human Rights and the Body is a response to the crisis in human rights to the very real concern that without a secure foundation for the concept of human rights their very existence is threatened While there has been consideration of the discourses of human rights and the way in which the body is written upon research in linguistics has not yet been fully brought to bear on either human rights or the body Drawing on legal concepts and aspects of the law of human rights Mooney aims to provide a universally defensible set of human rights and a foundation or rather a frame for them She argues that the proper frames for human rights are firstly the human body seen as an index reliant on the natural world secondly the globe and finally language These three frames generate rights to food water sleep and shelter environmental protection and

Dillard,2020-03-11 In this groundbreaking new work Dillard makes a powerful case for bringing contemporary Christian theology into critical dialogue with Martin Heidegger s Contributions to Philosophy Of the Event Following his initial receptivity to theology in his early writings Heidegger becomes increasingly agnostic and even atheistic in the 1930s until the sudden resurgence of religious discourse in Contributions Dillard shows that there are good reasons for Heidegger s striking reversal Key philosophical concepts from Contributions enable Heidegger to overcome earlier theological conundrums left unresolved in his earlier engagements with themes in St Paul and Luther while the need to make a fateful decision regarding the last god prevents the central philosophical task of Contributions from collapsing into empty tautology or relapsing into objectionable metaphysics Nevertheless Heidegger leaves us in the predicament of having no clear idea of how we are to make the crucial decision about divinity After considering several unsuccessful proposals for escaping the dilemma Dillard develops a christological solution based on Heidegger s engagement with the poetry of Georg Trakl The resulting theological perspective is defended from some possible criticisms and situated within the broader context of contemporary postmetaphysical Heideggerian theology *Conditions of Social Well-being* David Cunningham (Civil
