Condition Of Women In France 1945 To The Present A Documentary Anthology:

The Condition of Women in France Claire Laubier,1990 **The Condition of Women in France** Claire Laubier,2016-09-01 Claire Laubier brings together documentary and statistical material extracts from newspapers and journals literary texts advertisements manifestos and personal testimonies Each extract relates to the different experiences of women in France at work in politics at home and in the family Together they offer a direct and thought provoking chronological and thematic account of women s lives in post war France **The Condition of women in France, 1945 to the present** Claire Laubier,1990 Claire Laubier brings together documentary and statistical material extracts from newspapers and journals literary texts advertisements manifestos and personal testimonies Each extract relates to the different experiences of women in France at work in politics at home and in the family Together they offer a direct and thought provoking chronological and thematic account of women s lives in post war France **The Condition of Women in France** Claire Laubier,2003-09-02 Intended for the language student this is a collection of documentary and statistical materials taken from adverts newspapers etc Each extract relates to the different experiences of French women at work at home and in politics *Constructed Situations* Frances Stracey,2014-10-20 The Situationist International were a group of anti authoritarian highly cultured revolutionary artists whose energy and enagement fundamentally shaped the revolutions of the late 1960 s most famously in Paris in May 68 They took on their shoulders the history of the workers struggle saw that it had been corrupted by authoritarianism and transformed it with influences incorporating the avant garde via Dada and Surrealism They were not Marxologists defenders of the faith Marxism came back to life in their raging analyses the use of the spectacle and at the heart of the project was the idea of the constructed situation This book by Frances Stracey offers itself up as the first historiography of constructed situations Within it are new insights into the movement and with them a sense of relevance to political situations and practice today As an archivist Stracey uncovered new documents which amongst other things revealed how the SI related to representations of sexuality and is able to discuss whether they could be considered as feminists or not She also looked at their famous motto Never Work and again shows how alienated labour is even more relevant to us today *Constructed Situations* is not a history of celebrated personalities or cultural influences or political circumstances It is instead an open door to one of the most influential art movements in modern history and an invitation for us to reclaim inspiration from this ubiquitous movement *Women's Rights and Women's Lives in France 1944-1968* Claire Duchon,2003-09-02 Women s Rights and Women s Lives In France 1944 1968 explores key aspects of the everyday lives of women between the Liberation of France and the events of May 68 At the end of the war French women believed that a new era was beginning and that equality had been won The redefined postwar public sphere required women s participation for the new democracy and women s labour power for reconstruction but equally important was the belief in women s role as mothers Over the next two decades the tensions between competing visions of women s proper place

dominated discourses of womanhood as well as policy decisions and had concrete implications for women's lives Working from a wide range of sources including women's magazines prescriptive literature documentation from political parties government reports parliamentary debates and personal memoirs Claire Duchen follows the debates concerning womanhood women's rights and women's lives through the 1944-1968 period and grounds them in the changing reality of postwar France

Women's Rights and Women's Lives in France 1944-68 Claire Duchen, 2024-11-01 Women's Rights and Women's Lives In France explores the everyday experiences of women between the liberation and May 1968 In 1945 French women believed that a new era was beginning for them in which they had finally won equality the right to vote in 1944 equal pay and access to education and employment But the new Republic considered that women's main role was that of motherhood Competing visions of women's place had concrete implications for women's lives influencing work politics and ideals of femininity Working from a wide range of sources including women's magazines prescriptive literature political pamphlets fiction and memoirs and government reports Claire Duchen follows the debates concerning women through twenty years and grounds them in the changing social reality of postwar France

Enfants Terribles Susan Weiner, 2001 Weiner highlights the new importance of youth as a social category of identity in the context of the postwar explosion of the mass media and explores the ways in which girls both defined and disrupted this category

Modern France Malcolm Cook, Grace Davie, 2002-01-04 Modern France is an up to date and accessible introduction to the nature of French society at the end of the twentieth century The book examines the transition of France and French life as the nation moves from an industrial to a post industrial economy and the cultural and social dislocations that such an evolution implies Sociological concepts and categories of class race gender age and region are discussed as well as how they combine together to produce inequalities and identities These concepts are then applied to a range of issues such as work politics education health religion and leisure Modern France reveals the nature of French society at a critical moment in her evolution and how a member of the European Union reflects distinctiveness and commonality in the development of Europe as a whole

French Women in Politics: Writing Power Raylene L. Ramsay, 2003 Although more women in France have entered political life than ever before the fact remains that there are fewer women representatives in the French parliament than there were after the Second World War In a new and original approach the author presents an overview and analysis of the emerging body of text by or on women who have held high political office in France The argument is that writing about women and politics has not just described or reflected women's slow but now substantial entry into political life it has played a major part in shaping the parity debate and its outcomes Interviews with political women such as Huguette Bouchardeau Simone Veil or Edith Cresson inserted in the text demonstrate the emergence and circulation of a new common discourse focused on the issue of whether women in politics make or should make a difference A close reading of the various texts examined in this book and their connection to new public counter discourses in France suggest that a re writing of power is indeed occurring

Sex, France, and Arab

Men, 1962-1979 Todd Shepard, 2018-01-08 The aftermath of Algeria's revolutionary war for independence coincided with the sexual revolution in France and in this book Todd Shepard argues that these two movements are inextricably linked *Sex France and Arab Men* is a history of how and why from the upheavals of French Algeria in 1962 through the 1970s highly sexualized claims about Arabs were omnipresent in important public French discussions both those that dealt with sex and those that spoke of Arabs Shepard explores how the so called sexual revolution took shape in a France profoundly influenced by the ongoing effects of the Algerian revolution Shepard's analysis of both events alongside one another provides a frame that renders visible the ways that the fight for sexual liberation usually explained as an American and European invention developed out of the worldwide anticolonial movement of the mid twentieth century *Politicizing Rape and Pornography* Trine Rogg Korsvik, 2020-10-24 This book examines how feminist movements in Norway and France have politicized rape pornography and sexual exploitation of women from the 1970s to the present Through a cross national comparison it provides insights into why the fight against rape became top priority for French feminists in the 1970s what kind of strategies the feminist movements used when politicizing sex and violence who the opponents of the feminist mobilizations were and who the allies were as well as what the feminist movements achieved and what the costs of the battles were This book provides historical context for contemporary and contentious debates about the tension between feminism and sexual freedom about sexual liberation and abuse and about the limits of freedom of expression This text is relevant for students in history sociology health political science comparative politics and interdisciplinary gender studies It is also relevant for researchers and activists who are concerned with the history of feminism feminist politics and sexual politics *Sexuality in Europe* Dagmar Herzog, 2011-08-18 This original book brings a fascinating and accessible account of the tumultuous history of sexuality in Europe from the waning of Victorianism to the collapse of Communism and the rise of European Islam Although the twentieth century is often called the century of sex and seen as an era of increasing liberalization Dagmar Herzog instead emphasizes the complexities and contradictions in sexual desires and behaviours the ambivalences surrounding sexual freedom and the difficulties encountered in securing sexual rights Incorporating the most recent scholarship on a broad range of conceptual problems and national contexts the book investigates the shifting fortunes of marriage and prostitution contraception and abortion queer and straight existence It analyzes sexual violence in war and peace the promotion of sexual satisfaction in fascist and democratic societies the role of eugenics and disability the politicization and commercialization of sex and processes of secularization and religious renewal **The Lost Wave** Molly Tambor, 2014 The first women entered national government in Italy in 1946 and represented a lost wave of feminist action They used a specific electoral and legislative strategy constitutional rights feminism to construct an image of the female citizen as a bulwark of democracy Mining existing tropes of femininity such as the Resistance heroine the working mother the sacrificial Catholic and the mamma Italiana they searched for social consensus for women's equality that could reach

across religious ideological and gender divides The political biographies of woman politicians intertwine throughout the book with the legislative history of the women s rights law they created and helped pass a Communist who passed the first law guaranteeing paid maternity leave in 1950 a Socialist whose law closed state run brothels in 1958 and a Christian Democrat who passed the 1963 law guaranteeing women s right to become judges Women politicians navigated gendered political identity as they picked and chose among competing models of femininity in Cold War Italy In so doing they forged a political legacy that in turn affected the rights and opportunities of all Italian women Their work is compared throughout The Lost Wave to the constitutional rights of women in other parts of postwar Europe **Agnes Varda Between Film,**

Photography, and Art Rebecca J. DeRoo,2018 Proceeding chronologically from the beginning of Varda s career in the 1950s to the present this book focuses on moments where Varda s invocation of different artistic traditions within film opens onto complex commentary on broader aesthetic theoretical feminist and political discussions I reinterpret some of her best known films but also focus attention on other less familiar works that merit further consideration I reassess individual works with the goal of interrogating Varda s visual dialogues to reconstruct the cultural politics of the periods in which they were made This process of reading new strands of meaning across Varda s oeuvre relies on a richly interdisciplinary approach The result is a new cultural history of Varda and her work that makes clear how she actively engaged and subtly broadened some of the most advanced aesthetic and political discourse of her day Many of Varda s sophisticated commentaries on controversial issues of her time have receded from view in the biographical frameworks in which her work often has been considered The range of her engagement in her work with cinema art history photography and visual culture has not been fully recognized This decontextualization of Varda s work has been compounded by the frequent emphasis on her exceptionality within her fields of practice In contrast I view Varda s work as a projection of cultural history that illuminates multiple disciplines including art history cinema studies visual culture and modern French history Provided by publisher **Daughters of 1968**

Lisa Greenwald,2019-01-01 Daughters of 1968 is the story of French feminism between 1944 and 1981 when feminism played a central political role in the history of France The key women during this epoch were often leftists committed to a materialist critique of society and were part of a postwar tradition that produced widespread social change revamping the workplace and laws governing everything from abortion to marriage The May 1968 events with their embrace of radical individualism and antiauthoritarianism triggered a break from the past and the women s movement split into two strands One became universalist and intensely activist the other particularist and less activist distancing itself from contemporary feminism This theoretical debate manifested itself in battles between women and organizations on the streets and in the courts The history of French feminism is the history of women s claims to individualism and citizenship that had been granted their male counterparts at least in principle in 1789 Yet French women have more often donned the mantle of particularism advancing their contributions as mothers to prove their worth as citizens than they have thrown it off claiming absolute

equality The few exceptions such as Simone de Beauvoir or the 1970s activists illustrate the diversity and tensions within French feminism as France moved from a corporatist and tradition minded country to one marked by individualism and modernity *The Museum Establishment and Contemporary Art* Rebecca J. DeRoo, 2006-01-09 This book provides an in depth account of the protests that shook France in 1968 and which served as a catalyst to a radical reconsideration of artistic practice that has shaped both art and museum exhibitions up to the present Rebecca DeRoo examines how issues of historical and personal memory the separation of public and private domains and the ordinary objects of everyday life emerged as central concerns for museums and for artists as both struggled to respond to the protests She argues that the responses of the museums were only partially faithful to the aims of the activist movements Museums in fact often misunderstood and misrepresented the work of artists that was exhibited as a means of addressing these concerns Analyzing how museums and critics did and did not address the aims of the protests DeRoo highlights the issues relevant to the politics of the public display of art that have been central to artistic representation in France as well as in North America

Beauvoir and Her Sisters Sandra Reineke, 2011-05-01 Beauvoir and Her Sisters investigates how women s experiences as represented in print culture led to a political identity of an imagined sisterhood through which political activism developed and thrived in postwar France Through the lens of women s political and popular writings Sandra Reineke presents a unique interpretation of feminist and intellectual discourse on citizenship identity and reproductive rights Drawing on feminist writings by Simone de Beauvoir feminist reviews from the women s liberation movement and cultural reproductions from French women s fashion and beauty magazines Reineke illustrates how print media created new spaces for political and social ideas This sustained study extends from 1944 when women received the right to vote in France to 1993 when the French government outlawed anti abortion activities Touching on the relationship between consumer culture and feminist practice Reineke s analysis of a selection of women s writings underlines how these texts challenged traditional gender models and ideals In revealing that women collectively used texts to challenge the state to redress its abortion laws Reineke renders the act of writing as a form of political action and highlights the act of reading as an essential but often overlooked space in which marginalized women could exercise dissent and create solidarity *France 1815-2003: Modern History For Modern Languages* Martin Evans, 2014-02-04 Written in an accessible style and assuming no prior knowledge the books in this series address the specific needs of students in language courses France 1815 2003 focuses on the main events in French political history including major socio economic themes when relevant The book will be supplemented by a specialized website that will include links interviews with key historians and further documents Mixed Messages Chris Tinker, 2010 While popular music and the mass media in France are firmly established areas of enquiry there have been relatively few academic studies of the youth and popular music press This book focuses on Salut les copains Hi Buddies Mates 1962 76 which achieved a circulation of a million copies within its first year at its peak sold around twice as many

magazines as its nearest competitors and has now become synonymous with the development of youth culture in 1960s France. In the few existing accounts of *Salut les copains*, cultural commentators have tended to view the magazine as a neutral apolitical vehicle for French y y pop stars. However, this full length study reveals how written texts in *Salut les copains*, editorial letters and advertising both supported and challenged dominant ideologies concerning culture, the nation, youth and gender during the turbulent 1960s and 1970s.
