politics Through these processes feminists recognised how post war changes in the economy and gender roles were reshaping class and the Women s Liberation Movement attempted to remake class politics in response However socio economic and cultural class differences between the women involved linked to occupation education and background remained intractable obstacles causing tensions within groups fragmentations into specific class based groups and the ultimate failure of the movement to coalesce into a coherent coalition with labour politics despite great levels of solidarity around particular struggles Examining regional feminism against the national backdrop The Women s Liberation Movement and the Politics of Class in Britain provides an engaging exploration of the fruitful but challenging relationship between British feminism and class politics in a capitalist society
