Harmon,2014-04-28 The Civil War resulted from the insistence of Southern firebrands that the 1820 restrictions on where slavery could be practiced in the Western territories of the USA be removed And the dogged determination of some Northerners to restrict the brutal treatment of blacks and finally put slavery on the road to extinction In the 1850s big shoes dropped one after another in staccato fashion to dash such hopes The final

straws were the Dred Scott Decision in 1857 saying blacks weren't even people and Congress had no power to restrict slavery anywhere. And Civil War was going on in bleeding Kansas between adherents of the two stances. John Brown was radicalized there by the sacking of Abolitionist stronghold Lawrence. He and his sons killed some Jayhawkers, slavery adherents from Missouri. Then Brown, his sons and a few others lit a fuse in Oct 1859 by a hare-brained scheme to seize the Federal arsenal at Harpers Ferry to arm slaves and precipitate action to free them. So when Lincoln was elected in 1860, the South bolted. As they had threatened for 15 years, America was almost destroyed. Until July 4, 1863, when two Union victories insured that these honored dead 800,000 shall not have died in vain. Abraham Lincoln, Gettysburg, Pa. Nov 1863. **American Civil War,**

The American Civil War is often called the first modern war. Sandwiched between the Napoleonic Wars and World War I, it spawned a host of firsts and is considered a precursor to the larger and more deadly 20th century wars. Confederate Gen. James Longstreet made overlooked but profound modern contributions to the art of war. Retired Lt Col Harold M. Knudsen explains what Longstreet did and how he did it in *James Longstreet and the American Civil War*. The Confederate General Who Fought the Next War. Initially, commanders on both sides extensively utilized Napoleonic tactics that were obsolete because of the advent of the rifled musket and better artillery. Some professional army officers worked to improve tactics, operations and strategies. On the Confederate side, a careful comparison of Longstreet's body of work in the field to modern military doctrine reveals several large-scale innovations. Longstreet understood early that the tactical defense was generally dominant over the offense, which was something few grasped in 1862. Longstreet's thinking demonstrated a clear evolution that began on the field at First Manassas in July 1861, developed through the bloody fighting of 1862 and culminated in the brilliant defensive victory at Fredericksburg that December. The lethality with which his riflemen and artillery mowed down repeated Union assaults hinted at what was to come in World War I. Longstreet's ability to launch and control powerful offensives was on display at Second Manassas in August 1862. His assault plan at Chickamauga in Georgia the following September was similar, if not the forerunner to World War II tactical level German armored tactics. Other areas show progressive applications with artillery staff work, force projection and operational level thinking. Longstreet was not the sole agent of modern change away from the Napoleonic method, but his contributions were significant and executed on a large scale. They demonstrated that he was a modern thinker unparalleled in the Confederate Army. Unfortunately, many Civil War students have a one-sided view of Longstreet, whose legacy fell victim to bitter postwar Southern politics when Old Pete supported Reconstruction bills, accepted postings with the Grant Administration and criticized Robert E. Lee. Many modern writers continue to skew the general's legacy. This book draws heavily upon 20th century U.S. Army doctrine, field training

staff planning command and combat experience and is the first serious treatment of Longstreet's generalship vis a vis modern warfare. Not everyone will agree with Knudsen's conclusions but it will now be impossible to write about the general without referencing this important study. Atlas of the Civil War, Month by Month Mark Swanson, 2004. A detailed collection of fifty full color maps each one representing a single month of the Civil War chronicles the war's progression on all fronts including battles sieges infantry campaigns naval operations cavalry raids and shifts of national frontiers accompanied by others documenting the political state of the union on the eve of war and the western campaigns.
