Confederation Generation:

Commencement of the second Christian epoch, or, Christ is coming, by a Christian Jesus Christ, 1874 The Argentine Generation of 1837 William H. Katra, 1996 This book is the first comprehensive study of Argentina's talented 1837 generation and the multiple contributions of its members throughout five decades of public involvement. Author William Katra's objective is to elucidate historical and biographical concerns and the most important ideological aspects of their thought and writings.

English Around the World Jenny Cheshire, 1991-04-26 The social development of English as a world language emerges from a comprehensive account of our current knowledge of it as well as the gaps in understanding which future research can remedy.

Silenced Sextet Carrie MacMillan, Lorraine McMullen, 1993-05-17 Carrie MacMillan, Lorraine McMullen and Elizabeth Waterston have uncovered information about the lives and works of six such writers: Rosanna Leprohon, May Agnes Fleming, Margaret Murray Robertson, Susan Frances Harrison, Margaret Marshall Saunders, and Joanna E. Wood. They were once popular novelists who are now for the most part ignored, with virtually all of their works out of print. MacMillan, McMullen, and Waterston show that these six writers deserve modern recognition not only for their literary accomplishments but also for what they reveal through their work and their lives about the condition of the woman writer in nineteenth-century Canada. The writings of these six women from varied backgrounds reflect their different experiences of life in the late nineteenth century. In this study, a biographical profile of each author set in the contemporary social context is provided, as well as an analysis of career development emphasising publishing history and critical response. As each case history unfolds, the broader picture emerges of an era when many ideas of personal and public life were changing.

The Newfoundland Diaspora Jennifer Bowering Delisle, 2013-06-01 Out migration driven by high unemployment and a floundering economy has been a defining aspect of Newfoundland society for well over a century, and it reached new heights with the cod moratorium in 1992. This Newfoundland diaspora has had a profound impact on the province's literature. Many writers and scholars have referred to Newfoundland out migration as a diaspora, but few have examined the theoretical implications of applying this contested term to a predominantly inter provincial movement of mainly white economically motivated migrants. *The Newfoundland Diaspora* argues that diaspora helpfully references the painful displacement of a group whose members continue to identify with each other and with the homeland. It examines important literary works of the Newfoundland diaspora, including the poetry of E. J. Pratt, the drama of David French, the fiction of Donna Morrissey and Wayne Johnston, and the memoirs of David Macfarlane. These works are the sites of a broad inquiry into the theoretical flashpoints of affect, diasporic authenticity, nationalism, race, and ethnicity. The literature of the Newfoundland diaspora both contributes to and responds to critical movements in Canadian literature and culture, querying the place of regional, national, and ethnic affiliations in a literature drawn along the borders of the nation-state. This diaspora plays a part in defining Canada, even as it looks beyond the borders of Canada as a literary community.

Three Strands in the Braid Paula Underwood, 1994 **Tocqueville, Covenant,**

and the Democratic Revolution Barbara Allen, 2005-01-01 Tocqueville Covenant and the Democratic Revolution examines the intellectual and institutional context in which Alexis de Tocqueville developed his understanding of American political culture with its profound influence on his democratic theory American democracy Tocqueville maintained had emerged from the covenant tradition of Reformed Protestantism The covenant or foederal theology of New England Puritans provided the ideational basis for federated church and civil government which directly influenced the American constitutionalism and the republican institutions that Tocqueville later observed Tocqueville suggested that the principles underlying American constitutionalism offered broader lessons in the art and science of self government An important book for scholars of Tocqueville as well as American political thought this book suggests that an understanding of the American covenant tradition is critical to our interpretation of Tocqueville s analysis of the democratic revolution and the new science of politics it necessitated

Becoming Native in a Foreign Land Gillian Poulter, 2010-01-01 How did British colonists in Victorian Montreal come to think of themselves as native Canadian This richly illustrated work reveals that colonists adopted then appropriated Aboriginal and French Canadian activities such as hunting lacrosse snowshoeing and tobogganing In the process they constructed visual icons that were recognized at home and abroad as distinctly Canadian This new Canadian nationality mimicked indigenous characteristics but ultimately rejected indigenous players and championed the interests of white middle class Protestant males who used their newly acquired identity to dominate the political realm English Canadian identity was not formed solely by emulating what was British this book shows that it gained ground by usurping what was indigenous in a foreign land

Kupchan, 2012-03-25 How nations move from war to peace Is the world destined to suffer endless cycles of conflict and war Can rival nations become partners and establish a lasting and stable peace How Enemies Become Friends provides a bold and innovative account of how nations escape geopolitical competition and replace hostility with friendship Through compelling analysis and rich historical examples that span the globe and range from the thirteenth century through the present foreign policy expert Charles Kupchan explores how adversaries can transform enmity into amity and he exposes prevalent myths about the causes of peace Kupchan contends that diplomatic engagement with rivals far from being appeasement is critical to rapprochement between adversaries Diplomacy not economic interdependence is the currency of peace concessions and strategic accommodation promote the mutual trust needed to build an international society The nature of regimes matters much less than commonly thought countries including the United States should deal with other states based on their foreign policy behavior rather than on whether they are democracies Kupchan demonstrates that similar social orders and similar ethnicities races or religions help nations achieve stable peace He considers many historical

successes and failures including the onset of friendship between the United States and Great Britain in the early twentieth century the Concert of Europe which preserved peace after 1815 but collapsed following revolutions in 1848 and the remarkably close partnership of the Soviet Union and China in the 1950s which descended into open rivalry by the 1960s In a world where conflict among nations seems inescapable *How Enemies Become Friends* offers critical insights for building lasting peace
