Allied Aces:

Aces High, Volume 1 Christopher Shores, Clive Williams, 2008-09-18 First in the Aces High series a military reference of the fighter pilots who had five or more confirmed victories while serving in the Royal Air Force Introduced by the French quite early in World War I the term ace was used to describe a pilot credited with five or more aerial victories But in the United Kingdom the term was never officially recognized Becoming an ace was partly luck especially considering the campaigns in which they flew and the areas of combat There are three distinct kinds of aces the defensive ace the offensive ace and the night fighter This book is a revised collection of the biographies of the highest scoring Allied fighter pilots of World War II including those with the confirmed claims of shooting down five aircraft and those pilots with lower scores but whose wartime careers prove them worthy of inclusion All details of their combat are arranged in tabular form Included are a selection of photographs from hitherto private collections There are some authors whose name alone is sufficient reason to buy a book and Christopher Shores is surely one of these By profession a chartered surveyor he served in the Royal Air Force in the 1950s so his writing bears the stamp of authenticity HistoryNet

AN EXCERPT FROM THE ACCOUNT OF GROUP CAPTAIN RAYNE SCHULTZ 410 SQUADRON It was heading home very fast a Junkers 188 in thin cloud well out over the North Sea We hit it badly and it was flaming two three hundred yards of flames streaming behind my navigator being a serious minded individual said Let's get in closer and take a good look at it as it is a different type of aircraft and I can report on it when we get down So I closed in which was the stupidest thing I ever did The mid upper gunner was not dead he was sitting inside of the flames The next thing I saw the gun traversing down toward us I broke as fast as I could but he put forty to forty four 13mm cannon shells into us I had pistons

blown out of one engine and the constant speed unit blown out in the other We were going to bail out We jettisoned the door and the navigator was halfway out when the chap came back from the Ground Control Intercept GCI and said There is a Force 9 to 10 sea and we will never be able to rescue you So we brought that aircraft back to Bradwell Bay and I can tell you it near flew again My navigator was wounded bleeding from the face I could see the engines running red hot one was actually running on molten metal the whole thing glowing inside The air bottles were shot away and I had no brakes for landing The Mosquito was in ribbons
