Application of Intelligent Control Algorithms to Study the Dynamics of Hybrid Power System Dipayan Guha,Provas Kumar Roy,Subrata Banerjee,Shubhi Purwar,2022-03-30 This book aims to systematically review and design different intelligent control algorithms for the small signal stability assessment of HPS With the growing consciousness of global warming and the fast depletion of natural power generation resources the existing power system is on the verge of transitions to a hybrid power system HPS integrated with distributed energy resources The recent results and requirements for the developments of intelligent control algorithms have motivated the authors to introduce this book for extensively analyzing the performance of HPS against unknown uncertain disturbances This book introduces fractional order resilient control methodologies for arresting small signal instability of HPS The prospective investigation has been performed on the MATLAB platform This book is helpful for undergraduate postgraduate students and research scholars working in power system stability control applications and soft computing in particular

Big Data Analytics using Computational Intelligence Approaches Akram Pasha,Syed Ziaur Rahman,2024-11-21 This book offers an in depth analysis of Big Data Analytics merging the fundamentals of data handling with state of the art computational intelligence methodologies It presents a comprehensive overview of key principles including data storage visualization and algorithmic strategies as well

Intelligent Systems Design and Applications Ana Maria Madureira,Ajith Abraham,Dorabela Gamboa,Paulo Novais,2017-02-22 This book comprises selected papers from the 16th International Conference on Intelligent Systems Design and Applications ISDA 16 which was held in Porto Portugal

from December 1 to 16 2016 ISDA 2016 was jointly organized by the Portugal based Instituto Superior de Engenharia do Porto and the US based Machine Intelligence Research Labs MIR Labs to serve as a forum for the dissemination of state of the art research and development of intelligent systems intelligent technologies and applications The papers included address a wide variety of themes ranging from theories to applications of intelligent systems and computational intelligence area and provide a valuable resource for students and researchers in academia and industry alike

Applications of Nature-Inspired Computing and Optimization Techniques, 2024-04-04 Advances in Computers Volume 135 highlights advances in the field with this new volume Applications of Nature inspired Computing and Optimization Techniques presenting interesting chapters on a variety of timely topics including A Brief Introduction to Nature inspired Computing Optimization and Applications Overview of Non linear Interval Optimization Problems Solving the Aircraft Landing Problem using the Bee Colony Optimization BCO Algorithm Situation based Genetic Network Programming to Solve Agent Control Problems Small Signal Stability Enhancement of Large Interconnected Power System using Grasshopper Optimization Algorithm Tuned Power System Stabilizer Air Quality Modelling for Smart Cities of India by Nature Inspired AI A Sustainable Approach and much more Other sections cover Genetic Algorithm for the Optimization of Infectiological Parameter Values under Different Nutritional Status A Novel Influencer Mutation Strategy for Nature inspired Optimization Algorithms to Solve Electricity Price Forecasting Problem Recent Trends in Human and Bio Inspired Computing Use Case Study from Retail Perspective Domain Knowledge Enriched Summarization of Legal Judgment Documents via Grey Wolf Optimization and a host of other topics Includes algorithm specific studies that cover basic introduction and analysis of key components of algorithms such as convergence solution accuracy computational costs tuning and control of parameters Comprises some of the major applications of different domains Presents application specific studies incorporating ways of designing objective functions solution representation and constraint handling

Convex Optimization—Theory, Algorithms and Applications Balendu Bhooshan Upadhyay, Shashi Kant Mishra, Pierre Maréchal, 2025-04-25 This volume includes chapters on topics presented at the conference on Recent Trends in Convex Optimization Theory Algorithms and Applications RTCOTAA 2020 held at the Department of Mathematics Indian Institute of Technology Patna Bihar India from 29-31 October 2020 It discusses a comprehensive exploration of the realm of optimization encompassing both the theoretical underpinnings and the multifaceted real life implementations of the optimization theory It meticulously features essential optimization concepts such as convex analysis generalized convexity monotonicity etc elucidating their theoretical advancements and significance in the optimization sphere Multiobjective optimization is a pivotal topic which addresses the inherent difficulties faced in conflicting objectives The book delves into various theoretical concepts and covers some practical algorithmic approaches to solve multiobjective optimization such as the line search and the enhanced non monotone quasi Newton algorithms It also deliberates on several other significant topics in optimization such as the perturbation approach for vector optimization and

solution methods for set valued optimization Nonsmooth optimization is extensively covered with in depth discussions on various well known tools of nonsmooth analysis such as convexifiers limiting subdifferentials tangential subdifferentials quasi differentials etc Notable optimization algorithms such as the interior point algorithm and Lemke's algorithm are dissected in detail offering insights into their applicability and effectiveness The book explores modern applications of optimization theory for instance optimized image encryption resource allocation target tracking problems deep learning entropy optimization etc Ranging from gradient based optimization algorithms to metaheuristic approaches such as particle swarm optimization the book navigates through the intersection of optimization theory and deep learning thereby unravelling new research perspectives in artificial intelligence machine learning and other fields of modern science Designed primarily for graduate students and researchers across a variety of disciplines such as mathematics operations research electrical and electronics engineering computer science robotics deep learning image processing and artificial intelligence this book serves as a comprehensive resource for someone interested in exploring the multifaceted domain of mathematical optimization and its myriad applications

Engineering Applications of AI and Swarm Intelligence Xin-She Yang, 2024-09-25 The book is focused on latest developments and findings on engineering applications of AI and swarm intelligence It provides comprehensive reviews and surveys on implementations and coding aspects of case studies and applications where appropriate The book is useful for scholars lecturers and practitioners from academia and industrial applications The readership of this book also includes Ph D students and researchers with a wide experience in the subject areas

Shaping the Wolf Within Your Dog Nathan B. Childs, 2004 Shaping the Wolf Within Your Dog is a comparison study of wolf and dog behavior It is also a comprehensive guide for living in harmony with dogs We know dogs are genetically related to the wolf and both exhibit identical instincts behaviors temperaments and dispositions and both abide to the law of nature that contends for any animal grouping to survive there must be social order and communication between its members Knowing this we should learn all we can about wolf behavior and incorporate that knowledge with our dogs By learning how pack animals establish social order and communicate with one another we can use this information to shape our dogs natural instincts without having to use food bribes or violence When we communicate in our dogs language we will be able to communicate our leadership The outcome will be predictable for we will be using the same methods of an alpha wolf when he establishes and maintains social order with a pack of wolves We will be shaping the same wolf instincts that are intact and engaged in each of our dogs Shaping the Wolf Within Your Dog illuminates The natural behavior of canines The language of canines How alphas lead their packs How alphas discipline and show affection The hierarchy of the wolf social order The natural friendliness loyalty and devotion of pack members How to pick the best pup from a litter How to establish social order with pups Basic obedience and off lead obedience Family protection training
