

Figure 1. A large, dark, textured object, possibly a piece of machinery or a large animal, lying on a light-colored, sandy or gravelly surface. The object has a prominent, curved, and somewhat irregular shape, with a large, dark, circular feature on its side. The background is a light, textured surface, possibly sand or gravel, and the overall image has a grainy, high-contrast appearance.

**Alpines and bog-plants** ,1976      *Alpines and Bog-plants* Reginald Farrer,1976      [Alpines and Bog-Plants](#) Reginald Farrer,2015-06-26 Excerpt from *Alpines and Bog Plants* I will not apologise this time for inviting enthusiasts to accompany me round my little territories for so large a company was kindly enough to take pleasure in My Rock Garden that now I am sure that those who enjoyed the earlier book will be pleased to find in this volume all the treasured rarities and delights which pressure of space forbade me to include in its predecessor or rather forced me with bitter lamentations to excise from its mutilated pages With all the more joy then do I offer this timely reparation no less to my friends who read than to my friends who are written of to the countless omitted beauties of my garden whom I had seemed to pass over in an ungrateful silence About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works      [Alpines and Bog-plants](#) Reginald Farrer,1908      **Alpines and Bog-Plants - Scholar's Choice Edition** Reginald Farrer,2015-02-20 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant      [Alpines and Bog-Plants ... With Illustrations](#) Reginald John FARRER,1908      *Alpine Plants* David Wooster,1874      *Alpine Flowers for English Gardens. With ... Illustrations* William Robinson (F.L.S.),1875      **Ecology of the Northern Lowland Bogs and Conifer Forests** James A. Larsen,2013-10-22 *Ecology of the Northern Lowland Bogs and Conifer Forests* is a book on the ecology of bogs and conifer swamps and to some extent the marshlands The chapters that follow are for the most part a review of what is known about the northern bogs and lowland forests written in the terminology of science in the hope as well as the expectation that such knowledge will be of value to those who appreciate the beauty of bogs and marshlands to ecologists and other biological scientists naturalists wildlife conservationists hunters

trappers construction engineers as well as to others whose vocations or avocations take them afield The discussion is devoted at least primarily to the ecology of one kind of wetland the lowland bogs and conifer forests and treats only in passing the marshlands and other kinds of vegetational communities that are also classified as wetlands Of particular concern are the lowland peat bogs and forests especially those that have developed to a point where their identity is indisputable for the simple reason that no other review of accumulated knowledge on these vegetational communities is presently available
