

FIGURE C-7 Hornet/WAM.

submunition or sublet with an infrared sensor is launched over the target and fires an explosively formed projectile down into the engine compartment. The Hornet/WAMs has an antihandling feature that causes the mine to detonate when disturbed. The Hornet/WAMS is designed to operate for 30 days after emplacement and to then self-destruct. The sublet is similar to the sublets in the Air Force Sensor-Fuzed Weapon. Original plans called for the Hornet/WAM to be dispensed from a Volcano launcher or a deep-attack asset, such as the Multiple-Launch Rocket System (MLRS) or the Tactical Missile System (TACMS), in addition to hand emplacement. However, subsequent evolutions of requirements

and the exigencies of the development program have precluded these options. Therefore, for the foreseeable future, Hornet/WAM will be hand emplaced, which sharply limits its utility.

Remotely Delivered (Scatterable) Mines

The Remote Antiarmor Mine System (RAAMS) (Figure C-8) consists of a 155-mm howitzer projectile containing nine AT mines. RAAMS is usually used with the ADAM, but can be used alone. Each mine in the projectile is a right-circular cylinder, 11.25 cm in diameter and 7.5 cm high, weighing 1.8 kg and containing about 0.78 kg of pressed explosive in the main charge. RAAMS have factory-set self-destruct times of either 4 or 48 hours. About 20 percent have an antihandling feature that causes them to explode when tilted at an angle of 17 degrees or more. RAAMS are designed to destroy mounted targets by perforating the underside of the vehicle. The mines have magnetic-influence fuzes designed to stop mounted vehicles when they are detonated, as intended, between the tracks; if they are detonated directly under a track, they may not stop the vehicle.

The Ground-Emplaced Mine-Scattering System (GEMSS/Flipper) was the first scatterable mine system fielded by the Army (RAAMS/ADAM was the second). Although GEMSS (Figure C-9) is now obsolete, the mines are still in the U.S. inventory. The GEMSS dispenser is a large trailer that can be towed by a variety of wheeled and tracked vehicles. A relatively large tactical minefield can be laid in areas controlled by friendly forces. The dispenser holds 800 mines and can lay mines in 26, 34, or 60-meter wide strips in five different densities. The mines come in sleeves of five mines each. The operator sets self-destruct times at either 5 or 15 days. Because the system is unwieldy to tow and operators were vulnerable to small arms fire, the utility of the system was limited. Flipper is a relatively small,

McDonald, Kenneth R. Rutherford**

Alternative Technologies To Replace Antipersonnel Landmines:

Alternative Technologies to Replace Antipersonnel Landmines National Research Council, Division on Engineering and Physical Sciences, Office of International Affairs, Commission on Engineering and Technical Systems, Committee on Alternative Technologies to Replace Antipersonnel Landmines, 2001-04-21 This book examines potential technologies for replacing antipersonnel landmines by 2006 the U S target date for signing an international treaty banning these weapons Alternative Technologies to Replace Antipersonnel Landmines emphasizes the role that technology can play to allow certain weapons to be used more selectively reducing the danger to uninvolved civilians while improving the effectiveness of the U S military Landmines are an important weapon in the U S military s arsenal but the persistent variety can cause unintended casualties to both civilians and friendly forces New technologies could replace some but not all of the U S military s antipersonnel landmines by 2006 In the period following 2006 emerging technologies might eliminate the landmine totally while retaining the necessary functionalities that today s mines provide to the military Alternative Technologies to Replace Antipersonnel Landmines National Research Council (États-Unis). Committee on Alternative Technologies to Replace Antipersonnel Landmines, 2001 **Alternative Technologies to Replace Antipersonnel Landmines** , 2001

Landmine Monitor Report 2001 Human Rights Watch (Organization), 2001 **Anti-Personnel Mines under Humanitarian Law : A View from the Vanishing Point** Stuart Maslen, 2021-10-25 Anti Personnel Mines under Humanitarian Law A View From the Vanishing Point considers in depth the various customary and conventional legal regimes applicable to the use of anti personnel mines All involved with the global effort to control and eliminate anti personnel mines as well as the policy makers who are concerned about the devastation resulting from the widespread deployment of these arbitrary weapons need to familiarize themselves with the information presented in this timely volume Published under the Transnational Publishers imprint Landmines and Human Security Richard A. Matthew, Bryan McDonald, Kenneth R. Rutherford, 2012-02-01 An impressive array of activists scholars government officials journalists and landmine victims themselves are gathered here to tell the dramatic and inspiring story of the International Campaign to Ban Landmines ICBL Organized in the early 1990s the ICBL is a network of more than one thousand nongovernmental organizations worldwide working for a global ban on landmines It was an important force behind the treaty to ban antipersonnel landmines that was signed in Ottawa in 1997 and which led to its being awarded the 1997 Nobel Peace Prize along with its coordinator **Military Law Review** , Norms Without the Great Powers Adam Bower, 2017 This book explores the nature of power in world politics and the particular role that law plays in defining the meaning and deployment of power in the international system *Negotiating Minefields* Leon V. Sigal, 2013-05-13 Against all odds the International Campaign to Ban Landmines helped to enact a global treaty banning antipersonnel mines in 1997 For that achievement it was awarded the Nobel Peace Prize In this volume Leon Sigal shows how a handful of NGOs with almost no mass base got

more than 100 countries to outlaw a weapon that their armies had long used. It is a story of intrigue and misperception of clashing norms and interests of contentious bureaucratic and domestic politics. It is also a story of effective leadership of sustained commitment to a cause of alliances between campaigners and government officials of a US senator who championed the ban and of the skilful use of the news media. Despite this monumental effort the campaign failed to get the United States to sign the treaty. Drawing on extensive internal documents and interviews with US officials and ban campaigners Sigal tells the story of the in fighting inside the Clinton administration in the Pentagon and within the ban campaign itself that led to this major setback for an otherwise unprecedented successful global effort. Negotiating Minefields will be of interest to students and scholars of military and strategic studies and politics and international relations.

Norm Dynamics in Multilateral Arms Control Harald Müller, Carmen Wunderlich, 2013-04-01 This volume comprehensively covers a range of issues related to dynamic norm change in the current major international arms control regimes related to nuclear biological and chemical weapons small arms and light weapons cluster munitions and antipersonnel mines. Arms control policies of all of the key established and rising state actors are considered as well as those of nonaligned countries nongovernmental organizations and international governing bodies. Recent studies on multilateral arms control tend to focus mostly on structure by which opportunities and constraints for action are created. This volume pays equal attention to agency through which opportunities and constraints to produce change or maintain the status quo are handled. In addition and in greater depth than in recent studies the volume acknowledges the force of moral and ethical impulses alongside such factors as political legal and technological change in the evolution of arms control norms. The volume begins with a look at the structure of regimes at the conflicts residing in these structures and at the dynamic processes in which these conflicts are worked out. The impact of extrinsic factors on norm dynamics is considered next including technological change and shifts in attitudes and power structures. Essays on the role of agency in driving norm change conclude the volume with a particular focus on norm entrepreneurship and the importance of acknowledging the competing justice claims surrounding norm change efforts. Landmine Monitor Report 2001 Human Rights Watch (Organization), 2001

Landmine Monitor Report 2000, 2000 East Timor Taiwan

Avoiding Technology Surprise for Tomorrow's Warfighter National Research Council, Division on Engineering and Physical Sciences, Committee for the Symposium on Avoiding Technology Surprise for Tomorrow's Warfighter—2010, 2010-12-30 The Symposium on Avoiding Technology Surprise for Tomorrow's Warfighter is a forum for consumers and producers of scientific and technical intelligence to exchange perspectives on the potential sources of emerging or disruptive technologies and behaviors with the goal of improving the Department of Defense's technological

warning capability This volume summarizes the key themes identified in the second and most recent symposium a two day event held in Suffolk Virginia on April 28 and 29 2010 The symposium combined presentations highlighting cutting edge technology topics with facilitated discourse among all participants Three categories of surprise were identified breakthroughs in product and process technology new uses of existing technology and the unexpectedly rapid progression of a technology to operational use The incorporation of an adversary s own culture history beliefs and value systems into analyses also emerged in discussions as an important factor in reducing surprise *Naval Mine Warfare* National Research Council, Division on Engineering and Physical Sciences, Naval Studies Board, Committee for Mine Warfare Assessment, 2001-09-19 Sea mines have been important in naval warfare throughout history and continue to be so today They have caused major damage to naval forces slowed or stopped naval actions and commercial shipping and forced the alteration of strategic and tactical plans The threat posed by sea mines continues and is increasing in today s world of inexpensive advanced electronics nanotechnology and multiple potential enemies some of which are difficult to identify This report assesses the Department of the Navy s capabilities for conducting naval mining and countermining sea operations

Big Data National Research Council, Division on Engineering and Physical Sciences, Committee for Science and Technology Challenges to U.S. National Security Interests, 2012-12-07 In 2012 the Defense Intelligence Agency DIA approached the National Research Council s TIGER standing committee and asked it to develop a list of workshop topics to explore the impact of emerging science and technology From the list of topics given to DIA three were chosen to be developed by the Committee for Science and Technology Challenges to U S National Security Interests The first in a series of three workshops was held on April 23 24 2012 This report summarizes that first workshop which explored the phenomenon known as big data The objective for the first workshop is given in the statement of task which explains that that workshop will review emerging capabilities in large computational data to include speed data fusion use and commodification of data used in decision making The workshop will also review the subsequent increase in vulnerabilities over the capabilities gained and the significance to national security The committee devised an agenda that helped the committee sponsors and workshop attendees probe issues of national security related to so called big data as well as gain understanding of potential related vulnerabilities The workshop was used to gather data that is described in this report which presents views expressed by individual workshop participants **Big Data A Workshop Report** is the first in a series of three workshops held in early 2012 to further the ongoing engagement among the National Research Council s NRC s Technology Insight Gauge Evaluate and Review TIGER Standing Committee the scientific and technical intelligence S TI community and the consumers of S TI products **Summary of a Workshop on the Future of Antennas** Division on Engineering and Physical Sciences, National Research Council, 2012-11-07 The Workshop on the Future of Antennas was the second of three workshops conducted by the National Research Council s Committee for Science and Technology Challenges to U S National Security

Interests The objectives of the workshop were to review trends in advanced antenna research and design review trends in commercials and military use of advanced antennas that enable improved communication data transfer soldier health monitoring and other overt and covert methods of standoff data collection The first day s sessions consisting of five presentations and discussions on antennas and wireless communications and control were open to committee members staff guests and members of the public The second day was a data gathering session addressing vulnerabilities indicators and observables presentations and discussions during this session included classified material and were not open to the public The committee s role was limited to planning and convening the workshop This report is organized by topic in the order of presentation and discussion at the workshop For Day 1 the topics were Future of Antennas Commercial State of the Art of Wireless Communications and Control Military State of the Art of Wireless Communications and Control and Future Trends in Antenna Design and Wireless Communications and Control For Day 2 the topics were Vulnerabilities of Ubiquitous Antennas and Indicators and Observables followed by a wrap up discussion Summary of a Workshop on the Future of Antennas describes what happened at the workshop

Commentaries on Arms Control Treaties: The convention on the prohibition of the use, stockpiling, production, and transfer of anti-personnel mines and on their destruction Stuart Maslen,2004 This commentary is a detailed guide to the interpretation of the 1997 Convention banning Anti Personnel Mines which was adopted after a worldwide campaign to ban landmines made famous by the late Princess Diana It includes a description of the development of anti personnel mines their military utility and the negotiating history of the Convention

Landmine Monitor Report 2003 ,2003 **Disarming States** Kenneth R. Rutherford,2010-12-07 This book provides a detailed history of the global movement to ban anti personnel landmines APL marking the first case of a successful worldwide civil society movement to end the use of an entire category of weapons In March 1995 Belgium became the first state to pass a domestic anti personnel landmine ban In December 1997 122 states joined Belgium in signing the comprehensive Mine Ban Treaty also known as the Ottawa Treaty The movement to ban landmines became a turning point in global politics that continues to influence policy and strategy decisions regarding weapon use today Disarming States The International Movement to Ban Landmines describes how non government organizations NGOs brought the landmine issue to international attention by forming the International Campaign to Ban Landmines ICBL The author presents new information gleaned from interviews and intensive research conducted around the world The critical role of mid size states such as Austria Canada and Switzerland recruited to back the movement s goals is examined The book concludes by examining how NGOs affect the international political agenda especially in seeking legal prohibitions on weapons and changes in states behaviors

Alternative Technologies To Replace Antipersonnel Landmines Introduction

Alternative Technologies To Replace Antipersonnel Landmines Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Alternative Technologies To Replace Antipersonnel Landmines Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Alternative Technologies To Replace Antipersonnel Landmines : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Alternative Technologies To Replace Antipersonnel Landmines : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Alternative Technologies To Replace Antipersonnel Landmines Offers a diverse range of free eBooks across various genres. Alternative Technologies To Replace Antipersonnel Landmines Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Alternative Technologies To Replace Antipersonnel Landmines Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Alternative Technologies To Replace Antipersonnel Landmines, especially related to Alternative Technologies To Replace Antipersonnel Landmines, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Alternative Technologies To Replace Antipersonnel Landmines, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Alternative Technologies To Replace Antipersonnel Landmines books or magazines might include. Look for these in online stores or libraries. Remember that while Alternative Technologies To Replace Antipersonnel Landmines, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow Alternative Technologies To Replace Antipersonnel Landmines eBooks for free, including popular titles. Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Alternative Technologies To Replace Antipersonnel Landmines full book , it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Alternative Technologies To Replace Antipersonnel Landmines eBooks, including some popular titles.

FAQs About Alternative Technologies To Replace Antipersonnel Landmines Books

What is a Alternative Technologies To Replace Antipersonnel Landmines PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Alternative Technologies To Replace Antipersonnel Landmines PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Alternative Technologies To Replace Antipersonnel Landmines PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Alternative Technologies To Replace Antipersonnel Landmines PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Alternative Technologies To Replace Antipersonnel Landmines PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
