Alternatives For Environmental Evaluation:

Alternatives for Environmental Valuation Michael Getzner, Clive Spash, Sigrid Stagl, 2004-10-21 Methods for raising awareness of how humans value the environment range from monetary valuation through to greater public participation in decisions. In this book a group of international experts explore innovative alternatives which are critically evaluated and compared. Lessons are drawn from both the successes and failures of different approaches. Case studies address a wide variety of cutting edge environmental problems from agro forestry and wetlands to climate change biodiversity and genetically modified organisms.
