God behind Bars: An Empirical Approach to Prison Ministry in the United States and Germany Daniel B. Lampe, This first empirical study on differences between prison ministries in the US and Germany enables a dialogue between chaplains of both countries What

can they learn from each other What do they have in common that thus has been transculturally tested The divergent theological philosophical backgrounds of the two criminal justice systems are presented along with their different accentuations of retributing punishment and rehabilitating restoration Religious extremism of inmates and switching of religious orientation in prisons are discussed the roles of volunteers assessed and promising restoration methods presented such as the so called Circles or religion related rehabilitation programs which have been proven to reduce recidivism by changing inmates mindsets The book examines chaplains working styles in ten fields of activity as well as their theological and political leanings their job satisfaction and factors contributing to overload their time management and their dreams of what could be done better

Alternatives to Prisons Jennifer Skancke, 2005 Authors offer opinions on whether or not incarceration reduces crime the use of family based therapies as alternatives to juvenile incarceration defense based sentencing and more

Foucault, Crime and Power Christian Borch, 2014-11-13 This book presents a Foucauldian problematisation analysis of crime with a particular focus on the twentieth century It considers how crime has been conceived as problem and by scrutinising the responses that have been adapted to deal with crime demonstrates how a range of power modalities have evolved throughout the twentieth century Christian Borch shows how the tendency of criminologists to focus on either disciplinary power or governmentality has neglected the broader complex of Foucault's concerns ignoring its historical underpinnings whilst for the most part limiting studies to only very recent developments without giving sufficient attention to their historical backdrop The book uses developments in Denmark developments that can be readily identified in most other western countries as a paradigmatic case for understanding how crime has been problematised in the West Thus Foucault Crime and Power Problematisations of Crime in the Twentieth Century demonstrates that a Foucauldian approach to crime holds greater analytical potentials for criminological research than have so far been recognized
