A Flying Life: An Enthusiast's Photographic Record of British Aviation in the 1930s Richard Riding, 2014-03-27 A Flying Life An Enthusiast's Photographic Record of British Aviation in the 1930s consists of photographs that were taken by E J Riding the author's father who spent his working life in the aviation industry He was apprenticed to A V Roe Company and employed as an aircraft engineer up to the war During the war Riding became an AID inspector and was seconded to Fairey Aviation London Aircraft Production and the de Havilland Aircraft Company latterly signing out Halifax bombers and Mosquitoes as airworthy and ready for test flying Sadly Riding was killed in a flying accident in 1950 During his short life he gained a lasting reputation as an engineer professional photographer draughtsman and aero modeller Riding began taking photographs of aircraft in 1931 aged fifteen Fortunately he kept copious notes recording the locations and dates of when and where aircraft were photographed More importantly he noted aircraft colour schemes details rarely recorded by the press at the time The aircraft types photographed by Riding ranged from the Tiger Moth RAF fighters ultra lights to airliners the whole giving a good cross section of flying in Britain up to the outbreak of the Second World War The book's photographs are of excellent quality and do not all consist of sterile bog standard side views Many depict aircraft being stripped for maintenance and servicing others show aircraft dumped or after having crashed Although approached in a generally light hearted manner the book features in depth and informative captions *The Year-book of the Scientific and Learned Societies of Great Britain and Ireland* , 1896 *Liverpool and Manchester Photographic Journal* William Crookes, T.A.
