Kneale,2005-12-23 Science fiction one of the most popular literary cinematic and televisual genres has received increasing academic attention in recent years For many theorists science fiction opens up a space in which the here and now can be made strange or remade where virtual reality and cyborg are no longer gimmicks or predictions but new spaces and subjects Lost in space brings together an international collection of authors to explore the diverse geographies of spaceexploring imagination nature scale geopolitics modernity time identity the body power relations and the representation of space The essays explore the writings of a broad selection of writers including J G Ballard Frank Herbert Marge Piercy Kim Stanley Robinson Mary Shelley and Neal Stephenson and films from Bladerunner to Dark City The Fly The Invisible Man and Metropolis *Galileo's Children* Gardner Dozois,2014-09-30 Thirteen tales dealing with the struggle of scientists toward truth in spite of opposition from religious and political forces arrayed against them Authors include George R R Martin Arthur C Clarke Robert Silverberg Ursula K Le Guin Keith Roberts Edgar Pangborn Chris Lawson Brendan DuBois James Alan Gardner Paul Park James Tiptree Jr Mike Resnick Greg Egan At the publisher s request this title is sold without DRM Digital Rights Management **Property Outlaws** Eduardo M. Penalver,Sonia Katyal,2010-02-16 Property Outlaws puts forth the intriguingly counterintuitive proposition that in the case of both tangible and intellectual property law disobedience can often lead to an improvement in legal regulation The authors argue that in property law there is a tension between the competing demands of stability and dynamism but its tendency is to become static and fall out of step with the needs of society The authors employ wide ranging examples of the behaviors of property outlaws the trespasser squatter pirate or file sharer to show how specific behaviors have induced legal innovation They also delineate the similarities between the actions of property outlaws in the spheres of tangible and intellectual property An important conclusion of the book is that a dynamic between the activities of property outlaws and legal innovation should be cultivated in order to maintain this avenue of legal reform *The World Hitler Never Made* Gavriel D.
