Althusser The Detour Of Theory:

Althusser Gregory Elliott, 2006 An expanded and updated version of the fullest account in English of the philosophico political career of Louis Althusser and the fate of his controversial reconstruction of Marxism containing a substantial new postscript and a comprehensive bibliography **Louis Althusser and the Traditions of French Marxism** William S. Lewis, 2005-01-01 In a careful exposition of French Marxism William Lewis places Althusser and his thought alongside the pre and post war French communist intellectual climate the result is an excellent and unique work Part theoretical treatise on some of Althusser's more complicated and less explored ideas part intellectual history Louis Althusser and the Traditions of French Marxism is in total an important text for philosophy French and francophone studies political thought cultural studies marxist thought and several other disciplines interested in the intellectual life and times of the twentieth century

Concept and Form, Volumes 1 and 2 Peter Hallward, Knox Peden, 2014-01-28 Concept and Form is a two volume monument to the work of the philosophy journal the Cahiers pour l'Analyse 1966-69 the most ambitious and radical collective project to emerge from French structuralism Inspired by their teachers Louis Althusser and Jacques Lacan the editors of the Cahiers sought to sever philosophy from the interpretation of given meanings or experiences focusing instead on the mechanisms that structure specific configurations of discourse from the psychological and ideological to the literary scientific and political Adequate analysis of the operations at work in these configurations they argue helps prepare the way for their revolutionary transformation The first volume comprises English translations of some of the most important theoretical texts published in the journal written by thinkers who would soon be counted among the most inventive and influential of their generation The second volume collects newly commissioned essays on the journal together with recent interviews with people who were either members of its editorial board or associated with its broader theoretical project Contributors include Alain Badiou, Étienne Balibar, Edward Baring, Jacques Bouveresse, Yves Duroux, Alain Grosrichard, Peter Hallward, Adrian Johnston, Serge Leclaire, Patrice Maniglier, Tracy McNulty, Jacques Alain Miller, Jean-Claude Milner, Knox Peden, Jacques Rancière, François Regnault and Slavoj Žižek *Althusser and Law* Laurent de Sutter, 2013-03-05 Althusser and Law is the first book specifically dedicated to the place of law in Louis Althusser's philosophy The growing importance of Althusser's philosophy in contemporary debates on the left has for practical and political as well theoretical reasons made a sustained consideration of his conception of law more necessary than ever As a form of what Althusser called Ideological State Apparatuses law is at the forefront of political struggles from the destruction of Labour Law to the exploitation of Patent Law from the privatisation of Public Law to the ongoing hegemony of Commercial Law and from the discourse on Human Rights to the practice of judicial courts Is Althusser still useful in helping us to understand these struggles Does he have something to teach us about how law is produced and how it is used and misused This collection demonstrates that Althusser's ideas about law are more important and more contemporary than ever Indeed the contributors to Althusser and Law argue that Althusser offers a new and

invaluable perspective on the place of law in contemporary life **C.L.R. James's Notes on Dialectics** John H. McClendon, 2005-01-01 John H McClendon III's CLR James's Notes on Dialectics Left Hegelianism or Marxism Leninism is the first ever book devoted exclusively to James's magnum opus Notes on Dialectics Hegel Marx Lenin The seed for this study was planted over thirty years ago when James handed the author his personal copy of Notes James's contribution to dialectical philosophy and his vast intellectual and scholarly output is rivalled only by the seemingly bottomless depths of McClendon's own analysis and erudition McClendon provides a thorough going critique of James's exploration into the dialectic of Hegel Marx and Lenin while challenging all the seminal texts on James's Notes A book of this magnitude is rare This is ever more the truth when it is focused on a giant like James who stands at the nexus of so many disciplines philosophy history sociology Caribbean studies cultural studies African and African American studies CLR James's Notes on Dialectics Left Hegelianism or Marxism Leninism is a must read for anyone concerned with how revolutionary theory is a guide to contemporary struggles **Revealing Male Bodies** Nancy Tuana, William Cowling, Maurice Hamington, Greg Johnson, 2002-05-06 Revealing Male Bodies is the first scholarly collection to directly confront male lived experience There has been an explosion of work in men's studies masculinity issues and male sexuality in addition to a growing literature exploring female embodiment Missing from the current literature however is a sustained analysis of the phenomenology of male gendered bodies Revealing Male Bodies addresses this omission by examining how male bodies are physically and experientially constituted by the economic theoretical and social practices in which men are immersed Contributors include Susan Bordo William Cowling Terry Goldie Maurice Hamington Don Ihde Greg Johnson Björn Krondorfer Alphonso Lingis Patrick McGann Paul McIlvenny Terrance MacMullan Jim Perkinson Steven P Schacht Richard Schmitt Nancy Tuana Craig L Wilkins and John Zuern Lacan Slavoj Žižek, 2020-05-05 Jacques Lacan is the foremost psychoanalytic theorist after Freud Revolutionising the study of social relations his work has been a major influence on political theory philosophy literature and the arts but his thought has so far been studied without a serious investigation of its foundations Just what are the influences on his thinking so crucial to its proper understanding In Lacan The Silent Partners Slavoj Žižek the maverick theorist and pre eminent Lacan scholar has marshalled some of the greatest thinkers of our age in support of a dazzling re evaluation of Lacan's work Focussing on Lacan's silent partners those who are the hidden inspiration to Lacanian theory they discuss his work in relation to the Pre Socratics Diderot Hegel Nietzsche Schelling Hölderlin Wagner Turgenev Kafka Henry James and Artaud This major collection including three essays by Žižek marks a new era in the study of this unsettling thinker breathing new life into his classic work **Ernest Mandel** Jan Willem Stutje, 2020-05-05 Ernest Mandel 1923 1995 was one of the most prominent anti Stalinist Marxist intellectuals of his time A political theorist and economist his worldview was shaped by experiences in the Second World War as an underground political activist in Occupied Belgium and during his subsequent internment in a Nazi prison camp Mandel's faith in human nature and in the working classes survived Nazi oppression and

the murder of much of his family in the concentration camps He retained his connection to his Jewish roots throughout his life but believed that security and liberation for the Jewish people was best achieved through world revolution and universal emancipation rather than nationalism A brilliant orator in several languages Mandel was an indefatigable revolutionary militant and a key leader in the Fourth International and he had an enormous impact on the thought and practice of the 1968 generation His writings range from innovative economic and political theory to a study of the Second World War and have been published in over forty languages His last major work *Late Capitalism* had an influence that reached from the social sciences into the humanities Biographer Jan Willem Stutje the first writer with access to Mandel's archives has interviewed many of the leading figures in the story and unearthed a wealth of new material detailing Mandel's arrest by the Nazis and his role in Latin American guerrilla warfare He recounts Mandel's interactions with both scholars Sartre Ernst Bloch Perry Anderson and comrades in arms such as Che Guevara Rudi Dutschke and Tariq Ali The book also yields fascinating details of the man's sometimes tragic private life

Projecting Illusion Richard Allen, 1995 On cinema and illusion *Encyclopedia of Contemporary Literary Theory* Irene Rima Makaryk, 1993-01-01 The last half of the twentieth century has seen the emergence of literary theory as a new discipline As with any body of scholarship various schools of thought exist and sometimes conflict within it I R Makaryk has compiled a welcome guide to the field Accessible and jargon free the *Encyclopedia of Contemporary Literary Theory* provides lucid concise explanations of myriad approaches to literature that have arisen over the past forty years Some 170 scholars from around the world have contributed their expertise to this volume Their work is organized into three parts In Part I forty evaluative essays examine the historical and cultural context out of which new schools of and approaches to literature arose The essays also discuss the uses and limitations of the various schools and the key issues they address Part II focuses on individual theorists It provides a more detailed picture of the network of scholars not always easily pigeonholed into the categories of Part I This second section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical context Part III deals with the vocabulary of literary theory It identifies significant complex terms places them in context and explains their origins and use Accessibility is a key feature of the work By avoiding jargon providing mini bibliographies and cross referencing throughout Makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture

The Loving Subject Gerald A. Bond, 2016-11-11 Gerald Bond explores the rise of a new secular identity that took place in French elite culture at the turn of the twelfth century While the period is widely recognized as pivotal and much revisionary work has been done on it Bond notes that in order to see the changes in the conception of the private secular self the focus must be shifted away from epics and saints lives the traditional targets of literary inquiry to lyric letters and marginal texts and images Such texts and images can be found at regional courts reasonably independent of the weak and limited monarchy and at schools far removed from the traditional Christian

curriculum where a new and distinctly secular group contested inherited values of class gender and person and created distinct patterns and codes of dress behavior talk and pleasure Translating and using sources that for the most part have never been explored Bond examines the Bayeux Tapestry and such figures as Marbod of Rennes Baudri of Bourgueil William of Poitiers and Adela of Blois to frame a complex view of the contested reconception of the secular self and its value

Ideology Terry Eagleton,2024-05-14 Ideology has never before been so much in evidence as a fact and so little understood as a concept as it is today In this now classic work originally written for both students and for those already familiar with the debates around the concept the celebrated literary theorist Terry Eagleton unravels its many definitions exploring its tortuous history from the Enlightenment to the present A limpid account of the thought of key Marxist thinkers as well as that of philosophers from Schopenhauer and Nietzsche to Freud and the post structuralists and a political reformulation of a vital set of ideas Ideology An Introduction is an essential text by one of our most important contemporary critics

Marxism, Modernity and Postcolonial Studies Crystal Bartolovich,Neil Lazarus,2002-07-11 At a time when even much of the political left seems to believe that transnational capitalism is here to stay Marxism Modernity and Postcolonial Studies refuses to accept the inevitability of the so called New World Order By giving substantial attention to topics such as globalisation racism and modernity it provides a specifically Marxist intervention into postcolonial and cultural studies An international team of contributors locate a common ground of issues engaging Marxist and postcolonial critics alike Arguing that Marxism is not the inflexible monolithic irrelevance some critics assume it to be this collection aims to open avenues of debate especially on the crucial concept of modernity which have been closed off by the widespread neglect of Marxist analysis in postcolonial studies Politically focused at times polemical and always provocative this book is a major contribution to contemporary debates on literary theory cultural studies and the definition of postcolonial studies

Althusser the book tracks the subsequent elaboration of Rancière's highly original conception of equality This approach reveals that a grasp of his early archival and historiographical work is vital for a full understanding both of his later politics and his ongoing investigation of art and aesthetics Along the way this book explains and analyses key terms in Rancière's very distinctive philosophical lexicon including the police order disagreement political subjectivation literacy the part which has no part the regimes of art and the distribution of the sensory This book argues that Rancière's work sets a new standard in contestatory critique and concludes by reflecting on the philosophical and policy implications of his singular project

Deconstruction and the 'Unfinished Project of Modernity' Christopher Norris, 2020-11-25 Through a close engagement with some key thinkers Norris argues that deconstruction is part of the unfinished project of modernity a project whose interest and values it upholds by continuing to question them in a spirit of enlightened self critical inquiry
