Alvar Aalto Malcolm Quantrill, 1990-02-01 Alvar Aalto was remarkably inventive in architecture and industrial design Moreover his command of technology was integrated with a humanistic style of building and like Saarinen and Frank Lloyd Wright he sought an organic synthesis of his structures with their surroundings Aalto's success in approaching these ideals may account for the extraordinary spread of his influence on an international scale In this broad study of Aalto's work Malcolm Quantrill assesses its development in terms of two powerful sources the Finnish National Romantic movement and the Modern movement in architecture His critique of Aalto's most significant buildings and furniture designs is complemented by photographs of many stages of their creation from the spontaneity of initial sketches to the completed detail Professor Quantrill first met Alvar and Elissa Aalto at Muuratsalo in June 1953 and he has been studying and photographing Aalto's buildings ever since His book provides striking insights into the work of one of the greatest architects of the century

V 6 Inside front cover Alvar Aalto Eeva-Liisa Pelkonen, 2009 An intellectual biography that reconsiders the influence of Aalto's Finnish origins and explores geography as a dominant theme in the history of modern architecture Perhaps no other great modern architect has been linked to a native country as closely as Alvar Aalto 1898-1976 Critics have argued that the essence of Finland flows as if naturally into his quasi organic forms ranging from such buildings as the Baker House in Cambridge Massachusetts to iconic 20th century designs including his Savoy vase and bent plywood stacking stools What did Aalto himself say about the importance of nationalism and geography in his work and in architecture generally With an unprecedented focus on the architect's own writings library and critical reception Eeva Liisa Pelkonen proposes a dramatically different interpretation of Aalto's oeuvre revealing it as a deeply thoughtful response to his intellectual and cultural milieu especially to Finland's dynamic political circumstances following independence from Russia in 1917 Pelkonen also considers the geographic and geopolitical narratives found in his

writings These include ideas about national style and national cultural revival and about how architecture can foster cosmopolitanism internationalism and regionalism Expanding the canonical reading of Aalto this work promises to influence future inquiries on Aalto for generations to come *Alvar Aalto in the Finnish Context* Kirmo Mikkola, 2025-05-30 This book first published in Finnish in 1985 under the title *Aalto* is a critical introduction to Finnish architect Alvar Aalto 1898 1976 written by one of Aalto's Finnish architectural contemporaries Kirmo Mikkola 1934 1986 The book is divided into six sections dealing with different aspects of Aalto's architecture from his classical beginnings to urban planning as well as his various professional and intellectual associates Mikkola debunks the common opinion of a reticent Aalto to determine the roots of his thinking seeing him as a mediator of influences from a wide variety of sources The book was originally targeted at a Finnish audience and so its translation requires interpreters two architect scholars who knew Mikkola well Juhani Pallasmaa and Aino Niskanen The book also sheds light on a young generation of Finnish architects that distanced itself from Aalto as a role model pinpointed here by the inclusion of the essay *Snowballs* 1948 by Aulis Blomstedt Often quoted by Finnish architectural scholars the publication finally of an English translation of Mikkola's book will appeal to those international scholars and students who have been aware of the lack of critical perspectives from Aalto's Finnish architect contemporaries *Alvar Aalto* Patricia de Muga, Sandra Dachs, Laura García Hintze, 2007 Alvar Aalto 1898 1976 is the most prestigious Finnish architect of the last century and the father of Nordic Modernism He once said God created paper for the purpose of drawing architecture on it Everything else is at least for me an abuse of paper In the U S Aalto's critical reception began with his design for the Finnish Pavilion at the 1939 World Fair in New York Frank Lloyd Wright described it as a work of genius After World War II Aalto also designed MIT's student dormitory Prior to this the architect's Paimio Sanatorium 1929 and Viipuri Library 1935 both in Finland had already attracted international praise He was also an outstanding town planner painter and sculptor Aalto's Modernism entailed the use of natural materials warm colors and undulating lines and he is considered an important early exponent of Organic Design as a result Of his design work outside of architecture Aalto's vases lamps glassware and laminated bent plywood furniture pioneered and produced through the design company he co founded Artek are equally esteemed Iconic pieces include the Savoy Vase the Paimio Chair and the Beehive Lamp This monograph on Aalto's highly collectible furniture designs expands our understanding of the diverse abilities of this influential architect designer

The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him.
