And a Time to Die Sharon Kaufman, 2005-04-19 A reassuring and illuminating examination on our conflicting wishes about the end of life how the politics and routines of the American hospital have formed our understanding and experience of death and ultimately why what we consider a good death is so hard to attain In a penetrating and revelatory study medical anthropologist Dr Sharon Kaufman uses two years of intensive observations and interviews with scores of patients family members physicians nurses social workers and other staff at several community hospitals in California to explore the heart of a science driven yet fractured and often irrational world of health care delivery where empathetic yet frustrated hard working yet constrained professionals both respond to and create the anxieties and often inchoate expectations of patients and families who must make decisions they are ill prepared to make She sought out the critically ill the dying and their friends and relatives She followed patients from admission to death days weeks or sometimes months later through what is often for them and their families a Kafkaesque journey She asked hospital staff what they were doing and why and stood beside doctors and nurses observing their work cynicism compassion and frustration And she paid close attention to the most important player of all the hospital bureaucracy and how it impacts the manner and timing of patient death Her investigative research links together the emotional experiences of patients and families the dedicated work of hospital staff and the ramifications of institutional bureaucracy to show the invisible power of the hospital system itself its rules mandates and daily activity in organizing death and individual experience of it The book is the story of real patients and their families an account of what drives the American hospital today and a report on the complex sources and implications of doing something about death *Is There a Duty to Die?* John Hardwig, 2014-05-01 First published in 2000 Routledge is an imprint of Taylor Francis an informa company **Autobiography of a Repaired Physician** Prospero Shimshon Shimon, 2011-01-29 The Autobiography of a Repaired Physician Mental Health as Seen from Both Sides of the Desk is a trilogy Book I deals with my

life before during and after the emergence of an attack of bipolar disorder The shattering consequences of the disorder and the personal history that precede it are discussed in great clinical and personal detail My chief concern is that the reader comprehend how the past present and future come into play in understanding the outcome in the treatment of this destructive and deadly disease Book II concerns the social stigma associated with having a history of the disorder and the many pitfalls clinically psychologically and socially that exist for an individual such as myself who is charged with the professional responsibility of caring for people suffering from similar afflictions Book III is about my adventures in the real world as I have seen it It relates to the madness of our world in which the ever present and infuriating search for power prestige and possessions appear unfortunately to be the primary determinants of behavior in our society Many of my closest friends have tried to dissuade me from writing about this issue because they feared I would be exposing myself to further social stigma I feel strongly that those who have suffered from the destructive effects of the spectrum of bipolar disorder must know how treatment works and what pitfalls to avoid in treatment As a physician it is my duty to heal myself and with the help of some very talented colleagues I have been able to do just that My struggle continues and in that sense more books will be written I would like to especially acknowledge the help of my wife Barbara who has stuck with me through thick and thin and my children Miranda Alexander and Victoria who love each other and me

I believe it was the old Egyptians a very wise people probably indeed much wiser than we know for in the leisure of their ample centuries they had time to think out things who declared that each individual personality is made up of six or seven different elements although the Bible only allows us three namely body soul and spirit The body that the man or woman wore if I understand their theory aright which perhaps I an ignorant person do not was but a kind of sack or fleshly covering containing these different principles Or mayhap it did not contain them all but was simply a house as it were in which they lived from time to time and seldom all together although one or more of them was present continually as though to keep the place warmed and aired This is but a casual illustrative suggestion for what right have I Allan Quatermain out of my little reading and probably erroneous deductions to form any judgment as to the theories of the old Egyptians Still these as I understand them suffice to furnish me with the text that man is not one but many in which connection it may be remembered that often in Scripture he is spoken of as being the home of many demons seven I think Also to come to another far off example the Zulus talk of their witch doctors as being inhabited by a multitude of spirits Anyhow of one thing I am quite sure we are not always the same Different personalities actuate us at different times In one hour passion of this sort or the other is our lord in another we are reason itself In one hour we follow the basest appetites in another we hate them and the spirit arising through our mortal murk shines within or above us like a star In one hour our desire is to kill and spare not in another we are filled with the holiest compassion even towards an insect or a snake and are ready to forgive like a god Everything rules us in turn to such an extent indeed that sometimes one begins to wonder whether we really rule anything
