Roy, 2009-01-01 Canada's early participation in the Asia Pacific region was hindered by contradictory impulses For over half a century racist restrictions curtailed immigration from Japan even as Canadian entrepreneurs missionaries and diplomats manoeuvred for access to the Orient Since then Canada's relations with Japan have changed profoundly and the two countries political economic and diplomatic interests are now more closely aligned and wrapped up in a web of reinforcing cultural and social ties *Contradictory Impulses* is a comprehensive and richly documented study of the social political and economic interactions between Canada and Japan from the late nineteenth century until today The chapters written by leading scholars provide a portrait of a nation growing into its Pacific identity and also raise pointed questions about the future of Canada's relations with Japan and the vast Pacific region *Contradictory Impulses* challenges our historic understanding of Canada's place in the world This portrait of a nation growing into its Pacific identity raises pointed questions about the future of Canada's relations with Japan and the vast Pacific region It will appeal to scholars policymakers and others interested in Canada's relations with Japan and the Asia Pacific Rim **Chasing the Dragon in Shanghai** John D. Meehan, 2011-10-20 Canadians share a long history with China Canada is home to a large Chinese diaspora it appointed a trade commissioner to Shanghai over a century ago and it was one of the first Western nations to recognize the People's Republic of China This absorbing account of Canadian sojourners in Shanghai from the arrival of Lord Elgin in 1858 to the closing of the consulate general in 1952 gives a human face to that history Some Canadians came to save souls nourish bodies and educate minds others sought financial and political gain Their experiences which unfolded against a backdrop of civil war invasion and revolution in China and were coloured by Canada's

evolution from colony to nation reflected Canada's deepening relationship with China and the troubling asymmetries that underpinned it. Although Canadians like other foreigners had left Shanghai by the early 1950s their lives and activities foreshadowed more recent Canadian initiatives in that city and in China more generally. *The British National Bibliography* Arthur James Wells, 2003      **Canada and Asia** Godfrey R. Sources in British Political History, 1900-1951 C. Cook, P. Jones, J. Sinclair, Jeffrey Weeks, 2015-12-30 From 1970 to 1977 a major project to uncover source material for students of contemporary British history and politics was undertaken at the British Library of Political and Economic Science. Financed by the Social Science Research Council and under the direction of Dr Chris Cook this project has attempted a unique and systematic operation to locate and then to make readily available those archives that provide the indispensable source material for the contemporary historian. This volume the fifth in the series provides a guide to the papers of propagandists who were influential in British public life. Included in this volume are the papers of such persons as newspaper editors leading economists social reformers socialist thinkers trade unionists industrialists and a variety of theologians and philanthropists. In all this volume not only completes the findings of the project but opens up the archive sources of a hitherto neglected area of research into contemporary social and political history. **Cumulated Index to the Books**, 1999      **The European History Highway** Larry N. Gerston, 2007 Understanding federalism the form of political organization that unites separate polities within an overarching political system so that all maintain their political integrity is central to the study of democratic government in the United States. Yet many political scientists treat federalism as a set of abstract principles or a maze of budgetary transfers with little connection to real political life. This concise and engaging book boils the discussion down to its essence federalism is about power specifically the tug for power among and within the various levels of government.
