Stretching the Qing Bureaucracy in the 1826 Sea-Transport Experiment Jane Kate Leonard,2018-12-10 In a new study of the Qing government s 1826 experiment in sea transport of government grain in response to the collapse of the Grand Canal 1825 Jane Kate Leonard highlights how the Daoguang Emperor together with Yinghe his chief fiscal adviser and Qishan Governor General of Liangjiang devised and implemented this innovative plan by temporarily stretching the Qing bureaucracy to include local assistant officials and ad hoc bureaus ju and by recruiting zhaoshang private organizations such as merchant shippers dockside porters and lighterage fleets This is significant because it explains how the Qing leadership was able to respond successfully to crises and change without permanently expanding the reach and expense of the permanent bureaucracy **Study of Domestic Land and Water Transportation** United States. Rielly,2024-02-08

America s entrance into the wars in Vietnam came as a result of several factors Among them was the necessity of bolstering French influence in the area in the face of mounting communist expansion This expansion was intensified by the outbreak of the Korean War making it necessary for the United States to revamp its Southeast Asian policy During the French era control of Vietnam s rivers streams and canals became necessary This led various factions to develop specialized military units heavily dependent on new types of river craft that could traverse the myriad waterways in Vietnam The focal point of this study is a new assessment of the conduct of river warfare Drawing on little known French Vietnamese and American sources and materials it sheds light on an important aspect of the Vietnam War Chapters also detail numerous aspects of river warfare not generally covered in other books on the subject **Library of Congress Catalogs** Library of Congress,1982

Pennsylvania Railroad, Volume 1 Albert J. Churella, 2012-10-29 Do not think of the Pennsylvania Railroad as a business enterprise Forbes magazine informed its readers in May 1936 Think of it as a nation At the end of the nineteenth century the Pennsylvania Railroad was the largest privately owned business corporation in the world In 1914 the PRR employed more than two hundred thousand people more than double the number of soldiers in the United States Army As the self proclaimed Standard Railroad of the World this colossal corporate body underwrote American industrial expansion and shaped the economic political and social environment of the United States In turn the PRR was fundamentally shaped by the American landscape adapting to geography as well as shifts in competitive economics and public policy Albert J Churella s masterful account certain to become the authoritative history of the Pennsylvania Railroad illuminates broad themes in American history from the development of managerial practices and labor relations to the relationship between business and government to advances in technology and transportation Churella situates exhaustive archival research on the Pennsylvania Railroad within the social economic and technological changes of nineteenth and twentieth century America chronicling the epic history of the PRR intertwined with that of a developing nation This first volume opens with the development of the Main Line of Public Works devised by Pennsylvanians in the 1820s to compete with the Erie Canal Though a public rather than a private enterprise the Main Line foreshadowed the establishment of the Pennsylvania Railroad in 1846 Over the next decades as the nation weathered the Civil War industrial expansion and labor unrest the PRR expanded despite competition with rival railroads and disputes with such figures as Andrew Carnegie and John D Rockefeller The dawn of the twentieth century brought a measure of stability to the railroad industry enabling the creation of such architectural monuments as Pennsylvania Station in New York City The volume closes at the threshold of American involvement in World War I as the strategies that PRR executives had perfected in previous decades proved less effective at guiding the company through increasingly tumultuous economic and political waters
