Management and Therapy Amal Hamza, Neveen Salem, 2018-06-20 There are many different types of cancer. Some are very common, others are rare. Having some similar features, each cancer has its own characteristics and symptoms which vary according to the type of cancer and where it is in the body. The treatment selected may be influenced by the patient's age, concurrent health problems, life expectancy, characteristics of the individual's cancer, the patient's goals of treatment, and the bias of the treating physician. In preparing this book, we have considered and reflected on the concept of the recent advances in cancer management and therapy as well as molecular applications in cancer therapy. The readers can find detailed information about the treatment and management of specific cancers in these book chapters.

Multidisciplinary Approach to Surgical Oncology Patients M. D. Ray, 2021-03-02 The book covers the basic concept of surgical and oncosurgical disciplines as a whole as well as the management of surgical patients from pre-op preparation to discharge, i.e., all the basics needed for a successful outcome for oncosurgical patients. It covers surgical safety, the consumer protection act, medico-legal aspects, the importance of documentation, research and publications, and managing complications. The respective chapters cover pre-operative, intra-operative, and ICU management of cancer patients based on a multi-disciplinary approach. Additionally, they highlight recent advances in surgical oncology and so-called incurable cancers. Edited and written by an interdisciplinary team of experts in oncology and palliative care, the book is intended as a clinically useful guide to the overlapping topics of pain management in cancer patients and the treatment of cancer in patients with multiple co-morbidities like cardiovascular, respiratory disease, hypertension, and diabetes mellitus. Given its scope, it will benefit multi-disciplinary oncologists, pain, palliative, and intensive care experts as well as students of surgical disciplines from MBBS, MS, and DNB to MRCS, MCh, and FRCS.
