The teaching strategies and techniques are based on a highly practical principle for efficiently and successfully maximizing learners language gains. Part I provides the background for the text and a sample of course curriculum guidelines to meet the learning needs of second language teachers of writing and second language writers. Parts II and III include the key elements of classroom teaching: what to teach and why possible ways to teach the material in the classroom common errors found in student prose and ways to teach students to avoid them teaching activities and suggestions and questions for discussion in a teacher training course. Appendices to chapters provide supplementary word and phrase lists collocations sentence chunks and diagrams that teachers can use as needed.
