Campus Facts Keeping Pace With New Institutional Needs And Challenges:

The Handbook of Institutional Research Richard D. Howard, Gerald W. McLaughlin, William E. Knight, 2012-06-28

Institutional research is more relevant today than ever before as growing pressures for improved student learning and increased institutional accountability motivate higher education to effectively use ever expanding data and information resources. As the most current and comprehensive volume on the topic, the Handbook describes the fundamental knowledge, techniques, and strategies that define institutional research. The book contains an overview of the profession and its history, examines how institutional research supports executive and academic leadership and governance, and discusses the varied ways data from federal, state, and campus sources are used by research professionals. With contributions from leading experts in the field, this important resource reviews the analytic tools, techniques, and methodologies used by institutional researchers in their professional practice and covers a wide range of topics such as conducting institutional research, statistical applications, comparative analyses, quality control systems, measuring student, faculty, and staff opinions, and management activities designed to improve organizational effectiveness. *Current Index to Journals in Education*, 2001

New Directions for Institutional Research, 2001 **Dimensions of Managing Academic Affairs in the Community College** Douglas Robillard, 2000-05-04 The contributors to this issue present a variety of strategies to help chief academic officers not only survive but excel while juggling their many and varied responsibilities. They offer seasoned advice on fulfilling the CAO's academic duties and explore the CAO's faculty and administrative roles, discussing how to balance the sometimes conflicting roles of faculty mentor, advocate, and disciplinarian, and the importance of establishing a synergistic working relationship with the president. They show how to resolve typical crises that arise in the course of the CAO's daily duties and demonstrate how conflict can actually be an opportunity to effect constructive change. The issue also covers the important areas of resource and data management, providing an introduction to resource management concepts and terminology and presenting a case study of an award-winning data-driven decision-making process. This is the 109th issue of the Jossey-Bass series *New Directions for Community Colleges*. **Measuring What Matters: Competency-Based Learning Models in Higher Education** Richard Voorhees, 2001-07-30

Intended as a toolkit for academic administrators, faculty, and researchers to deal effectively with the rapid emergence of competency-based learning models across higher education, this volume provides practical advice and proven techniques for implementing and evaluating these models. Drawing from a recent National Postsecondary Education Cooperative project that examined data and policy implications across public and private institutions as well as an industrial setting, readers will find an inventory of strong practices to utilize in evaluating competency-based initiatives. Issues discussed include practical concerns of measuring and reporting competency, the critical connections between the skills employers seek and student preparation for them, the connections between distance education, accreditation, and competencies, and the difficult procedure of setting appropriate passing standards for assessments. With a

bibliography on competency literature and a framework for creating competency models this volume is an invaluable tool to researchers and practitioners alike This is the 110th issue of the Jossey Bass series New Directions for Institutional Research

Leadership through Collaboration Ann S. Ferren, Wilbur W. Stanton, 2004-02-28 This book is organized around 11 topics including the skills and personal qualities needed to provide effective academic leadership strengthening the infrastructure for academic affairs through strategic planning facilities planning and technology integration the importance of developing new resources and linking them to academic priorities academic entrepreneurship assessing academic quality and improving programs and services continuous improvement the central importance of investing in the faculty and improving academic decisions The chief academic officer must be the voice for the campus's academic purposes and a source of energy in supporting the activities of others Collaboration with colleagues across the institution is key to Ferren and Stanton's approach Their experiences in administrative roles ranging from department chair to provost have provided them with the ability to conduct and utilize many studies including budget adequacy modeling and salary equity studies These are issues for which the authors have been responsible for implementation and decision making allowing them to understand that collaborative processes and partnerships such as chairs with deans deans with vice presidents faculty with administrators or the CAO with members of the president's cabinet are as important as informed decision making Because CAOs are less likely to read what business officers and vice presidents for administration read this book attempts to integrate differing institutional perspectives and explain processes and criteria CAOs can tailor their decisions to institution circumstances and solve problems with greater insight Advancing Sustainability in Higher Education Larry H.

Litten, Dawn Geronimo Terkla, 2007-09-17 This volume details sustainability issues in institutional research IR and covers the sustainability challenges we face as institutions individuals and the particular need for educational institutions to embrace and address these issues and why IR needs to be involved in these efforts the perspectives of a corporate executive on the practical benefits of pursuing a sustainability program and the importance of data in doing so sustainability from a university perspective specific resources that IR can use in collecting data relevant to sustainable prosperity **The National**
