Canar A Year In The Highlands Of Ecuador:

Cañar Judy Blankenship, 2005-04-01 In this book Blankenship combines her sensitively observed photographs with an inviting text to tell the story of the most recent year she and her husband Michael spent living and working among the people of Canar Jacket **Cañar** Judy Blankenship, 2010-01-01 Once isolated from the modern world in the heights of the Andean

mountains the indigenous communities of Ecuador now send migrants to New York City as readily as they celebrate festivals whose roots reach back to the pre Columbian past Fascinated by this blending of old and new and eager to make a record of traditional customs and rituals before they disappear entirely photographer journalist Judy Blankenship spent several years in Ca ar Ecuador photographing the local people in their daily lives and conducting photography workshops to enable them to preserve their own visions of their culture In this engaging book Blankenship combines her sensitively observed photographs with an inviting text to tell the story of the most recent year she and her husband Michael spent living and working among the people of Ca ar Very much a personal account of a community undergoing change Ca ar documents such activities as plantings and harvests religious processions a traditional wedding healing ceremonies a death and funeral and a home birth with a native midwife Along the way Blankenship describes how she and Michael went from being outsiders only warily accepted in the community to becoming neighbors and even godparents to some of the local children She also explains how outside forces from Ecuador s failing economy to globalization are disrupting the traditional lifeways of the Ca ari as economic migration virtually empties highland communities of young people Blankenship s words and photographs create a moving intimate portrait of a people trying to balance the demands of the twenty first century with the traditions that have formed their identity for centuries **Our House in the Clouds** Judy Blankenship, 2013-04-04 While many baby boomers

are downsizing to a simpler retirement lifestyle photographer and writer Judy Blankenship and her husband Michael Jenkins took a more challenging leap in deciding to build a house on the side of a mountain in southern Ecuador They now live half the year in Ca ar an indigenous community they came to know in the early nineties when Blankenship taught photography there They are the only extranjeros outsiders in this homely chilly town at 10 100 feet where every afternoon a spectacular mass of clouds rolls up from the river valley below and envelopes the town In this absorbing memoir Blankenship tells the interwoven stories of building their house in the clouds and strengthening their ties to the community Although she and Michael had spent considerable time in Ca ar before deciding to move there they still had much to learn about local customs as they navigated the process of building a house with traditional materials using a local architect and craftspeople Likewise fulfilling their obligations as neighbors in a community based on reciprocity presented its own challenges and rewards Blankenship writes vividly of the rituals of births baptisms marriages festival days and deaths that counterpoint her and Michael s solitary pursuits of reading writing listening to opera playing chess and cooking Their story will appeal to anyone contemplating a second life as well as those seeking a deeper understanding of daily life in the developing world Ecuador

Meisch,2012-10-03 The traditional costumes worn by people in the Andes women s woolen skirts men s ponchos woven belts and white felt hats instantly identify them as natives of the region and serve as revealing markers of ethnicity social class gender age and so on Because costume expresses so much scholars study it to learn how the indigenous people of the Andes have identified themselves over time as well as how others have identified and influenced them Costume and History in Highland Ecuador assembles for the first time for any Andean country the evidence for indigenous costume from the entire chronological range of prehistory and history The contributors glean a remarkable amount of information from pre Hispanic ceramics and textile tools archaeological textiles from the Inca empire in Peru written accounts from the colonial period nineteenth century European style pictorial representations and twentieth century textiles in museum collections Their findings reveal that several garments introduced by the Incas including men s tunics and women s wrapped dresses shawls and belts had a remarkable longevity They also demonstrate that the hybrid poncho from Chile and the rebozo from Mexico diffused in South America during the colonial period and that the development of the rebozo in particular was more interesting and complex than has previously been suggested The adoption of Spanish garments such as the pollera skirt and man s shirt were also less straightforward and of more recent vintage than might be expected **Emerging Infectious Diseases** ,2012 Latin American Research Review ,2005 An interdisciplinary journal that publishes original research and surveys of current research on Latin America and the Caribbean **Linguistic Stratigraphy** Matthias Urban,2023-11-29 This book examines the historical linguistic panorama of Western South America focusing on the minor languages that were partially or fully replaced by the expansion of the Quechuan family through the region The author presents a coherent and generally applicable framework for studying prehistoric language shift processes and reconstructing earlier linguistic landscapes before significant language spreads ousted former patterns of linguistic diversity This framework combines toponymic evidence with the analysis of substrate contact effects and in some cases extralinguistic evidence to create an integrated if incomplete of extinct and undocumented languages In an authoritative exploration of case studies concerning Aymara in parts of Southern Peru Ca ar in Ecuador and Chacha in Northern Peru the book shows how the identities of lost languages and earlier linguistic panoramas can be reconstructed New Perspectives on International Migration and Development Jeronimo Cortina,Enrique Ochoa-Reza,2013-07-16 With contributions from leading scholars in international development economics political science and sociology this collection draws attention to migration s developmental impacts on sending and receiving societies Through current case studies contributors examine the interplay among migration development culture family reunification human rights and government all with the aim of advancing more effective solutions to international migration issues The volume s multidisciplinary perspective combines

theoretical discussions with empirical applications appealing to both academics and policymakers eager to maximize migration's developmental impacts. The collection begins with a discussion detailing when and why migration promotes growth and what kind of indicators beyond GDP should be considered. Challenging a number of misconceptions such as the assumption that redressing poverty and alleviating underdevelopment in immigrant communities are solely economic pursuits, contributors acknowledge the inherent cultural dimension in the migration development debate and define the contours of a research program that systematically and comparatively weighs the cultural dynamics of development and migration. They also emphasize the role of human rights in reinforcing positive developmental outcomes, how traditional social roles and its developmental impacts are reshaped by the international migration of women and children, and international migration's developmental impacts within specific geographic regions.

Transnational Peasants David Kyle, 2003-04-01 Why do two groups from the same country pursue radically different economic strategies of transnational mobility? David Kyle examines the lives of people from four rural communities in two regions of the Andean highlands of Ecuador. Migrants from the southern province of Azuay shuttle back and forth to New York City mostly as undocumented laborers. In contrast, an indigenous group of Quichua speakers from the northern canton of Otavalo travel the world as handicraft merchants and musicians playing Andean music. In one village, Kyle found that Otavalans were migrating to 23 different countries and returning within a year. *Transnational Peasants* provides an intriguing historical and sociological exploration of a contemporary migration mystery.

Weaving and Dyeing in Highland Ecuador Ann Pollard Rowe, Laura M. Miller, Lynn A. Meisch, 2009-03-06 Although less well known than its much admired counterparts in Peru and Bolivia, highland Ecuadorian weaving is an Andean tradition that has relationships with these more southern areas. A world away from the industrialized textile manufacturing of Euro American society, these handmade pieces reflect the history and artistry of an ancient culture. This comprehensive study, edited by Ann Pollard Rowe, is unrivaled in its detail and includes not only descriptions of the indigenous weaving and dyeing technology but also an interpretation of its historical significance as well as hundreds of photographs, drawings, and maps that inform the understanding of the process. The principal focus is on backstrap loom weaving, a major pre-Hispanic technology. Ecuadorian backstrap looms, which differ in various ways from those found elsewhere in the Andes, have previously only been treated in general terms. Here, the basic operation of this style of loom is covered, as are a variety of patterning techniques, including warp resist, ikat, dyeing, weaving belts with twill, and supplementary and complementary warp patterning. Spanish colonial treadle loom weaving is also covered. The weaving techniques are explained in detail so the reader can replicate them, if desired. Textiles have been an important art form among Andean peoples from remote prehistory up to the present. A greater understanding of their creation process can yield a more meaningful appreciation of the art itself.

The complete camper guide for Ecuador, Transnational Aging Vincent Horn, Cornelia Schweppe, 2015-09-16 This book focuses on the diverse interrelationships between aging and

transnationality It argues that the lives of older people are increasingly entangled in transnational contexts on the social as well as the cultural economic and political levels Within these contexts older people both actively contribute to and are affected by border crossing processes In addition while some may voluntarily opt for adding a transnational dimension to their lives others may have less choice in the matter Transnational aging therefore provides a critical lens on how older people shape organize and cope with life in contexts that are no longer bound to the frame of a single nation state Accordingly the book emphasizes the agency of older people as well as the personal and structural constraints of their situations The chapters in this book reveal these aspects by approaching transnational aging from different methodological angles such as ethnographic research comparative studies quantitative data and policy and discourse analysis Geographically the chapters cover a wide range of countries in Africa Asia Europe North and South America such as Namibia Thailand Russia Germany the United States and Ecuador
