Financial Market Fragmentation and Reforms in Sub-Saharan Africa Ernest Aryeetey, 1997-01-01 FIAS Occasional Paper No 9 Many developing countries have made dramatic progress in

promoting private sector participation in their infrastructure sectors especially with the help of foreign investors However this has not been the case in Southern and Eastern Africa which have been perceived as relatively unattractive locations for investment This paper describes the state of infrastructure in the region takes stock of actual and potential projects in the various sectors and analyzes the main impediments to private investment in the region s infrastructure services

Subnational Capital Markets in Developing Countries Mila Freire, John E. Petersen, 2004 This publication has been prepared by staff members of the World Bank and selected guest contributors It sets out a framework to study subnational governments as borrowers and the range of credit markets in which they may operate It also contains a number of case studies which detail the recent experience of 18 countries in developing markets for subnational borrowers and offer insights into lessons to be drawn on fostering responsible credit market access within a framework of fiscal and financial discipline Other issues discussed include the issuing of municipal debt and its characteristics and the role of macroeconomic conditions and market development in the success or failure of those borrowings

World Development Report 1996, 1996 Almost one third of the world s population has embarked on a transition from planned to market economies Like economic reforms elsewhere the long term goal of this transition is to build a thriving market economy capable of delivering long term growth in living standards Now in its 19th annual edition the World Development Report 1996 takes an in depth look at these transition countries focusing on the key lessons that have taken place thus far The introduction to the Report poses a number of key questions that are addressed in later chapters including questions relating to initial challenges and how countries have tackled them from very different starting points and political conditions The Report also focuses on the additional challenges these transition countries face with a final chapter that summarizes the main conclusion of the Report creating a text that will no doubt become the definitive source for students studying international economics and politics

Emerging Financial Markets In The Global Economy David Nickerson, Larry Sawers, Daniel Schydlowsky, 2000-03-24 The rapid emergence of active financial markets in a number of developing and transition countries during the 1990s is a momentous phenomenon Until recently most developing countries severely manipulated and repressed their financial markets The dramatic increase in the influence of neo liberal thinking and laissez faire governance in developing countries has recently led to serious capital market reform in scores of countries Most countries without financial market reform are anxiously studying their successful neighbors in order to adopt policies programs and regulations that have a proven track record This collection of papers addresses many of the important issues raised by these dramatic changes including restructuring pension systems organizing new equity markets designing financial systems to deal with systemic risk dealing with the overhang and bad debts and attracting foreign direct investments Several papers deal with informal credit markets examining the effect of informal finance on economic development and the exponential growth in microfinance by private financial institutions in Latin America and in the United States The book is intended for policy makers and scholars interested in capital markets in

developing and transition economies It is also suitable for use as a supplementary text in upper level undergraduate and graduate courses in development finance

Building Market Institutions in South Eastern Europe Harry G. Broadman, 2004

Corporate Governance in Central Europe and Russia Maria Aluchna, Samuel O. Idowu, Irina Tkachenko, 2020-03-04 This book examines corporate governance through a holistic lens that integrates financial social and environmental goals e g increasing transparency and disclosure In addition it investigates the theoretical assumptions guiding the current corporate governance practices adopted by companies in Central Europe and Russia The book presents a dynamic study on the evolution of corporate governance systems which were practically non existent just 30 years ago In turn it addresses criticism leveled at corporate governance its impact on the outbreak of the financial crisis and recommendations for changes after the crisis The book employs a regional focus exploring a group of countries that have often been neglected in corporate governance research Carefully selected data and a variety of case studies prepared by leading authors from the region provide evidence to support the analysis
