Creating Changeable Cultures:

Leading and Implementing Business Change Management David J. Jones, Ronald J. Recardo, 2013-07-18 Being change capable is the new normal for today's growth minded organizations. The do more with less strategies of the past are no longer effective in preparing organizations to meet the increasing challenges for growth, competitiveness and innovation required of them in this new era. Business change challenges including customer and market shifts, legal and regulatory requirements, strategic redirection, acquisitions, strategic partnerships and cultural transformation are demanding that organizations effectively and efficiently manage change across multiple dimensions. To reach this level of change capability, organizations must adopt an integrated, balanced and customized approach to change management. Change management is addressed from the unique perspective of both its foundational concepts as well as practical application. Using an integrated, scalable and flexible framework, this book provides tools which can be readily customized and applied to initiatives across or within stages of the business change management lifecycle, from assessing the need for change through planning the change initiative, designing a balanced change solution which integrates the people, process and project management elements through deploying and institutionalizing the change. Common risks associated with failed or stalled change initiatives are presented with best practices and key topics associated with change management are explored and illustrated through real life case studies. Aimed at both the professionals within organizations and post graduate students and researchers within business strategy, organizational behaviour and change management disciplines, this book will provide a conceptual understanding of change management and a roadmap with a supporting toolbox for leading and implementing change that sticks.

Transforming Public and Nonprofit Organizations James E. Kee, JD, MPA, 2008-06 In the public and nonprofit arenas, leaders face the unique challenge of protecting the public interest while implementing organizational change initiatives. To succeed, these leaders must build organizations that are change centric, carefully weigh and prepare for the risks of change and develop a change oriented leadership style that authors Kee and Newcomer call transformational stewardship. A comprehensive approach to leading change, *Transforming Public and Nonprofit Organizations: Stewardship for Leading Change* provides public and nonprofit leaders and students of leadership management and organizational change with theoretical knowledge and practical tools for accomplishing change goals while protecting the broader public interest. This insightful and useful guide offers an introduction to the change oriented leadership concept, transformational stewardship, an easy to follow model for initiating change in the public interest, case studies, practical tips and resources for additional learning, an organizational assessment instrument to gauge readiness for major change, a 360 degree assessment instrument to identify individual leadership strengths and areas for improvement.
