Race, Class, and Politics in the Cappuccino City Derek S. Hyra, 2017-04-17 For long time residents of Washington DC's Shaw U Street the neighborhood has become almost unrecognizable in recent years Where the city's most infamous open air drug market once stood a farmers market now sells grass fed beef and homemade duck egg ravioli On the corner where AM PM carryout used to dish out soul food a new establishment markets its 28 foie gras burger Shaw is experiencing a dramatic transformation from ghetto to gilded ghetto where white newcomers are rehabbing homes developing dog parks and paving the way for a third wave coffee shop on nearly every block Race Class and Politics in the

Cappuccino City is an in depth ethnography of this gilded ghetto Derek S Hyra captures here a quickly gentrifying space in which long time black residents are joined and variously displaced by an influx of young white relatively wealthy and or gay professionals who in part as a result of global economic forces and the recent development of central business districts have returned to the cities earlier generations fled decades ago As a result America is witnessing the emergence of what Hyra calls cappuccino cities A cappuccino has essentially the same ingredients as a cup of coffee with milk but is considered upscale and is double the price In Hyra s cappuccino city the black inner city neighborhood undergoes enormous transformations and becomes racially lighter and more expensive by the year Hip Hop Ukraine Adriana N.

Hagen,2016-04-14 The development of post socialist cities has become a major field of study among critical theorists from across the social sciences and humanities Originally constructed under the dictates of central planners and designed to serve the demands of command economies post socialist urban centers currently develop at the nexus of varied and often competing economic cultural and political forces Among these nationalist aspirations previously simmering beneath the official rhetoric of communist fraternity and veneer of architectural conformity have emerged as dominant factors shaping the urban landscape This book explores this burgeoning field of research through detailed cases studies relating to the cultural politics of architecture urban planning and identity in the post socialist cities of Eurasia This book was published as a special issue of Nationalities Papers Planning and LGBTQ Communities Petra L. Doan,2015-03-24 Although the last decade has seen steady progress towards wider acceptance of lesbian gay bisexual transgendered and queer LGBTQ individuals LGBTQ residential and commercial areas have come under increasing pressure from gentrification and

redevelopment initiatives As a result many of these neighborhoods are losing their special character as safe havens for sexual and gender minorities Urban planners and municipal officials have sometimes ignored the transformation of these neighborhoods and at other times been complicit in these changes Planning and LGBTQ Communities brings together experienced planners administrators and researchers in the fields of planning and geography to reflect on the evolution of urban neighborhoods in which LGBTQ populations live work and play The authors examine a variety of LGBTQ residential and commercial areas to highlight policy and planning links to the development of these neighborhoods Each chapter explores a particular urban context and asks how the field of planning has enabled facilitated and or neglected the specialized and diverse needs of the LGBTQ population A central theme of this book is that urban planners need to think beyond queer space because LGBTQ populations are more diverse and dispersed than the white gay male populations that created many of the most visible gayborhoods The authors provide practical guidance for cities and citizens seeking to strengthen neighborhoods that have an explicit LGBTQ focus as well as other areas that are LGBTQ friendly They also encourage broader awareness of the needs of this marginalized population and the need to establish more formal linkages between municipal government and a range of LGBTQ groups Planning and LGBTQ Communities also adds useful material for graduate level courses in planning theory urban and regional theory planning for multicultural cities urban geography and geographies of gender and sexuality
