attempts by educators and psychologists to answer theoretical as well as practical questions about why only some students developed literacy skills. It examines the efforts to prevent reading failure as well as to aid those learners who had not learned to read. The four types of remedial programs explored are skills based, language based, literature based, and technology based. The book identifies the social, emotional, physical, and cognitive factors that have been linked to remedial reading instruction. Based on a review of more than 3000 primary sources from the 1800s to the present, extensive quotations have been integrated into the text to give readers a sense of intellectual involvement with the educators who are discussed.

Children's Literature Christine Leland, Mitzi Lewison, Jerome Charles Harste, 2013 Offers a fresh perspective on how to implement children's literature across the curriculum in ways that are both effective and purposeful. It invites multiple ways of engaging with literature that extend beyond the genre and elements approach and also addresses potential problems or issues that teachers may confront.

Teaching Children's Literature Christine H. Leland, Mitzi Lewison, Jerome C. Harste, 2022-11-17 Now in its third edition this indispensable text offers a critical perspective on how to integrate children's literature into the curriculum in effective purposeful ways. Structured around three mantras that build on each other: Enjoy, Dig deeply, Take action, the book is rich with real examples of teachers implementing critical pedagogy and tools to support students' development as enthusiastic readers and thinkers. The materials and practical strategies focus on issues that impact children's lives: building from students' personal experiences and cultural knowledge by using language to question the everyday world; analyze popular culture and media; understand how power relationships are socially constructed; and consider actions that can be taken to promote social justice. Each chapter features classroom vignettes showcasing the use of literature and inviting conversation; three key principles elaborating the main theme of the chapter and connecting theory with practice; and related research on the topics and their importance for curriculum. Thoroughly revised, the third edition includes new recommendations for teaching with a critical edge and exploring alternative approaches to standardized assessment. With more attention to culturally and linguistically diverse learners and addressing new topics such as censorship and controversial texts, the new edition is essential for courses on teaching children's literature and English Language Arts methods and for every preservice elementary and middle school English teacher. A companion website to enrich and extend the text includes an annotated bibliography of literature selections, suggested text sets, resources by chapter, ideas for professional development, and recommendations for further reading.
