Animation in Europe Rolf Giesen, 2022-08-24 There is a lot one could say about animation in Europe but above all there is no consistent European animation. It is as disparate as the various countries involved. Audiences will certainly recognize American or Japanese animation but in Europe it can range from Czech, Polish and Hungarian to Greek, Italian, Spanish, Portuguese, French and British. *Animation in Europe* provides a comprehensive review of the history and current situation of animation in over 20 European countries. It features numerous interviews with artists and producers, including rare documents and firsthand accounts that illustrate the rich history of animation in Europe. Additional features include an extensive chronology with key events in European animation, a Who's Who of producers, directors, writers and animators working in Europe, an examination of the origin of European animation and its influence. *Animation in Europe* is the first book devoted entirely to this topic and therefore will be of value for animation buffs as well as practitioners and researchers.

Transnational European Cinema Huw D. Jones, 2024-01-03 This book explores how audiences in contemporary Europe engage with films from other European countries. It draws on admissions data, surveys and focus group discussions from across the continent to explain why viewers are attracted to particular European films, nationalities and genres, including action, adventures, family films, animations, biopics, period dramas, thrillers, comedies, contemporary drama and romance. It also examines how these films are financed, produced and distributed, how they represent Europe and other Europeans and how they affect audiences. Case studies range from mainstream movies like *Skyfall*, *Taken*, *Asterix Obelix*, *God Save Britannia* and *Sammy's Adventures*, *A Turtle's Tale* to more middlebrow and arthouse titles such as *The Lives of Others*, *Volter*, *Coco Before Chanel*, *The Girl with the Dragon Tattoo*, *Intouchables*, *The Angels Share*, *Ida*, *The Hunt* and *Blue Is the Warmest Colour*. The study shows that watching European films can sometimes improve people's understandings of other countries and make them feel more European. However, this is limited by the strong preference for Anglo-American action adventures that offer few insights into the realities of European life. While some popular European arthouse films explore a wider range of nationalities, social issues and historical events, these mainly appeal to urban-dwelling graduates. They can also sometimes accentuate tensions between Europeans instead of bringing them together. The book discusses what these findings mean for the European film industry, audiovisual policy and scholarship on transnational and European cinema. It also considers how surveys, focus groups, databases and other methods that go beyond traditional textual analysis can offer new insights into our understanding of film.
