Creating On Line Media:

Creating Online Media Carole Rich, 1999 Designed for courses in on line journalism this text emphasizes skill development from Internet searches to writing for on line media to Website design The text encourages the active use of the Internet through an innovative hands on approach *Interactivity and the Online Media Sphere in Nigeria* Joseph Wilson, 2019-01-15 In today s age of extraordinary technological development the mass media industry must constantly innovate and adopt emerging concepts to keep up with the demand of online visibility and prominence Interactivity is a distinguishing feature of the current online environment and is a necessity in maintaining relevance in digital media sphere The growing impact of new media technologies and the resulting pressure on mass media organizations to incorporate more audience involvement have made interactivity a particularly sought after phenomenon throughout the industry The prominence of online interactivity has resulted in anxiety throughout the mass media industry regarding the ways in which media organisations can engage with their audience and maintain a high level of traffic on their websites Attaining these heights largely depends on the quality and nature of interactivity on a given site This book provides insights into the interactivity basics of an ideal media website and highlights the nature of interactivity in the Nigerian online media sphere vis a vis the basics of interactivity *Making Online News* Chris A. Paterson, Chris Paterson, David Domingo, 2008 Volume 2 summary Online journalism has taken center stage in debates about the future of news Instead of speculating this volume offers rich empirical evidence about actual developments in online newsrooms The authors use ethnographic methodologies to provide a vivid close analysis of processes like newsroom integration the transition of newspaper and radio journalists to digital multimedia production the management of user generated content the coverage of electoral campaigns the pressure of marketing logics the relationship with bloggers or the redefinition of news genres Publisher description *Disinformation in Open Online Media* Mike Preuss, Agata Leszkiewicz, Jean-Christopher Boucher, Ofer Fridman, Lucas Stampe, 2024-08-30 This book constitutes the refereed proceedings of the 6th Multidisciplinary International Symposium on Disinformation in Open Online Media MISDOOM 2024 held in Münster Germany during September 24 2024 The 8 full papers presented in this book were carefully reviewed and selected from 15 submissions The symposium tries to integrate the scientific process of multiple communities and offers a proceeding publication track as well as the submission of presentation proposals as extended abstracts *Creating Chaos Online* Asta Zelenkauskaitė, 2022-10-10 With the prevalence of disinformation geared to instill doubt rather than clarity *Creating Chaos Online* unmask disinformation when it attempts to pass as deliberation in the public sphere and distorts the democratic processes Asta Zelenkauskaitė finds that repeated tropes justifying Russian trolling were found to circulate across not only all analyzed media platforms comments but also across two analyzed sociopolitical contexts suggesting the orchestrated efforts behind messaging Through a dystopian vision of publics that are expected to navigate in the sea of uncertain both authentic and orchestrated content pushed by human and nonhuman actors *Creating*

Chaos Online offers a concept of post publics The idea of post publics is reflected within the continuum of treatment of public counter public and anti public This book argues that affect instilled arguments used in public deliberation in times of uncertainty along with whataboutism constitute a playbook for chaos online *The Economic Policy of Online Media* Peter Ayolov,2023-05-05 This book explores the distortion of communication online centered around the theory that the economic policy model of online media is primarily based on the systematic manufacture of dissent Following the media criticism tradition of Habermas and Chomsky among others the book shows how anger can motivate news consumption as the principle of divide and rule in the online media of the 21st century is systematically applied The author posits that media addiction increases interest therefore deliberate distortion of facts and the manufacture of dissent provide the media with a larger audience and this becomes the business model This insightful volume will interest researchers scholars and students of media economics political economy of media digital media propaganda mass communication and media literacy

Internet Multimedia Communications Using SIP Rogelio Martinez Perea, 2008-02-27 Session Initiation Protocol SIP was conceived in 1996 as a signaling protocol for inviting users to multimedia conferences With this development the next big Internet revolution silently started That was the revolution which would end up converting the Internet into a total communication system which would allow people to talk to each other see each other work collaboratively or send messages in real time Internet telephony and in general Internet multimedia is the new revolution today and SIP is the key protocol which allows this revolution to grow The book explains in tutorial fashion the underlying technologies that enable real time IP multimedia communication services in the Internet voice video presence instant messaging online picture sharing white boarding etc Focus is on session initiation protocol SIP but also covers session description protocol SDP Real time transport protocol RTP and message session relay protocol MSRP In addition it will also touch on other application related protocols and refer to the latest research work in IETF and 3GPP about these topics 3GPP stands for third generation partnership project which is a collaboration agreement between ETSI Europe ARIB TTC Japan CCSA China ATIS North America and TTA South Korea The book includes discussion of leading edge theory which is key to really understanding the technology accompanied by Java examples that illustrate the theoretical concepts Throughout the book in addition to the code snippets the reader is guided to build a simple but functional IP soft phone therefore demonstrating the theory with practical examples This book covers IP multimedia from both a theoretical and practical point of view focusing on letting the reader understand the concepts and put them into practice using Java It includes lots of drawings protocol diagrams UML sequence diagrams and code snippets that allow the reader to rapidly

understand the concepts Focus on HOW multimedia communications over the Internet works to allow readers to really understand and implement the technology Explains how SIP works including many programming examples so the reader can understand abstract concepts like SIP dialogs SIP transactions etc It is not focused on just VoIP It looks At a wide array of enhanced communication services related to SIP enabling the reader put this technology into practice Includes nearly 100 references to the latest standards and working group activities in the IETF bringing the reader completely up to date Provides a step by step tutorial on how to build a basic though functional IP soft phone allowing the reader to put concepts into practice For advanced readers the book also explains how to build a SIP proxy and a SIP registrar to enhance one s expertise and marketability in this fast moving area Creating a More Transparent Internet Piek Vossen,Antske Fokkens,2022-05-05 On social media new forms of communication arise rapidly many of which are intense dispersed and create new communities at a global scale Such communities can act as distinct information bubbles with their own perspective on the world and it is difficult for people to find and monitor all these perspectives and relate the different claims made Within this digital jungle of perspectives on truth it is difficult to make informed decisions on important things like vaccinations democracy and climate change Understanding and modeling this phenomenon in its full complexity requires an interdisciplinary approach utilizing the ample data provided by digital communication to offer new insights and opportunities This interdisciplinary book gives a comprehensive view on social media communication the different forms it takes the impact and the technology used to mine it and defines the roadmap to a more transparent Web New Media and the Politics of Online Communities ,2020-09-25 This interdisciplinary collection of papers explores the question of identity and its interaction with digital technologies online platforms and primarily new media **Creating Marketing Magic and Innovative Future Marketing Trends** Maximilian Stieler,2017-01-06 This volume includes the full proceedings from the 2016 Academy of Marketing Science AMS Annual Conference held in Orlando Florida entitled Creating Marketing Magic and Innovative Future Marketing Trends The marketing environment continues to be dynamic As a result researchers need to adapt to the ever changing scene Several macro level factors continue to play influential roles in changing consumer lifestyles and business practices Key factors among these include the increasing use of technology and automation while juxtaposed by nostalgia and back to the roots marketing trends At the same time though as marketing scholars we are able to access emerging technology with greater ease to undertake more rigorous research practices The papers presented in this volume aim to address these issues by providing the most current research from various areas of marketing research such as consumer behavior marketing strategy marketing theory services marketing advertising branding and many more Founded in 1971 the Academy of Marketing Science is an international organization dedicated to promoting timely explorations of phenomena related to the science of marketing in theory research and practice Among its services to members and the community at large the Academy offers conferences congresses and symposia that attract delegates from around the world

Presentations from these events are published in this Proceedings series which offers a comprehensive archive of volumes reflecting the evolution of the field. Volumes deliver cutting edge research and insights complementing the Academy's flagship journals the Journal of the Academy of Marketing Science JAMS and AMS Review. Volumes are edited by leading scholars and practitioners across a wide range of subject areas in marketing science.

Social Media News Umang Marar, 2025-01-03 Social Media News Trends and Influence explores the growing role of social media as a major source of information. We emphasize the importance of accurate relevant and timely statistics for informed decision making at local national and global levels. Our book is designed to help budding journalists master the finer nuances of media writing. Social media's unique nature and diverse platforms present challenges in understanding its psychological impact. We include a collection of recent studies that focus on the effects of social media news and the framing of social issues. Authors of these studies used surveys experiments and content analysis to explore their research questions. Each chapter provides valuable insights into the evolving impact of social media information.
