Creating Competent Communicators K6:

The Teacher's Guide to Media Literacy Cyndy Scheibe, Faith Rogow, 2012 A Deeper Sense of Literacy is the first book to suggest that media literacy is both a content area and an approach to teaching that can be integrated into any subject area. It combines theory and practical application in a way that addresses the most important questions related to media literacy in education today: what is it, why is it important, how can you teach it across a wide range of curriculum areas and grade levels, and does it work? Rather than focusing on how to teach media literacy, Scheibe and Rogow focus on actually using media literacy to teach lessons across the content areas.

Literacy from A to Z Barbara R. Blackburn, 2013-10-11 This book offers strategies, activities, and tools to help teachers and reading specialists teach elementary and middle school students to become better readers, writers, speakers, and listeners. Written in a lively and accessible style with one chapter for each letter of the alphabet, *Literacy from A to Z* offers practical advice and fully realized examples to improve your lesson plans.

Teaching with the Common Core Standards for English Language Arts, Grades 3-5 Lesley Mandel Morrow, Karen K. Wixson, Timothy Shanahan, 2012-12-07 The Common Core State Standards (CCSS) are the first academic standards to be independently adopted by almost every state in the country. The purpose and intent of the Common Core standards for English Language Arts (ELA) as well as Literacy in History, Social Studies, and Science education are the focus of this book. This volume is aimed at educators, administrators, graduate students, university professors, and others who deal with students in grades 3 through 5. Each of the chapters addresses one of the major English Language Arts domains: literature, informational texts, foundational skills, writing, speaking and listening, language, technology, and assessment. They contain invaluable information, insight, and research from literacy leaders in their respective fields. Their objective is twofold: to provide a theoretical background and detailed explanation of each of the CCSS ELA standards, as well as practical suggestions, classroom vignettes, models, instructional resources, and unit ideas to implement the standards.

Checking for Understanding Douglas Fisher, Nancy Frey, 2015-12-18 A teacher presents a lesson and at the end asks students if they understand the material. The students nod and say they get it. Later, the teacher is dismayed when many of the students fail a test on the material. Why aren't students getting it? And just as important, why didn't the teacher recognize the problem? In *Checking for Understanding*, Douglas Fisher and Nancy Frey show how to increase students' understanding with the help of creative formative assessments. When used regularly, formative assessments enable every teacher to determine what students know and what they still need to learn. Fisher and Frey explore a variety of engaging activities that check for and increase understanding, including interactive writing, portfolios, multimedia presentations, audience response systems, and much more. This new 2nd edition of *Checking for Understanding* has been updated to reflect the latest thinking in formative assessment and to show how the concepts apply in the context of Fisher and Frey's work on gradual release of responsibility, guided instruction, formative assessment systems, data analysis, and quality instruction. Douglas Fisher and Nancy Frey are the

creators of the Framework for Intentional and Targeted FIT Teaching They are also the authors of numerous ASCD books including *The Formative Assessment Action Plan Practical Steps to More Successful Teaching and Learning* and the best selling *Enhancing RTI How to Ensure Success with Effective Classroom Instruction and Intervention* [Iowa Journal of Communication](#) ,2004 **Teaching K-6 Mathematics** Douglas K.
