contribution of skilled interpersonal communication to success in both personal and professional contexts is now widely recognised and extensively researched. As such knowledge of various types of skills and of their effects in social interaction is crucial for effective interpersonal functioning. Previous editions have established *Skilled Interpersonal Communication* as the foremost textbook on communication. This thoroughly revised and expanded 6th edition builds on this success to provide a comprehensive and up to date review of the current research theory and practice in this popular field of study. The first two chapters introduce the reader to the nature of skilled interpersonal communication and review the main theoretical perspectives. Subsequent chapters provide detailed accounts of the fourteen main skill areas namely nonverbal communication, reinforcement, questioning, reflecting, listening, explaining, self disclosure, set induction, closure, assertiveness, influencing, negotiating and interacting in and leading group discussions. Written by one of the foremost international experts in the field and founded solidly in research, this book provides a key reference for the study of interpersonal communication. This theoretically informed yet practically oriented text will be of interest both to students of interpersonal communication in general and to qualified personnel and trainees in many fields.
