Matthews, 2025-09-20 Dissolve to See is the second volume in Laing Z Matthews groundbreaking five volume series on the modern rebirth of inner alchemy Where Volume I Burning Down the False Self walked the reader through the sacred fire of ego dissolution Dissolve to See takes us into the waters of the soul where grief symbol dream and mystery flow together to unmake what the fire could not reach This is not a book about understanding It is a book about un-forming Rooted in Western esoteric alchemy Jungian depth psychology Hermetic mysticism and Daoist spiritual practice this volume immerses the seeker in the second phase of the Great Work Dissolution But this is not an abstract theory You will walk through the flood yourself Every chapter is an initiatory journey into sadness into silence into the imaginal realm where the soul speaks in symbols and nothing is certain but change Across 18 luminous chapters you will learn to Honor the sacred work of grief as a dissolving fire Understand emotions not as symptoms but initiations Engage with dreams as gateways to the imaginal realm Reframe overwhelm confusion and even breakdown as sacred rites of passage Cultivate vision beyond the mind through poetry symbol and the eyes of the soul Through mythic storytelling spiritual psychology and field tested practice Matthews guides the reader to release the need to know to float to ache to wait without panic The book culminates in a quiet revolution spiritual maturity is not control but surrender And the true alchemist does not chase light but dissolves into the current that

Times Alone Antonio Machado, 2012-01-01 Antonio Machado a school teacher and philosopher and one of Spain's foremost poets of the twentieth century writes of the mountains the skies the farms and the sentiments of his homeland clearly and without narcissism Just as before I'm interested in water held in but now water in the living rock of my chest Machado has vowed not to soar too much he wants to go down to the hells or stick to the ordinary Robert Bly writes in his introduction He brings to the ordinary to time to landscape and stony earth to bean fields and cities to events and dreams magical sound that conveys order penetrating sight and attention The poems written while we are awake are more original and more beautiful and sometimes more wild than those made from dreams Machado said In the newspapers before and during the Spanish Civil War he wrote of political and moral issues and in 1939 fled from Franco's army into the Pyrenees dying in exile a month later When in 1966 a bronze bust of Machado was to be unveiled in a town here he had taught school thousands of people came in pilgrimage only to find the Civil Guard with clubs and submachine guns blocking their way This selection of Machado's poetry beautifully translated by Bly begins with the Spanish master's first book *Times Alone* *Passageways in the House* and *Other Poems* 1903 and follows his work to the poems published after his death *Poems from the Civil War* written during 1936-1939

Privileging Water in Lima, Mexico City, and New Orleans Clare Cardinal-Pett, 2024-11-20 *Privileging Water in Lima Mexico City and New Orleans* An Environmental History charts the development of the indigenous hydro social territories and their colonial transformations into modern political ecologies This

book begins with a summary of the environmental histories of these regions before the arrival of people To give water its due as an agent of historical processes it is important to understand its role in shaping these three distinct ecosystems a role it still plays today despite thousands of years of human intervention in the hydrological nature of those systems It is certain that as human caused climate changes rework ecosystems worldwide surviving the Anthropocene in Mexico City New Orleans and Lima will require other ways of knowing water as hydro social territories that challenge modern notions of urbanism and foreground ways of knowing formerly considered archaic Following the inextricable histories of water and anthropogenic landscapes provokes many questions about the nature of cities especially questions of environmental justice The answers should not be abstract or universal Instead Clare Cardinal Pett argues that urbanization on the planet must be reimagined and reconstructed as bio regional systems and hydro social territories that can be best defined more comprehensively as political ecologies
