dreaming mind's transformative and intuitive powers. These are the practices used by ancient prophets, seers, and sages to control dreams and visions. Shainberg draws upon the ancient Sephardic Kabbalah tradition as well as illustrative stories and myths from around the Mediterranean to teach readers how to harness the intuitive power of their dreaming. While the Hebrew Bible and our Western esoteric tradition give us ample evidence of dream teachings, rarely has the path to becoming a conscious dreamer been articulated. Shainberg shows that dreaming is not something that merely takes place while sleeping; we are dreaming at every moment. By teaching the conscious mind to be awake in our sleeping dreams and the dreaming mind to be manifest in daytime awareness, we are able to achieve revolutionary consciousness. Her inner vision exercises initiate creative and transformative images that generate the pathways to self-realization. **Social Dreaming,**

Associative Thinking and Intensities of Affect Julian Manley, 2018-08-23. This book describes a way of sharing dreams in a group called social dreaming. It explores how the sharing of real night-time dreams in a group can offer information on and insight into ourselves and the worlds we live in and share. It investigates how we can turn dream images and ideas and feelings that arise from these images into conscious thought before describing the ways in which these can be used. Using a background of the psychosocial combined with a philosophical lens influenced by the work of Gilles Deleuze, Julian Manley shows how social dreaming can be understood as a Deleuzian rhizome of affects: a web or a root design where things interconnect in a random and spontaneous fashion rather than in a sequential or linear way. He illustrates how social dreaming can link dreams together into a collage of images and compares this to the rhizome where clusters of emotional intensity which emerge from the dream images weave and interconnect with other clusters forming a web of interlinked dream images and emotions. From the basis of this rhizome emerges an interpretation of social dreaming as a body without organs and the social dreaming matrix as a smooth space where meanings emerge from the way these images form connections and come and go according to our emotions at any particular moment. Crisis Dreaming

Rosalind Cartwright, Lynne Lamberg, 2000. Rosalind Cartwright Ph.D. and Lynne Lamberg present new evidence that dreams are coherent symbolic reflections of the dreamer's mental state. They show that you can learn about yourself and your problems by studying your dreams. *Crisis Dreaming* provides simple, effective strategies for remembering your dreams and for rewriting better dream scripts while you sleep. These tactics are based on Dr. Cartwright's more than 25 years of scientific research. You can carry the insight you gain from your dreams into your waking life to help resolve depression and anxiety brought on by divorce, bereavement, serious illness, job loss, and other crises. In this book, you'll meet people who learned with Dr. Cartwright's help to use their dreams to change their daily lives. They gained control over the demons that plagued them. By following the guidelines in this book, you can achieve that goal too. *Master of the Ghost Dreaming*
